Public Health Nutrition provides an international forum for the publication and dissemination of research and scholarship in the fields of public health nutrition, including original research, reviews and debates, and for discussion in the form of editorials, correspondence, and correspondence, with a specific focus on nutrition-related public health.

The scope of Public Health Nutrition encompasses nutrition and nutrition policy at a population level, including work on assessment, monitoring, and surveillance in population-based samples; and identifying and analysing behavioural, social, cultural, environmental, and nutrition policy and supplies. We welcome papers that:

- address assessment, monitoring, and surveillance of nutritional status or the quality of nutritional environments;
- describe the development and evaluation of methodology for assessment, monitoring, and surveillance in population-based samples;
- identify and analyse behavioural, social, cultural, environmental, and nutrition policy and supplies.

The journal provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health action and preventive approach, for which we have this emphasis may be directed to more appropriate journals.

Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

**Disclosure of financial support and any competing interests.** The submission must include a statement within an 

**Arrangement of papers:**

1. **Title page** should include the article title, author(s), affiliation(s), or up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.

2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.

3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the study. Authors must state whether their findings are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.

4. **Acknowledgements** (sources of funding, competing interests declaration, authorship, responsibility, contributions) should be provided during the submission process, not as part of the manuscript.

5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.

6. **Tables** should be reduced to the simplest form and should not be used where text or figures can convey the information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published in an appendix web page.

7. **Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (http://www.nutrition.org.uk).

8. **Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (http://www.nutrition.org.uk).

9. **Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (http://www.nutrition.org.uk).

10. **Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (http://www.nutrition.org.uk).

### Notes for Authors

- Original research findings and scientific reviews are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- Editorials express the opinion of the journal, as represented by its editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- Position papers, including declarations and other statements of policy, may be invited or unsolicited.
- Invited commentaries and book reviews express opinions on a topical subject. They are commissioned by the members of the editorial team.
- Letters to the Editors are usually in response to material published in PHN. Submissions are sent to the author for comment and, when possible, published together with the author’s reply.
- Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spacing, at least 2cm margins, and page and line numbers. Standard abbreviations and SI units must be used.
