International Psychogeriatrics

Issue Theme: Delirium

CONTENTS

Guest Editorial 447
Advancing our diagnostic tools and treatment options for delirium

Dan G. Blazer

Reviews 451
The impact of intergenerational programs on children and older adults: a review

Maria Rosaria Gualano, Gianluca Voglino, Fabrizio Bert, Robin Thomas, Elisa Camussi and Roberta Siliquini

Characteristics of the built environment for people with dementia in East and Southeast Asian nursing homes: a scoping review

Joanna Sun and Richard Fleming

Effectiveness of multicomponent interventions on incidence of delirium in hospitalized older patients with hip fracture: a systematic review

Tarandeep Oberai, Kate Laver, Maria Crotty, Maggie Killington and Ruurd Jaarsma

Original Research Articles

Attention, vigilance, and visuospatial function in hospitalized elderly medical patients: relationship to delirium syndrome status and motor subtype profile

Cara Daly, Maeve Leonard, Henry O’Connell, Olugbenga Williams, Cathal Kearns, Chris Eakin, Margarita O’Connor, Stephanie Adams, Chairil A. Barrie, Medicine Editor and David S. Weinger

The Delirium Drug Scale is associated to delirium incidence in the emergency department

Patrick Viet-Quoc Nguyen, Lucie Pelletier, Isabelle Payot and Judith Latour

Prevalence and risk factors for delirium diagnosis in patients followed in general practices in Germany

Lars Borkhorst and Bon Kuipers

Development and initial validation of the Retrospective Indigenous Childhood Enrichment scale (RICE)

Cecilia Minogue, Kim Delbaere, Kylie Radford, Tony Broe, Wendy Sue Forder and Suncica Lah

Facilitators and barriers to adaptive implementation of the Meeting Centers Support Program (MEETING) in three European countries: the process evaluation within the MEETINGDEM study

Antidepressant polypharmacy in older Australians

Joss Latchford, Kiyomi, Priit, Memar Nia and Elizabeth L. Bagnall

Factors associated with appropriate psychotropic drug prescription in nursing home patients with severe dementia

C. R. Froud, Stephen FH Macleod, Marek Zodden, Mark D. M. T. Guest, Stephen F. C. Guest, Ben P. B. Williams, Claudia WH Smee, Helen Barnes, Steve O’Sullivan and Philip J. Cowie

The roles of artistic needs and formal support in the caregiving satisfaction and caregiving burden of family caregivers for persons with dementia

Nawal Jarama, Can F. Chen, Song Liu, Somer Mol, John T. Boles, Brayna Guo and Dong-Xing Lee

Discussing advance care planning: insights from older people living in nursing homes and from family members

Francesco Pappalardo, Veronica Wagner, Cara Moxon, Gianne Giampietro, Alana Drigoler and Kath Chisolm

Assessing PSS-10 with the support of the NIH-NEI: A discourse analysis of clinical measuring

Johanna Beekman, Sander G. G. M. Overbeek, Willem van den Berg and Bernhard Weelers

Brief Reports

495 A comparison of outcomes according to different diagnostic systems for delirium (DSM-5, DSM-IV, CAM, and DRS-R98)

Dimitrios Adams, David McHarg, Graham McEwan, David McEwan and Cornwall McArthur

Use of benzodiazepines and cognitive performance in primary care patients with first cognitive complaints

Letter to the Editor

499 Suicide risk of old adults with special reference to aging

Takashi Kobayashi

Letter to the Editor
