Huaqing Liu (China), Xiaoyue Xu, John J. Hall (Australia), Xuesen Wu and Min Zhang (China)

1201 Antidepressant use and mortality in very old people
Gustaf Boström, Carl Hörnsten, Jon Brännström, Mia Conradsson, Peter Nordström, Per Allard, Yngve Gustafson and Håkan Littbrand (Sweden)

1211 Prevalence of psychotic symptoms among older adults in an Asian population
Mythily Subramaniam, Edimansyah Abdin, Janhavi Vaingankar, Louisa Picco, Shazana Shahwan, Anitha Jeyagurunathan, Yunjue Zhang, Swapna Verma and Siow Ann Chong (Singapore)

1221 Psychometric evaluation of the DMSS-4 in a cohort of elderly post-operative hip fracture patients with delirium
Dimitrios A. Andreou, Ilaria M. Schibrowski, Anaispradit de Jongh, Barbara C. van Marter, Sophie L.J. de Ruij (The Netherlands) and David J. Meagher (Ireland)
Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, case reports, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorial and book reviews, which are commissioned, contributions to International Psychogeriatrics are spontaneously written and submitted by authors. Papers are reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about half of the papers submitted are accepted for publication.

The journal’s Science Citation Impact factor is 1.95 (2014). Submission of a paper implies that it is not under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. International Psychogeriatrics uses the spelling of American English. Manuscripts written by and for those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of four native English-speaking colleagues willing to help manuscripts for English prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites (journals.cambridge.org and www.ipa-online.org).

An up to date version of the journal’s instructions for contributors can be found at the International Psychogeriatrics website (journals.cambridge.org). Please read these instructions carefully before submitting articles. Articles that are not prepared in accordance with these guidelines will be returned to authors.

Manuscripts should be submitted online via the manuscript submission and tracking site, http://mc.manuscriptcentral.com/ipg. Full instructions for electronic submissions are available directly from this site.

Important addresses

For book review matters
Professor David Ames
Norwalk House
St. George’s Hospital
293 Columbus Road
Kee, Victoria, 3011
Australia
