BULLETIN

ISSN 0004-9727

of the

AUSTRALIAN MATHEMATICAL SOCIETY

Volume 38 Number 2 **October 1988**

Isotropic varieties in the singular symplectic geometry
Stanisław Janeczko and Adam Kowalczyk 161
On conjugacy classes in finite loops
T. Kepka and M. Niemenmaa 171
A class of nonconvex functions and mathematical programming
T. Weir and V. Jeyakumar 177
Commutativity results for rings
Hazar Abu-Khuzam 191
Recurrence in Lipschitz stable flows
Keon-Hee Lee 197
On a theorem of Li-Banghe and Peterson on immersions of manifolds
Tze-Beng Ng 203
On minimal faithful permutation representations of finite groups
David Easdown and Cheryl E. Praeger 207
Fubini's theorem for Radon polymeasures
Brian Jefferies 221
Almost periodic solutions of nonlinear parabolic equations
Yisong Yang 231
On Mosco convergence of convex sets
Gerald Beer 239
Oscillatory properties of the solutions of linear equations of neutral type
D.D. Bainov, A.D. Myshkis and A.I. Zahariev 255
A topological zero-one law for open continuous maps
E. Barone and K.P.S. Bhaskara Rao 263
On commutativity of associative rings
Mohd. Ashraf and Murtaza A. Quadri 267
On the lattice of right ideals of the endomorphism ring of an abelian group
Theodore G. Faticoni 273
New characterisations of pseudocompact spaces
Wang Yan-Min 293
Automorphisms of certain p-groups (p odd)
M.J. Curran 299
Control point insertion for B-spline curves
Heinz H. Gonska and A. Röth 307

ABSTRACTS OF AUSTRALASIAN Ph.D. THESES

Numerical solution of quadratically non-linear boundary value problems using integral equation techniques, with application to nozzle and wall flows
K.H.M. Goh 315
A stochastic analysis of scoring systems
Graham Hilford Pollard 317

BULLETIN OF THE AUSTRALIAN MATHEMATICAL SOCIETY

Editors: Sheila Oates-Williams Deputy Editor: A. S. Jones
Honorary Editor: B. H. Neumann

Associate Editors

Robert S. Anderssen	Peter G. Dodds	D. A. Holton	J. H. Rubinstein
Alan L. Andrew	P. Donovan	D. C. Hunt	Leon Simon
E. J. Billington	B. J. Gardner	B. D. Jones	Ross Street
B. D. Craven	J. R. Giles	P. E. Kloeden	G. Szekeres
Brian A. Davey	J. R. J. Groves	Sidney A. Morris	D. G. Tacon
P. M. Diamond	J. A. Hempel	G. B. Preston	E. U. Tarafdar

Colin J. Thompson A. J. van der Poorten N. C. Weber

Assistant Editors

K. G. Smith G. A. Chandler

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after a careful evaluation by the Editor and an Associate Editor or other expert in the field.

As even minor revisions are generally not permitted, authors should read carefully all the details listed below and on the inside back cover.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

(i) the exposition should be clear and attractive, and
(ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to

The Editor, Bulletin of the Australian Mathematical Society,
Department of Mathematics, University of Queensland,
St. Lucia, Queensland, 4067, Australia.

Unless requested at the time, material submitted to the BULLETIN will usually not be returned. Note that each paper submitted must include an abstract and one or more classification numbers following the 1980 Mathematics Subject Classification. (1985 Revision).

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 6 months of the degree being approved.

©Copyright Statement. Where necessary, permission to photocopy for internal or personal use or the internal or personal use of specific clients is granted by the Treasurer, Australian Mathematical Publishing Association, Inc., for libraries and other uses registered with the Copyright Clearance Center (CCC), provided that the base fee of $A2.00 per copy of article is paid directly to CCC, 21 Congress Street, Salem, MA 01970, U.S.A. Special requests should be addressed to the Treasurer, Australian Mathematical Publishing Association, Inc., c/- Department of Mathematics, University of Queensland, St. Lucia, Qld., 4067, Australia. Serial-fee code: 0004-9727/88 $A2.00 + 0.00.
