The *European Journal of International Security* (EJIS) publishes theoretical, methodological and empirical papers at the cutting-edge of security research. Welcoming high quality research from around the world, *EJIS* covers all areas of international security and is particularly concerned to make connections and build bridges, both between different disciplinary and theoretical perspectives, but also across regional boundaries.

*EJIS* publishes rigorous, peer-reviewed papers that significantly advance scholarship through original analysis of a salient policy issue, the exploitation of new data, and/or the innovative development and application of theory.

*EJIS* is a journal of the British International Studies Association.
