THE UNITED NEW POLITICS THEORY COULD CURE THE MANKIND AND SAFEGUARD THE HEALTH WORLD

X. Han-You

Department of Internal and Emergency Medicine, Workers Hospital of Nanyang Textile Corporation, Nanyang City, China

The mankind is striving for peace and health. Because the social and politic influence can cause diseases. The unstable world has been causing bad impact on the health level. The differences of philosophy have been bringing out the unstable world and bad health.

There is a new breakthrough politics theory, all the countries are communism beded, was first concluded by the author. The new theory is being supported by lots of facts. The new theory may prevent worldwide war and bleeding and promote health, peace and development around the world. The world has been being divided and confronted by communism and capitalism. It is known to all that the politic system of China is so called mainly communism. But lots of facts indicate that the Americans led developed countries have been behaving communisms. So as the other developed countries.

Though the Americans led developed countries do not consider communism as their philosophy. In fact, they are the new types of communism countries. The new breakthrough politics theory can pave the way for peace and development around the world and prevent worldwide from war and bleeding. If we adopted to the new politics theory. The world would be better and better. The constantly bad social and politic influence on health of mankind could be prevented and cured. The united new politics theory could cure the mankind and safeguard the health world. The author is urging the policymakers, politicians around the world adopt the united new politics theory, cure the mankind!
