Original text and correction

There is a minor mistake in the flowchart (figure 1).

In the Melbourne site, 72 participants was randomised to the placebo group, not 73.

Original text

Melbourne

- 177 Participants screened for eligibility
- 152 Randomised
- 80 Randomised to receive vitamin D
- 69 Completed
- 106 Inflammatory biomarkers measurements

Hobart

- 422 Participants screened for eligibility
- 261 Randomised
- 186 Excluded
- 73 Lost to follow-up
- 29 Discontinued regimen
- 132 Randomised to receive placebo
- 102 Completed
- 94 Inflammatory biomarkers measurements

- 129 Randomised to receive vitamin D
- 127 Completed
- 112 Completed
- 73 Completed
- 102 Completed
Correction

**Melbourne**
- 177 Participants screened for eligibility
- 152 Randomised
  - 80 Randomised to receive vitamin D
    - 69 Completed
  - 72 Randomised to receive placebo
    - 58 Completed
- 129 Randomised to receive vitamin D
  - 112 Completed
- 106 Inflammatory biomarkers measurements

**Hobart**
- 422 Participants screened for eligibility
- 261 Randomised
  - 132 Randomised to receive vitamin D
    - 102 Completed
  - 130 Randomised to receive placebo
    - 102 Completed
  - 94 Inflammatory biomarkers measurements
- 186 Excluded
  - 42 Taking vitamin D
  - 33 Exclusionary co-morbidities
  - 26 Surgery scheduled
  - 26 Withdrew consent
  - 22 Severe radiographic osteoarthritis
  - 15 Ineligible visual analogue scale pain score
  - 12 Physically unwell
  - 4 Ineligible vitamin D
  - 4 Contraindication to MRI
  - 2 Ineligible age

- 73 Lost to follow-up
  - 29 Discontinued regimen
  - 10 Relocated
  - 4 Physically unwell
  - 1 Died
  - 17 Others
