

Infection Control & Hospital Epidemiology

Volume 45, No 10
October 2024

ICHE

Artist: Michael Calderwood

Flexible Inspection Scope: FIS-007

Visually Inspect Small Lumens
with Remarkable Clarity

Designed to inspect internal channels of potentially soiled or damaged items, the Flexible Inspection Scope provides enhanced light, vision & magnification.

hmark.com
800.521.6224

**Interchangeable Flexible Inspection
Scope attachments are available in
varying diameters & lengths**

CT-101: 1.9mm Diameter, 110cm Length

CT-102: 1.06mm Diameter, 110cm Length

CT-103: 1.9mm Diameter, 60cm Length

CT-104: 1.9mm Diameter, 200cm Length

Scope Viewer Software: For Documentation of Photo & Video

Scope Viewer Software allows you to easily capture and save photos and videos with the Flexible Inspection Scope. An image reference window also allows the user to display a previously saved image to reference alongside of the live view of an item being inspected.

Capture Images

Record Video

Simple Interface

NEW! WatchDog Endo AI

When used in conjunction with the Flexible Inspection Scope, this artificial intelligence software identifies anomalies within the working channel, such as scratches, crimps, stains, and moisture droplets.

CONTENTS

Commentary

- 1149** Is the BLADDER score the “boost” we need?
Lindsay N. Taylor, Christopher J. Crnich and Robin L.P. Jump

Original Articles

- 1151** BLADDER score: evaluating a tool to support urinary diagnostic and antibiotic stewardship in hospitalized adults
Bradley J. Langford, Stephanie Amoah, Jennifer Hansen, Lorraine Hudd, Huda Almohri and Janice Wright
- 1156** Healthcare worker attitudes on routine non-urological preoperative urine cultures: a qualitative assessment
Julia E. Friberg Walhof, Marin L. Schweizer, Kalpana Gupta, Madisen Brown, Daniel Suh, Judith Strymish, William J. O'Brien, Jeffrey Chan, Kelly Miell, Vanessa Au, Barbara W. Trautner and Kimberly C. Dukes
- 1162** Postoperative outcomes after receipt of ertapenem antimicrobial prophylaxis for colon surgery: a multicenter retrospective cohort study
Christopher J. Hostler, Jay Krishnan, Alice Parish, Allison Baroco, Penny Cooper, Onofre Donceras, Ebbing Lautenbach, Pam Tolomeo, Tracy Sansossio, Carlos A.Q. Santos, David Schwartz, Helen Zhang, Sharon Welbel, Yuliya Lokhnygina, Deverick J. Anderson and for the CDC Prevention Epicenters Program
- 1168** Antibiotic practice and stewardship in the management of neutropenic fever: a survey of US institutions
Xiao Wang, Swarn V. Arya, Sonal Patel, Stephen Saw, Mary A. Decena, Rebecca Hirsh, David A. Pegues and Matthew J. Ziegler
- 1176** The burden of healthcare-associated infections in New Zealand public hospitals 2021
Arthur J. Morris, Mike Hensen, Nicholas Graves, Yiyang Cai, Martin Wolkewitz, Sally A. Roberts and Nikki Grae
- 1183** *C. auris* and neighborhood socioeconomic vulnerability in the state of Maryland from 2019 to 2022
L. Leigh Smith, Jason Falvey, Brittany Grace, Elisabeth Vaeth, Jamie Rubin, Rebecca Perlmutter, David Blythe, Daryl Hawkins, Martha Mbuthia, Mary-Claire Roghmann, Clare Rock and Surbhi Leekha
- 1190** Leveraging multi-database linkages to assess racial and ethnic disparities among Carbapenem-resistant Enterobacterales cases in Tennessee, 2015–2019
Erika M. Kirtz, Allison Chan, Kristina McClanahan and Rany Octaria
- 1197** Estimating *Clostridioides difficile* infection-associated readmission rates: A systematic review and meta-analysis
Taryn A. Eubank, Kittiya Jantarathaneewat, Jinhee Jo and Kevin W. Garey

- 1202** To see, or not to see ... pathogens in virtual reality hand hygiene training
Aline Wolfensberger, Juliette C. Désiron, Beatrice Domenech-Jakob, Dominik Petko and Walter Zingg
- 1208** Impact and learner perspectives of a spaced-education platform to assess hand hygiene auditor competency
Ana M. Vaughan-Malloy, Renée Lehane, Mary M. Wells and Thomas J. Sandora
- 1213** Assessing effectiveness of cleaning and disinfection of equipment and environmental surfaces in cystic fibrosis clinics using an ATP assay
Marianne S. Muhlebach, Thomas Shields, Kushal K. Shah, Maria Ansar, Isabel Virella-Lowell, Juyan J. Zhou, John J. LiPuma and Lisa Saiman
- 1219** Measuring the efficacy of standard and novel disinfection methods on frequently used physical therapy equipment: a 2-phase prospective randomized controlled trial
Bobby G. Warren, Aaron Barrett, Amanda Graves, Guerbine Fils-Aime, Jennifer Edelschick, Jolinda Cullinan, Diandrea McCotter, Nicholas A. Turner and Deverick J. Anderson

Concise Communications

- 1225** Late surgical site infections among solid organ transplant recipients: an unrecognized clinical entity
Manuela Carugati, Sana Arif, Debra Lynn Sudan, Bradley Henry Collins, John Carroll Haney, Jacob Niall Schroder, John Michael Reynolds, Sarah Lewis Stamps, Michael E. Yarrington, Rachel A. Miller and Barbara D. Alexander
- 1230** CDC consultations related to ophthalmic practices and settings, January 2016–December 2023
Kevin B. Spicer, Joseph F. Perz and Kiran M. Perkins
- 1234** Team-based infection preventionist review improves inter-rater reliability in identification of healthcare-associated infections
Alyssa Castillo, Meghan Hudziec, Sarah Elizabeth Totten and Larissa Pisney
- 1237** Recurrent colonization with methicillin-susceptible *Staphylococcus aureus* after successful decolonization in a neonatal intensive care unit
Archana Balamohan, Medini K. Annavaajhala, Vitaliya Boyar, Alexander Chong, Anne-Catrin Uhlemann and Lorry G. Rubin
- 1240** Sustainment of perioperative antimicrobial prophylaxis guidelines in children following discontinuation of an educational intervention to support stewardship
Anastasia Dimopoulou, Georgia Kourlaba, Irimi Chronopoulou, Anastasia Avloniti, Eleftheria Mavrigiannaki, Ioannis Georgopoulos and Theoklis Zaoutis
- 1243** Impact of an enterprise-wide ambulatory antibiotic stewardship bundle on patient satisfaction surveys
Kelsey L. Jensen, Ryan W. Stevens, Paschalis Vergidis, Abinash Virk and Dan Ilges
- 1247** Use of human-centric and participatory design for modifying a daily environmental cleaning checklist: a quality improvement study
Linda McKinley, Julie Keating, Sydney Hoel, Vishala Parmasad and Nasia Safdar
- 1250** Evaluation of a wall-mounted far ultraviolet-C light device used for continuous air and surface decontamination in a dental office during routine patient care
Andrew O. Osborne, Samir Memic, Jennifer L. Cadnum and Curtis J. Donskey
- 1253** Comparative analysis of sampling and detection methods for fungal contamination on common healthcare environment surface materials
Bobby G. Warren, Amanda Graves, Aaron Barrett, Alicia Nelson, Matthew Stiegel, Becky Smith, Ilan Schwartz and Deverick J. Anderson

Letters to the Editor

- 1257** Leveraging real-time patient data during the COVID-19 pandemic
John C. O'Horo, Douglas W. Challener, Cory Kudrna, Jason R. Buckmeier, Steve G. Peters, Daryl J. Kor, Mark W. Matson, Andrew D. Badley, Charles D. Burger and Rajeev Chaudhry
- 1259** A need for a global alert system for rapid recall of contaminated products to prevent ongoing hospital outbreaks
Jyoti Somani, Nazira Fauzi, Revathi Sridhar, Hwang Ching Chan, Isaac Taoyang Low, Yvonne Luh Ping Lum, Rohit Agrawal, Ka Lip Chew, Gabriel Yan, Vernon Lee, Michelle Ang and Dale Fisher
- 1261** Blood exposure to *Babesia microti* through sharps injury
Scott C. Roberts and Peter J. Krause

Subscriptions

The individual subscription prices for 2024 are: Print & Online: \$353; Online Only: \$284. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's homepage on Cambridge Core: cambridge.org/ICHE.

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: subscriptions_newyork@cambridge.org (USA, Canada, and Mexico) or journals@cambridge.org (outside of USA, Canada, and Mexico).

Postmaster: Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

About the cover:

Title: *In Our Hands*, 2023

Beginning with volume 43 (January 2022), the cover of *Infection Control & Hospital Epidemiology* (ICHE) will feature art inspired by or reflective of topics within the scope of the journal and their impact on patients, healthcare personnel and our society. These topics include healthcare-associated infections, antimicrobial resistance, and healthcare epidemiology. The intent is to feature original artwork that has been created by individuals who have a personal connection to one or more of these topics through their clinical work, research, or experience as a patient or an affected patient's family member, friend or advocate. The goal is to provide readers with a visual reminder of the human impact of the topics addressed in the journal and the importance of the work being done by those who read or contribute to ICHE and by all who are trying to make healthcare safer through the elimination of healthcare-associated infections.

For more information about the ICHE cover and how to submit artwork for consideration for a future cover, please visit the ICHE website: <https://www.cambridge.org/core/journals/infection-control-and-hospital-epidemiology/front-covers>

Artist: Michael Calderwood, MD, MPH

Medium: Acrylic paints on canvas

Dr. Calderwood spoke to ICHE about his artwork.

What was the inspiration for this artwork? Over the years, there have been many campaigns to improve hand hygiene in health care facilities (e.g., “Clean Hands Save Lives,” “My Health is in Your Hands,” “Speak up for Clean Hands”). During the past few years, though, the concept of the hand has taken on other meanings, as those in the healthcare community have lent a hand across a myriad of settings, have held the hand of patients, family, friends, and fellow healthcare workers who were suffering, and have stood hand-in-hand in facing the unknown, overcoming obstacles, and navigating the path forward. A hand held in an upward position, as shown in the painting, is also a means of saying “stop” or more specifically “prevent” as written on the palm. Whether it be in areas of HAI prevention, antimicrobial stewardship, outbreak investigation, diagnostic stewardship, or one of the many other topics covered within the pages of ICHE, the idea of prevention is one where safe and effective patient care is front and center in everything that we do. We are strongest when we work together toward a better future, recognizing that we each have something to teach, and we each have something to learn. As for the colors chosen in my art, many of our infection prevention strategies are targeted at infections involving blood, urine, wounds, stool, and water. You will see these each depicted, melding into a singular patina reminding us once again to wash our hands, as clean hands really do save lives.

What is your personnel connection to the content of ICHE? I am an active member of the Society for Healthcare Epidemiology of America (SHEA), having served on multiple committees, including the Publications Committee. I am both an author and a reviewer for ICHE. Recently, I was lead author on the 2022 update of the surgical site infection prevention section of the Compendium of Strategies to Prevent Healthcare-Associated Infections in Acute Care Hospitals. I have served in leadership roles in hospital epidemiology and antimicrobial stewardship, and I currently oversee both disciplines in my role as Chief Quality Officer at Dartmouth Hitchcock Medical Center.

Dr. Calderwood is the Chief Quality Officer for Dartmouth Hitchcock Medical Center in Lebanon, New Hampshire, USA. He is an Associate Professor of Medicine at the Geisel School of Medicine at Dartmouth and a staff physician in Infectious Disease & International Health.
