PUBLISHED BY CAMBRIDGE UNIVERSITY PRESS FOR
AND ON BEHALF OF THE ASSOCIATION OF SYMBOLIC LOGIC.

The BULLETIN, the JOURNAL and the REVIEW OF SYMBOLIC LOGIC are the official organs of the Association for Symbolic Logic, an international organization for furthering research in logic and the exchange of ideas among mathematicians, computer scientists, linguists, and others interested in this field. The BULLETIN encourages submissions of *Articles* and *Communications* in all areas of logic, including mathematical or philosophical logic, logic in computer science or linguistics, the history or philosophy of logic, and applications of logic to other fields. It also encourages the submissions of abstracts for doctoral level theses in logic. The BULLETIN also publishes reviews of publications in logic.

Thesis abstracts editor

Christian Rosendal rosendal@math.uic.edu

Articles present topics of broad interest in a way that is accessible to a large audience. They can be purely expository, survey, or historical articles or they may contain, in addition, new ideas or results or new approaches to old ones.

Communications should be announcements of important new results and ideas in any aspect of logic; they may be short papers in their final form or preliminary announcements (extended abstracts, position papers) of longer, full papers that will be published elsewhere. In any case, they should include, in addition to a description of the new results or ideas, enough history, background, and explanation to make the significance of the work apparent to a wide audience. *Communications* will be quickly refereed and published within six months of the submission of final version.

To submit *Articles* or *Communications* please follow the procedure described at <http://www.aslonline.org/journals-bulletin-guide.html>

To submit *Thesis Abstracts* please follow the procedure described at <http://aslonline.org/LogicThesisAbstracts.html>

Books for review in the BULLETIN should be sent to **ASL, Department of Mathematics, University of Connecticut, 341 Mansfield Road, U-1009, Storrs, CT 06269-1009, USA.**

TABLE OF CONTENTS

ARTICLES

- Strong jump-traceability,
by NOAM GREENBERG AND DAN TURETSKY..... 147
- Permutations of the integers induce only the trivial automorphism
of the Turing degrees, by BJØRN KJOS-HANSEN..... 165

REVIEWS

- Ø. Linnebo, *Philosophy of Mathematics*
Reviewed by DAVIDE RIZZA..... 175
- J. Stillwell, *Reverse Mathematics: Proofs from the Inside Out*
Reviewed by JEFFRY L. HIRST..... 176
- J. Azzouni, *Ontology without Borders*
Reviewed by NATHANIEL GAN..... 177
- B. Tsaban, *Algebra, Selections and Additive Ramsey Theory*
Reviewed by RODRIGO R. DIAS..... 179

IN MEMORIAM

- In Memoriam: Mati Rubin, 1946–2017..... 181
- In Memoriam: Vladimir Voevodsky, 1966–2017..... 186

THESIS ABSTRACTS

- Thesis Abstracts,
by Christian Rosendal..... 192
- Sebastien Vasey, *Superstability and Categoricity in Abstract Elementary
Classes*. Carnegie Mellon University, USA, 2017. Supervised
by Rami Grossberg..... 193
- Alessandro Vignati, *Logic and C^* -Algebras: Set Theoretical Dichotomies
in the Theory of Continuous Quotients*, York University, Toronto,
Canada, 2017. Supervised by Ilijas Farah..... 194
- Emanuele Frittaion, *Reverse Mathematics and Partial Orders*,
University of Udine, Italy, 2014. Supervised by Alberto Marcone..... 196
- James Firoze Appleby, *Choice Sequences and Knowledge States: Extending
the Notion of Finite Information to Produce a Clearer Foundation for
Intuitionistic Analysis*, Keele University, UK, 2017. Supervised
by Peter Fletcher..... 196
- Diana Carolina Montoya, *Some Cardinal Invariants of the Generalized
Baire Spaces*, Universität Wien, Austria, 2017. Supervised
by Sy-David Friedman..... 197
- Sandra Müller (formerly Uhlenbrock), *Pure and Hybrid Mice with Finitely
Many Woodin Cardinals from Levels of Determinacy*, Westfälische
Wilhelms-Universität Münster, Germany, 2016. Supervised
by Ralf-Dieter Schindler..... 198
