Network Science

Network Science is an important journal for an important discipline - one using the network paradigm, focusing on actors and relational linkages, to inform research, methodology, and applications from many fields across the natural, social, engineering and informational sciences. Given growing understanding of the interconnectedness and globalization of the world, network methods are an increasingly recognized way to research aspects of modern society along with the individuals, organizations, and other actors within it.

The discipline is ready for a comprehensive journal, open to papers from all relevant areas. Network Science is a defining work, shaping this new discipline. The journal welcomes contributions from researchers in all areas working on network theory, methods, and data.

Subscription Information
Network Science (ISSN: 2050-1242) is published four times per year, in March, June, September, and December by Cambridge University Press, One Liberty Plaza, New York, NY 10006, USA.

The subscription price of Volume 5 (2017) including delivery by air where appropriate (but excluding VAT), is $704.00 ($440.00 for institutions print and online; $667.00 (£417.00) for institutions online only. Orders, which must be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher: Cambridge University Press, University Printing House, Shaftesbury Road, Cambridge CB2 8BS, UK. Alternatively, you can place an order online at journals.cambridge.org/nws.

For single issues, please contact customer_service@cambridge.org.

Advertising
For information on display ad sizes, rates, and deadlines for copy, please visit the journal homepage at journals.cambridge.org/nws or contact ad_sales@cambridge.org.

Internet access
Network Science is included in the Cambridge Core service, which can be accessed at journals.cambridge.org/nws.

NETWORK SCIENCE

Volume 5 Number 2

Special Issue on Modeling, Analysis, and Mining of Multilayer Networks edited by Matteo Magnani and Stanley Wasserman

CONTENTS

Articles

Introduction to the special issue on multilayer networks
MATTEO MAGNANI and STANLEY WASSEMAN

A local perspective on community structure in multilayer networks
LUCAS G. S. JEBB, MICHAEL W. MAHONEY, PETER J. MUCHA and MASON A. PORTER

Bayesian approach to multilayer stochastic blockmodel and network changepoint detection
YUNKYU SOHN and JONG HEE PARK

Multilevel social spaces: The network dynamics of organizational fields
JAMES HOLLOWAY, ALESSANDRO LOMI, FRANCESCA PALLOTTI and CHRISTOPH STADTELF

Opinion-based centrality in multiplex networks: A convex optimization approach
ALEXANDRE REIFFERS-MASSON and VINCENT LABATUT

Evaluating the impact of interdisciplinary research: A multilayer network approach
ELISA OMODEI, MANLIO DE DOMENICO and ALEX ARENAS

Corrigendum

Yann Bramoulle, Alain Barrat, Tiago de Matteis, and Cristina Girardi, 2017

Corrigendum to ‘Centrality in networks: A survey’ by Yann Bramoulle, Alain Barrat, Tiago de Matteis, and Cristina Girardi (Network Science 5(1), 2017)

Network Science Editorial Team

EDITORS
Ulrik Brandes, Computer Science and Mathematics, University of Konstanz, Germany
Ronald Breiger, Social and Political Science, University of Arizona, USA
Noshir Contractor, Communication, Management, and Computational Social Science, Northwestern University, USA
Filippo Menczer, Information Science, Indiana University, USA
Jadieep Serelvastava, Engineering and Web Science, University of Minnesota, USA
Thomas Valente, Public Health and Medicine, University of Southern California, USA
Fernando Vega-Redondo, Economics, Bocconi University, Italy
Alessandro Vespignani, Physics, Northeastern University, USA
Stanley Wasserman (Coordinating Editor), Statistics and Behavioral Science, Indiana University, USA

ASSOCIATE EDITORS
Sinan Aral, Information Science, Management, New York University, USA
Alain Barrat, Physics, CNRS, France
Vanni Bramoullé, Economics, Aix-Marseille University, France
Dirk Brockmann, Computer Science, Applied Mathematics, Northeastern University, USA
Nicholas Christakis, Sociology, Medicine, Public Health, Yale University, USA
Jonathan Cummings, Business, Duke University, USA
Padraig Cunningham, Computer Science, University College Dublin, Ireland
Matthew Elliott, Economics, California Institute of Technology, USA
Christos Faloutsos, Computer Science, Data Mining, Carnegie-Mellon University, USA
Katherine Faust, Sociology, University of California, Irvine, USA
James Fowler, Political Science, Public Health, Genetics, University of California, San Diego, USA
Andrea Galletti, Economics, University of Essex, UK
David Hunter, Statistics, Pennsylvania State University, USA
Yoshifusa Kashiwaba, Psychology, University of Melbourne, Australia
Peter Key, Mathematics, Microsoft Research, UK
Laura Koehly, Psychology, Public Health, National Institutes of Health, USA
Eric Kovalczyk, Statistics, Boston University, USA
David Krakauer, Public Policy, Business, Carnegie-Mellon University, USA
David Lauro, Information Science, Political Science, Northeastern University, USA
Roger Leonardi, Business, Organization Studies, Tilburg University, Netherlands
Kristina Lerman, Computer Science, ISI and University of Southern California, USA
Mark Lubell, Political Science, Environmental Policy, University of California, Davis, USA
Winter Mason, Psychology, Cognitive Science, Stevens Institute, USA
James Moody, Sociology, Duke University, USA
Stu Mosul, Computer Science, Korea Advanced Institute of Science and Technology, Republic of Korea
Romualdo Pastor-Satorras, Mathematics, Physics, Polytechnic University of Catalonia, Spain
Bernice Pescosolido, Sociology, Indiana University, USA
Richard Rothenberg, Public Health, Epidemiology, Georgia State University, USA
Olaf Sporns, Psychology, Neuroscience, Indiana University, USA
Douglas Steinley, Psychology, Statistics, University of Missouri, USA
Adam Szell, Economics, Central European University, Hungary
Zoltan Toroczkai, Physics, University of Notre Dame, USA
Marco van der Laan, Economics, University of Amsterdam, Netherlands

MANAGING EDITOR
Ann McCrean, Sociology, Indiana University, USA

Manuscript Submission Guidelines

Manuscripts for consideration for Network Science should be submitted electronically, using the Manuscript Central System at http://journals.cambridge.org/NWS. This system will allow authors to benefit from faster review and earlier, online publication. Authors who are unable to submit online should contact the NWS Editorial Office (at networkscience@cambridge.org) for assistance.

For more detailed instructions for contributors please go to cambridge.org/nws.
