HERTFORD:
PRINTED BY STEPHEN AUSTIN.

## LIST OF PLATES.

| PLATES     | PAGE  |
|------------|---|
| I. II.     | Coniferous Fruits, etc., from Secondary Rocks                   |
| III.       | Limb-bones of Trogontherium Cuvieri, Fischer, from the          |
|            | Cromer Forest-bed 49  |
| IV.        | Beania gracilis, Carr., Oolitic Shales of Yorkshire. Zamia      |
|            | muricata, Willd. Macrozamia spiralis, Miq 97                    |
| <b>v</b> . | Flemingites Pedroanus, Carr., Coal M., Brazil 151               |
| VI.        | Noeggerathia obovata. Odontopteris Plantiana, Brazil 151        |
| VII.       | Jaw of Strophodus from the Oolite of Caen 193                   |
| VIII.      | Eucladia Johnsoni, H. Woodw., Upper Silurian, Dudley 241        |
| IX.        | Mandibular and Palatal Teeth of Ctenodus, Coal-measures . 314   |
| X.         | Æchmodus obicularis, Morris, Lower Lias, Lyme Regis 337         |
| XI.        | Lingula monilifera, Linnarsson. Eophyton Linnaanum,             |
|            | Torell  |
| XII.       | Eophyton Linnaanum, Torrell                                     |
| XIII.      | Eophyton Torelli, Linnarsson                                    |
| XIV.       | Map of the Chesil Bank and the neighbouring coast 433           |
| XV.        | View of the Chesil Bank and the "Fleet" or "Backwater" . 433    |
| XVI.       | Tooth of Machairodus, found in the Norfolk Forest-bed at Cromer |
| XVII.      | Burrows of Mollusca in Carboniferous Limestone, Great           |
|            | Ormes Head  |
| XVIII.     | Plants from the Skiddaw Slates 494                              |
| XIX.       | Mural Agates  |
| XX.        | Eophyton? explanatum, Hicks, Lower Arenig Rocks, St.            |
|            | David's   |
| •          |   |
|            | · · · · · · · · · · · · · · · · · · ·                           |
|            |   |
|            |   |
|            | LIST OF WOODCUTS.   |
|            | •   |
| Ideal rev  | presentation of Old Pacific Continent, to illustrate the theory |
|            | ne gradual subsidence of the land and the formation of Coral-   |
| reefs      | •   |
|            | ion seen on the south of Speeton Beck, in September, 1868. 14   |
|            | Ctenoptychius   |
|            | eeth of Trogontherium Cuvieri                                   |
|            | ketch of Honister Crag, Buttermere Valley                       |
|            | ale Fells   |
|            | e Beds along Eel Crags  |

| Boulder-clay Cliff south of Workington, Cumberland   | 72          |
|--|-------------|
| Boulder-clay overlying Shell-beds, Rampside, Peel Harbour, Cumberland  | 72          |
| Stratified Beds in the Lower Boulder-clay, from which were obtained  |             |
| the remains of Bos primigenius   | 74          |
| Section from Portingscale, along the west side of Derwentwater, to   |             |
|  | 107         |
| Natural Section of Beds seen in the Escarpment at the "Serra Partida,"   |             |
| River Candiota   | 149         |
|  | <b>16</b> 6 |
| Diagram of the Glacial Terraces at the Fork of the Yangma Valley . 1   | 191         |
| Sections of Drift at Hawker's Hill   | 207         |
| Lower jaw and teeth of Cestracion Philippi. $\dots$ $\dots$ $\dots$ $\dots$ $\dots$ $\dots$  | 236         |
| Foliage and Fruits of Calamites  | 294         |
| Fruits of <i>Equisetum</i> and <i>Calamites</i>  | 295         |
| Fruits of Selaginella and Triplospirites $\ldots \ldots \ldots \ldots$   | 297         |
| Section of Gault and Lower Greensand at Lower Fettleworth 3  | 335         |
|  | 352         |
| Sketch showing Maum, with an accompanying bank of recent Drift, a  |             |
|  | 107         |
|  | 107         |
| and the contract of the contra | 108         |
| Plan of streams flowing to a shore where there is a current chiefly in   |             |
|  | 437         |
|  | 181         |
|  | 186         |
| Sketches of a piece of Cornish hornstone   |             |
| A portion of felspathic rock, in which two crystals of labradorite are   | ,00         |
| separated by a crystalline mass of mixed labradorite and hyper-  |             |
|  | 530         |
| Banded and brecciated agates   |             |
|  | 537         |
|  | 538         |
|  |             |
|  | 538         |
|  | 541         |
|  | 552         |
| Peculiar form of variegation in Cambrian Slate   | 576         |
