A Return to Imperialism?

Edited by Uri Ra'anán
and Kate Martin

Uri Ra'anán and Kate Martin have assembled a group of the most well-known scholars to look closely at Russia's present, and future, role in world politics. Dividing their subjects into three areas, The Neo-Imperial Theme, The Targets, and The Western Response, the contributors look at a wide variety of subjects, revealing the portrait of a Russia deeply entrenched in a growing trend of imperial acts and statements which the West seems to be ignoring. Informative and fascinating, *Russia: A Return to Imperialism?* is essential reading for anyone interested in foreign affairs and the political balance of our world.

A History of Slovakia

The Struggle for Survival

Stanislav J. Kirschbaum

Kirschbaum describes the history of the Slovak nation from its arrival in the Danubian Plain and the valleys of the Tatra Mountains to the declaration of independence in 1993. He examines the Slovak contribution to European civilization in the Middle Ages, the development of a specifically Slovak consciousness in the nineteenth century in response to Budapest's policy of Magyarization, the Slovak struggle for autonomy in a Czech-dominated Czechoslovakia created by the Treaty of Versailles, the problems that the first Slovak Republic faced in a Nazi-controlled Europe, and the Slovak reaction to the Communist regime. The final chapter examines the debate about the future of Slovakia and the events that led to independence after the fall of Communism in Central Europe.

Why Did Socialism Collapse in Central and East European Countries?

The Case of Poland, Czechoslovakia, and Hungary

Jan Adam

In this book the author discusses the reasons for the collapse of the socialist system in Poland, Czechoslovakia, and Hungary. He analyzes the roles of economic and political factors and of the USSR. He comes to the conclusion that the lack of legitimacy of the communist regime as well as the disintegration of the Communist Party and its ideology were at least as important reasons as the increasing lag behind the West in technology and the declining standard of living.

Hungary and the Victor Powers

1945-1950

Eric Roman

Eric Roman is the first scholar to be granted access to the vast, heretofore closed, archive of documents relating to the communist era in Hungary. This archive included the files of the Hungarian Communist Party, the Social Democratic Party, and the Hungarian Socialist Worker's Party, as well as minutes of political committee meetings, private correspondence, secret papers, and confidential reports on special commissions within Hungary. Skillfully using all of this material, Eric Roman has created a fascinating portrait of Hungary in the Post War Period. This a compelling work of history that is destined to be one of the most important books to deal with this country.

RUSSIA AND BEYOND

SPIES WITHOUT CLOAKS

The KGB's Successors
Amy Knight

This book offers a compelling and comprehensive account of what happened to the KGB when the Soviet Union collapsed and the world's most powerful and dangerous secret police organization was uncloaked. As Amy Knight shows, the KGB was re-named and reorganized several times after it was officially disbanded in December 1991—but it was not reformed.

This story, told by one of the foremost experts on the Soviet/Russian security services and enriched by face-to-face interviews with security professionals in Moscow, is crucial to understanding Russian politics in transition.

"This is by far the most detailed and reliable work on the KGB and its successors published so far, of interest to specialists and general readers alike. . . . [It] contains many fascinating revelations."—Walter Laqueur

POVERTY IS NOT A VICE

Charity, Society, and the State in Imperial Russia
Adele Lindenmeyr

At the turn of the twentieth century, many Russians clung to the traditional belief that "poverty is not a vice" and that personal acts of generosity toward the poor, including beggars, earn spiritual salvation. Here Adele Lindenmeyr explores how this thinking—and opposition to it—shaped the development of private charity and public welfare in Russia from the eighteenth century to World War I.

"Adele Lindenmeyr's study is the first in any language to make a thorough examination of Russian charity. The author's concentration on the problem of charity as a reflection of the growth of civil society in pre-revolutionary Russia deepens our understanding of this complex and important process."—Richard G. Robbins, Jr.

WHAT WAS SOCIALISM, AND WHAT COMES NEXT?

Katherine Verdery

Among the first anthropologists to work in Eastern Europe, Katherine Verdery had built up a significant base of ethnographic and historical expertise when the major political transformations in the region began to take place. In this collection of essays dealing with the aftermath of Soviet-style socialism and the different forms that may replace it, she explores the nature of socialism in order to understand more fully its consequences.

The Politics of Industrialization in Tsarist Russia

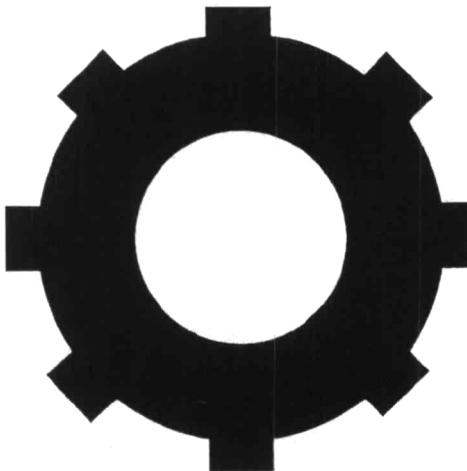

The Association of Southern Coal and Steel Producers, 1874–1914

Susan P. McCaffray

McCaffray reveals the intellectual, cultural, and social underpinnings of Russia's early industrialization in her analysis of the Association of Southern Coal and Steel Producers. One of the most powerful associations in the empire, it influenced government policy from the 1870s until the Revolution of 1917.

McCaffray's examination will initiate fresh discussion of the values and the cultural-economic assumptions of Russian modernizers.

Ukrainian Musical Elements in Classical Music

Yakov Soroker

This monograph is the first comprehensive account of the influence of Ukrainian motifs on the classical music of Europe and Russia from the eighteenth century through the first half of the twentieth. Going beyond earlier, fragmentary treatments that considered direct Ukrainian borrowings by composers, Yakov Soroker analyzes Ukrainian elements in the musical language of the composers and regions under study. Beginning with a survey of the modes, melodies and rhythms characteristic of Ukrainian folk music, Soroker discusses the role of these elements in the works of the Viennese classical school, nineteenth-century German, Austrian and Hungarian composers, Frédéric Chopin and later Polish composers, Béla Bartók, and Russian composers, including Musorgsky, Tchaikovsky, Rimsky-Korsakov, Rakhmaninov and Prokofiev, and lesser lights such as Khandoshkin, Serov and Kabalevsky.

During the peak years of the Cold War, when the inscrutability of the Kremlin's agenda left many Western observers fearing imminent nuclear war, Americans could only speculate about what Soviet leaders might be thinking and planning. Now, with the publication of this book, we are in a position to know. Using recently uncovered archival

materials, personal interviews, and a broad familiarity with Russian culture, two young Russian historians have written a major interpretation of the Cold War as seen from the Soviet shore.

"In this gem of a book, Loren R. Graham, our foremost authority on Soviet science and technology, draws the reader into the life story of Peter Palchinsky, a remarkable Soviet engineer who was executed in 1929 for treason... Like all memorable books, [this one] leaves the reader wrestling with large questions. The fate of Palchinsky was specific to Stalinist Russia, but the story Mr. Graham tells prompts us to reflect on the tenuous position of the state-supported social critic in all places, at all times."

New History of Russia, Volume 1

War, Holocaust and Stalinism

A Documented History of the Jewish Anti-Fascist Committee in the USSR

Shimon Redlich, *Ben Gurion University of Negev, Israel*

This book presents a documented history of the Jewish Anti-Fascist Committee in the Soviet Union during the Second World War, the Holocaust and the immediate post-war years, up to the end of 1948. It centers upon the tragic fate of Soviet Jewry under both Hitler and Stalin. This is the first publication of documents from the newly opening Russian Archives, primarily from the Russian State Archive and the former Archive of the Communist Party, offering a new insight into how Soviet and Stalinist policies towards Jews and the JAFC were shaped and the decision making process involved.

This book will facilitate an understanding of how things worked from inside the Soviet and Stalinist apparatus.

New History of Russia, Volume 2

War and Diplomacy The Making of a Grand Alliance

Oleg A. Rzheshesvsky, *Academy of Social Sciences of the Russian Federation, Moscow*

War and Diplomacy uses documents from Stalin's personal files, now kept at the Archives of the President of the Russian Federation, in order to study the history of the creation of the anti-Hitler coalition, a short lived but grand alliance of States that saved mankind from the threat of enslavement during the Second World War.

The documents from Stalin's files are published in full, except for certain pieces of protocol nature, and most of them are published here for the first time. They contain many revelations and give an idea of the mechanisms of decision-making within the Soviet government and amongst its key figures of the time, giving an unprecedented insight into the intensive and dramatic negotiations which were taking place during this period between Stalin, Roosevelt and Churchill, and on the larger scale between the USSR, the USA and Great Britain.

The second section studies the internal workings of the camp, and includes an analysis of prisoner society and a moving description of the individual prisoner's struggle to survive. the celebrated Soviet writer and World War II
journalist, whose life symbolizes the dilemma
of Russian intellectuals in this century.

TO THOSE WISHING TO SUBMIT MANUSCRIPTS

Manuscripts for consideration should be submitted by post or courier service in four double-spaced typed copies. (If computer generated, they should be letter quality or near letter quality. Continuous form sheets must be separated.) Notes and block quotations should be double-spaced; notes should be placed at the end of the manuscript and not at the bottoms of pages. Manuscripts are sent to outside readers in anonymous form and should be prepared accordingly.

The policy of *Slavic Review* is not to consider materials that have been published or that are being considered for publication elsewhere. Please consult us in advance of submitting an uninvited book review.

Publication of articles in *Slavic Review* is ordinarily limited to those submitted by members of AAASS. Nonmembers wishing to submit manuscripts will be sent a manuscript application; please see the inside front cover for information on membership.

Russia • Women • Culture

Edited by Helena Goscilo and Beth Holmgren

This volume examines areas of cultural production that have offered Russian women new freedoms and have opened commercial and artistic possibilities to them since the 19th century. The essays analyze women's creativity of every type—their products, performances, and collaborative exchanges—in sites that range from the bathhouse to the ballroom.

Engendering Slavic Literatures

Edited by Pamela Chester and Sibelan Forrester

This book breaks new ground in its investigation of gender and feminist issues in Croatian, Polish, Russian, Serbian, and Ukrainian literary texts by both female and male writers.

These eleven essays apply Western literary and feminist theory to 19th- and 20th-century Slavic literary works. Themes include mothers and daughters, Catholicism, sexuality, verbal and visual art, and love lyric.
