MRS CORPORATE PARTICIPANTS

Growing Institutional Support Goes Hand In Hand With The Growth Of The Society’s Technical Conferences

The Corporate Participation Program of the Materials Research Society enlists underwriters for portions of the Society’s technical programs. The Society gratefully acknowledges these grants, but the principal advantage to Corporate Participants is the advancement of materials research as that is stimulated by these meetings and the labors of those who participate in them. There is little commercial advantage; indeed, the Society largely restricts such activities to its newly inaugurated Equipment Exhibition.

Rapid Growth

Materials research is experiencing rapid growth, and the Materials Research Society’s roster of Corporate Participants is growing apace. Chairman of the MRS committee that oversees the effort, C.W. Draper of AT&T Technologies’ Engineering Research Center, reports that Hitachi Microscopes is among the most recent additions to the roster of MRS Corporate Participants.

"With the prominence of the Materials Research Society in the materials community," Cliff says, “interest among companies in sponsoring MRS symposia is growing. Our meetings cover research and applications of direct interest to them, and our membership is a particularly appropriate body of scientists and engineers with which they wish to relate.”

Roster of Participants

The current roster of the Materials Research Society’s Corporate Participants includes the following institutions:

- Air Products and Chemicals
- Allied Corporation
- Aluminum Company of America
- Brimrose Corporation of America
- Chevron
- Coherent
- E.I. DuPont de Nemours & Company
- Eastman Kodak Company
- Eaton Corporation
- EG & G ORTEC
- Elsevier North-Holland
- Exxon Research and Engineering Company
- General Electric Company
- General Ionex Corporation
- General Motors Research Laboratories
- Helionetics
- Hitachi Microscopes
- International Business Machines Corporation
- Lambda Physik
- Lawrence Livermore National Laboratory
- Lumonics
- Martin-Marietta Laboratories
- Microscience, Inc.
- Monsanto
- Philips Electronic Instruments, Inc.
- Portland Cement Association
- Quantronix Corporation
- Questek, Inc.
- Sandia National Laboratories
- Shell Development Company
- Spectra Physics
- Spire Corporation
- Standard Oil Company of Indiana
- TRW
- Union Carbide Corporation
- United Technologies Research Center
- UOP
- W.R. Grace Company
- Westinghouse Electric Corporation
- Xerox Corporation
- XMR
- Zymet

MRS CALENDAR

DECEMBER 1984

1 San Francisco '85 Meeting preliminary program submitted to Meeting Chairpersons
9 Notice of January MRS Council Meeting distributed
15 San Francisco '85 Meeting Chairpersons submit preliminary program to Executive Director
15 Committee members for 1985 notified
15 Committee budgets for 1985 submitted to Finance Committee
16 Annual MRS financial audit begins
20 Deadline for articles for MRS BULLETIN
