Authors wishing to have papers published in the *Journal* should send them to any editor named above, choosing one in their own country if possible. The submission of two or three copies will expedite assessment, although it may not be possible to return all these copies. Original drawings for figures should not be sent until the paper is accepted.

Authors are urged to write their papers clearly and attractively, so that their work will be readily accessible to readers. Manuscripts should be typed in double spacing on one side of the paper only, with references listed at the end in alphabetical order of authors. Drawings should be done in Indian ink on plain white or transparent paper, and should not be larger than 40 cm by 60 cm. Lettering should be shown clearly in pencil for reproduction by the printer, and as far as possible information relating to a figure should be placed in the caption rather than on the figure. A typed list of captions should be provided at the end of the manuscript.

Proofs of papers from overseas will usually be despatched to authors by airmail. There is no charge for publication. An author is entitled to 50 offprints of his paper free of charge, and additional offprints can be purchased if ordered when proofs are returned.
