

PREVENTION 93

April 17-20, 1993
The Adams Mark Hotel
St. Louis, Missouri

LEADERSHIP FOR PREVENTION IN HEALTH CARE REFORM

PREVENTION 93 will bring together leaders and experts from governmental agencies, foundations, managed care and other clinical settings, insurance, industry and academia to explore the scientific advances that have moved prevention to the forefront of health care issues and corporate policy and to examine the overall role of prevention in health care reform.

Participants will examine the roles and responsibilities of public health, organized medicine, the private sector and individuals in the proposed health care systems. Major areas of consideration will be access and delivery, the relationship between prevention and primary care, the inclusion of public health and clinical preventive services and the costs - human and economic - of including or excluding prevention strategies in health care reform. The manner in which preventionists are trained will also be explored to determine how to adapt the training of preventive medicine specialists to the evolving system and how to integrate prevention into the training of generalist physicians and other health professionals.

Lead prevention into the future at **PREVENTION 93**. Earn CME and CHES credit. Call **(202)789-0006** for registration information.

Techni-CareTM Surgical Scrub

99.99% Bacterial Reduction
in only 30 seconds

Techni-Care...A new technology in a surgical scrub exhibits outstanding antimicrobial efficacy *without* dermal irritation.

Fully substantiated by independent testing in vivo and in vitro, Techni-Care Surgical Scrub

both disinfects and conditions in less time than any prior technology available to healthcare personnel.

Results of Time Kill tests demonstrate that Techni-Care eliminates gram negative and gram positive bacteria at 99.99% in 30 second contact.

Outstanding Bactericidal Activity without skin irritation

Techni-Care's active ingredient, chloroxylenol (PCMX) at 3%, eliminates bacteria, while a host of skin conditioning agents work synergistically to condition and soften the skin. Exceptionally mild, Techni-Care's dermal conditioning ingredients, include cocamidopropyl PG-Dimonium Chloride Phosphate, Aloe Vera Gel, Collagen and Propylene Glycol.

Techni-Care has rated a "minimal irritation" in the Draize Dermal irritation test. Specially blended formulation for dermal conditioning, as well as for bacterial reduction, Techni-Care Surgical Scrub is soothing to dermal tissue while phospholipids promote natural turgor.
