

CLAY MINERALS

VOLUME 32, NUMBER 1, MARCH 1997

CONTENTS

<i>Editorial</i>	1
M. Arias, E. López and M. T. Barral. Comparison of functions for evaluating the effect of Fe and Al oxides on the particle size distribution of kaolin and quartz	3
H. Belarbi, A. Haouzi, J. C. Giuntini, J. V. Zanchetta, J. Niezette and J. Vanderschueren. Interpretation of orientation polarization in homoionic dry montmorillonite	13
J. Bors, A. Gorny and S. Dultz. Iodide, caesium and strontium adsorption by organophilic vermiculite	21
K. A. Carrado, P. Thiyagarajan and K. Song. A study of organo-hectorite clay crystallization	29
B. Casal, J. Merino, E. Ruiz-Hitzky, E. Gutierrez and A. Alvarez. Characterization, pillaring and catalytic properties of a saponite from Vicálvaro, Madrid, Spain	41
C. Colombo and A. Violante. Effect of ageing on the nature and interlayering of mixed hydroxy Al-Fe-montmorillonite complexes	55
R. L. Frost. The structure of the kaolinite minerals — a FT-Raman study	65
Y. Hotta, M. Taniguchi, K. Inukai and A. Yamagishi. Clay-modified electrodes prepared by the Langmuir-Blodgett method	79
R. Kitagawa. Surface microtopography of rectorite (alleverdite) from Alleverd, France	89
F. López Arbeloa, M. J. Tapia Estévez, T. López Arbeloa and I. López Arbeloa. Spectroscopic study of the adsorption of rhodamine 6G on clay minerals in aqueous suspensions	97
J. M. Martín-García, G. Delgado, M. Sánchez-Marañón, J. F. Párraga and R. Delgado. Nature of dioctahedral micas in Spanish red soils	107
S. Perathoner and A. Vaccari. Catalysts based on pillared interlayered clays for the selective catalytic reduction of NO	123
A. Weiss and S. Dick. Interaction of montmorillonite with binuclear hydroxo-bridged iron complexes and their peroxo adducts	135
<i>Note</i>	
T. A. Albanis, T. G. Danis and P. J. Pomonis. Separation of chlorophenols using columns of hydroxyaluminium interlayered clays	145
<i>Book Review</i>	149
<i>Forthcoming Papers</i>	151
