HISTORY OF SCIENCE

Is the only review of literature and research in the history of science, medicine and technology in its intellectual and social context.

FOUNDED IN 1962 AS AN ANNUAL VOLUME, History of Science discusses problems and sources for future research in the history of science, medicine and technology, and surveys recent publications. It now appears each year in quarterly parts of about 88 pages each.

VOLUME 11 (1973) included

Robert G. Frank Science, Medicine and the Universities of Early Modern England

J. E. McGuire Newton and the Demonic Furies

Charles B. Schmitt Towards a Reassessment of Renaissance Aristotelianism

Victor E. Thoren Tycho Brahe: Past and Future Research

Roger Smith The Background of Physiological Psychology in Natural Philosophy

P. M. Heimann Newtonian Natural Philosophy and the Scientific Revolution

together with ten essay reviews and supporting material.

The annual subscription is £8 post free outside the Americas and Japan. Readers who prefer to receive the four issues in a bound volume each December may do so for the same subscription. New subscribers may purchase the first eleven volumes (bound) for £38 post free, including the subscription to Volume 12 (1974) and, as a free gift, the collected papers of Lord Rutherford in three large volumes.
