COMMENTARIES
Franz Pichler et al.: Defining Capacity Building in the context of HTA
Neill Booth: Economics, value and HTA

ASSESSMENTS
M. Kamrul Islam and Iris Brunner: Cost-analysis of virtual reality training
Sahar Zare et al.: mhealth for hypertensive patients

POLICIES
Mary Alison Maloney et al.: HT Agency Assessors insights informing frameworks
Marcell Csanádi et al.: HTA implementation in Ukraine
Yingyao Chen et al.: Mapping HTA in China

LETTER
Paolo Fusar-Poli: Specialized services for individuals at clinical high risk for psychosis target simultaneously adolescents and young adults
The Journal welcomes submissions of articles that evaluate health technologies to support health policy or practice decisions, or discuss methods of assessing such technologies; please see Journal Aims and Scope for details. Manuscripts are screened by the Editors and members of the Editorial Board. Manuscripts are screened by the Editor-in-Chief and Deputy Editors and those that are deemed appropriate for the journal proceed to an international review process, which usually is completed within 10 weeks. The average time from submission to First Review is usually within 6 weeks. Articles must be in English. Spelling, capitalization, and punctuation should conform to the 15th Edition of The Chicago Manual of Style (University of Chicago Press).

MANUSCRIPT SUBMISSION AND REVIEW. All manuscript submissions to the International Journal of Technology Assessment in Health Care must be made electronically via ScholarOne Manuscripts; at the website: http://mc.manuscriptcentral.com/ijtahc

Please follow the detailed instructions on the website to avoid delays. The authors are asked to provide contact information and they may suggest reviewers. The website automatically acknowledges receipt of the manuscript and provides a manuscript reference number. Every effort will be made to provide the author with a rapid review. Correspondence must quote manuscript reference number and should be sent by email to the Editorial Office at IJTAHC@cambridge.org.

PRESENTATION OF MANUSCRIPTS. The manuscript, including all references, must be provided in Word or RTF format, double spaced on 8½ × 11 inch size paper, and in English. All manuscripts should be in English. The Journal does not accept footnotes or appendices. Each manuscript should begin with Supplementary Table 1 and Supplementary Figure 1. The Journal accepts no more than four tables or figures altogether for each article. Any additional tables or figures must be submitted in Word or RTF and follow the footnotes. Tables must be submitted in Word or RTF and figures in TIFF or EPS format.

We acknowledge all authors and stakeholders who have made contributions to the development of this journal, including the Editorial Board, reviewers, and our authors, whose papers have been admitted for publication. The Journal is committed to providing a platform for the dissemination of high-quality research and ideas in the field of Technology Assessment in Health Care.

Founding Editors: Egon Jonsson and Stanley J. Reisset
CONTENTS

Commentaries
362 Defining capacity building in the context of HTA: A proposal by the HTAi scientific development and capacity building committee
Franz Pichler, Wija Oortwijn, Alric Ruether and Rebecca Trowman

367 On value frameworks and opportunity costs in health technology assessment
Neill Booth

Assessments
373 Cost-analysis of virtual reality training based on the Virtual Reality for Upper Extremity in Subacute stroke (VIRTUES) trial
M. Kamrul Islam and Iris Brunner

379 Moving toward community based telehealth services using mhealth for hypertensive patients
Sahar Zare, Rita Rezaee, Azam Aslani, Mohammad Shirdeli and Javad Kojuri

Policies
384 Health technology agency insights: Informing modification of a qualitative benefit risk framework for health technology reassessment of prescription medications
Mary Alison Maloney, Lisa Schwartz, Daria O’Reilly and Mitchel Levine

393 Health technology assessment implementation in Ukraine: Current status and future perspectives
Marcell Csanádi, András Inotai, Oleksandra Oleshchuk, Oksana Lebega, Brodovskaya Alexandra, Oresta Piniazhko, Bertalan Németh and Zoltán Kaló

401 Mapping of health technology assessment in China: Situation analysis and international comparison
Yingyao Chen, Xunyouzhi Chi, Yao He, Yan Wei, Wija Oortwijn and Lizheng Shi

Letter
408 Specialized services for individuals at clinical high risk for psychosis target simultaneously adolescents and young adults
Paolo Fusar-Poli
