

Rate of protein turnover in obese women on energy restriction and its relationship to extrathyroidal T <sub>4</sub> metabolism. By K. S. NAIR, D. HALLIDAY, M. LALLOZ and J. S. GARROW ... ..	94A
Manipulation of thyroid status in the rat by means of the osmotic minipump. By J. G. BROWN and D. J. MILLWARD ...	95A
Diurnal pattern of protein turnover in obese subjects given a protein-free diet. By G. A. CLUGSTON and P. J. GARLICK ...	96A
 <i>Three Hundred and Sixtieth Scientific Meeting</i> <i>Bristol Polytechnic, Coldharbour Lane, Bristol</i> 8 APRIL 1981	
The effects of chronic treatment with the putative anorexogenic peptide (Glu-His-Gly), on body-weight and food consumption in rats. By D. M. ANDERSON ... ..	98A
Sex and trenbolone acetate (TBA) anabolic activity. By ANGELA TOONG, B. N. PERRY, A. LOPEZ and J. VENTANAS ...	99A
 <i>Three Hundred and Sixty-first Scientific Meeting</i> <i>Barnes Lecture Theatre of the Royal Society of Medicine, London</i> 7 MAY 1981	
A longitudinal study on the effect of riboflavin status on aspects of iron storage in the liver of growing rats. By D. A. ADELEKAN and D. I. THURNHAM ... ..	101A
The protein requirement of adult cats. By I. H. BURGER, S. E. BLAZA and P. T. KENDALL ... ..	102A
Nitrogen solubility and protein degradability of commercially and laboratory prepared rapeseed and soya-bean meals. By KATHRYN A. LAYCOCK and E. L. MILLER ... ..	103A
A method for measuring short-term changes in duodenal outflow rate. By S. JAMES, J. B. ROWE and A. W. J. BROOME ...	104A
The relationship between body-weight and survival in institutionalized elderly subjects. By C. HUNT ... ..	105A
The effects of dietary protein-energy supplementation in pregnant Asian mothers in Birmingham. By D. A. C. VIEGAS, PHYLLIS EATON, JEAN KING, P. H. SCOTT, PAMELA WHARTON and B. A. WHARTON ... ..	106A
Height, weight, 'fatness' and body-build of a large sample of British adults. By F. C. MCKAY, S. GRANT and J. V. G. A. DURNIN ... ..	107A
A comparison of the energy and nutrient intakes of 305 Glasgow infants with current recommendations for the UK. By F. M. MCKILLOP and J. V. G. A. DURNIN ... ..	108A
Nitrogen and energy balance studies on pre-term infants. By J. B. MORGAN, R. F. GRIMBLE, S. WHITAKER and C. ROLLES ... ..	109A
A new potent anorectic compound with additional weight-reducing effects. By D. M. ANDERSON ... ..	110A
The effect of concentration of linseed oil supplementation on digestion and microbial synthesis in the stomach of sheep. By O. A. IRWUEGBU and J. D. SUTTON ... ..	111A
Isotope effect in measuring rumen propionate production in the presence of monensin. By J. B. ROWE, A. DAVIES and A. W. J. BROOME ... ..	112A
The effect of Synperonic NP <sub>9</sub> upon ciliate-free and faunated sheep. By J. MARGARET EADIE and W. J. SHAND ... ..	113A
Zinc deficiency increases placental prostaglandin synthesis from arachidonic acid. By S. C. CUNNANE ... ..	114A
Effects of frozen turnips and mineral supplements on incisor tooth loss in sheep. By the late D. BENZIE, R. N. B. KAY and J. C. GILL ... ..	115A
Nitrogen digestion in sheep infected with intestinal parasites. By D. P. POPPI, J. C. MACRAE, W. CORRIGALL and R. L. COOP ... ..	116A
The production of 5,8,11-eicosatrienoic acid, (20:3 $\omega$ 9) in the EFA deficient cat. By J. P. W. RIVERS and T. L. FRANKEL ...	117A

# Proceedings of the Nutrition Society

CONTENTS OF VOL. 40, No. 3, SEPTEMBER 1981

## SYMPOSIUM PROCEEDINGS

*Three Hundred and Fifty-fifth Scientific Meeting  
One Hundred and Thirty-ninth Scottish Meeting  
School of Agriculture, 581 King Street, Aberdeen  
5 MARCH 1981*

MINERAL NUTRITION OF FARM LIVESTOCK

Chairman: PROFESSOR R. G. HEMINGWAY, *University of Glasgow*

PAGE

Control of mineral absorption in ruminants. By D. SCOTT and A. F. McLEAN	257
Some thoughts on dietary requirements of macro-elements for ruminants. By A. C. FIELD	267
A re-evaluation of recommended dietary allowances of calcium and phosphorus for pigs. By L. GUEGUEN and J. M. PEREZ	273
Problems of mineral supplementation in modern farming systems. By D. BEAUMONT	279
Recent advances in dietary anion-cation balance: applications in poultry. By P. MONGIN	285
<i>Boyd Orr Memorial Lecture</i>	
Managing the mineral cycle. By G. W. COOKE	295

*Three Hundred and Fifty-seventh Scientific Meeting  
Bristol Polytechnic, Coldharbour Lane, Frenchay, Bristol  
7 APRIL 1981*

PROTEIN METABOLISM IN MAN

Chairmen: D. J. MILLWARD, *Clinical Nutrition and Metabolism Unit, Hospital for Tropical Diseases, London*

PROFESSOR J. C. WATERLOW, *London School of Hygiene and Tropical Medicine, London*

<sup>15</sup> N end-product methods for the study of whole-body protein turnover. By J. C. WATERLOW	317
Mass spectrometric assay of stable isotopic enrichment for the estimation of protein turnover in man. By D. HALLIDAY and W. W. C. READ	321
Emission spectrometric analysis of <sup>15</sup> N. By D. N. SALTER	335
Protein metabolism and nutritional state in man. By V. R. YOUNG and D. M. BIER	343

*Three Hundred and Fifty-ninth Scientific Meeting  
Bristol Polytechnic, Coldharbour Lane, Frenchay, Bristol  
8 APRIL 1981*

NEURAL PEPTIDES IN NUTRITION AND DEVELOPMENT

Chairmen: D. LISTER, *ARC Meat Research Institute, Langford, Bristol*

PROFESSOR B. T. PICKERING, *Department of Anatomy, University of Bristol*

The neurophysiology of feeding. By E. T. ROLLS	361
Central and peripheral regulatory peptides. By J. M. POLAK and S. R. BLOOM	363
The effects of neuroactive peptides on growth hormone release. By J. G. SCHOFIELD	365
Brain, pituitary gland and nutrition. By D. W. LINCOLN	367

## ABSTRACTS OF COMMUNICATIONS

*Three Hundred and Fifty-eighth Scientific Meeting  
Bristol Polytechnic, Coldharbour Lane, Bristol  
7 APRIL 1981*

Protein turnover in man measured by the excretion of <sup>15</sup> N in urea and ammonia. By E. B. FERN, P. J. GARLICK, M. A. McNURLAN and J. POWELL-TUCK	88A
Further examination of the source of urinary N <sup>15</sup> -methyl histidine in the rat. By P. C. BATES and D. J. MILLWARD	89A
Nitrogen turnover measurement by <sup>15</sup> N glycine priming prior to continuous infusion in healthy man. By A. J. W. SIM, B. SUGDEN, V. R. YOUNG and F. D. MOORE	90A
Effect of environmental temperature on protein metabolism following burn injury in the rat. By G. GEDEON, A. SHENKIN, G. S. FELL, G. AL-SHAMMA, C. GOLL and J. R. RICHARDS	91A
The effect of different energy sources in parenteral nutrition on protein metabolism postoperatively. By E. ROGALY, M. B. CLAGUE, M. J. KEIR, P. D. WRIGHT and I. D. A. JOHNSTON	92A
The effect of supplemental parenteral nutrition on protein synthesis and breakdown in patients with colorectal neoplasia. By M. J. CARMICHAEL, M. B. CLAGUE, M. J. KEIR, P. D. WRIGHT and I. D. A. JOHNSTON	93A
