

INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

30th ANNIVERSARY YEAR

VOLUME 31, NUMBER 10

OCTOBER 2010

SHEA POSITION PAPER

- 987 Revised SHEA Position Paper: Influenza Vaccination of Healthcare Personnel** • Thomas R. Talbot, MD, MPH; Hilary Babcock, MD, MPH; Arthur L. Caplan, PhD; Deborah Cotton, MD, MPH; Lisa L. Maragakis, MD, MPH; Gregory A. Poland, MD; Edward J. Septimus, MD; Michael L. Tapper, MD; David J. Weber, MD, MPH

ORIGINAL ARTICLES

- 996 Reduction of Seasonal Influenza Transmission among Healthcare Workers in an Intensive Care Unit: A 4-Year Intervention Study in Thailand** • Anucha Apisarnthanarak, MD; Timothy M. Uyeki, MD, MPH, MPP; Pilaipan Puthavathana, PhD; Rungrueng Kitphati, MD; Linda M. Mundy, MD, PhD
- 1004 Epidemiology of H1N1 (2009) Influenza among Healthcare Workers in a Tertiary Care Center in Saudi Arabia: A 6-Month Surveillance Study** • Hanan H. Balkhy, MD; Aiman El-Saed, MD, PhD; Mahmoud Sallah, MD
- 1011 Facial Protective Equipment, Personnel, and Pandemics: Impact of the Pandemic (H1N1) 2009 Virus on Personnel and Use of Facial Protective Equipment** • Melanie Murray, MD, PhD; Jennifer Grant, MD; Elizabeth Bryce, MD; Paul Chilton, BSc; Leslie Forrester, MA, MSc
- 1017 Influenza Vaccination and Intention to Receive the Pandemic H1N1 Influenza Vaccine among Healthcare Workers of British Columbia, Canada: A Cross-Sectional Study** • Fariba Kaboli, MD, FRCPC; George Astrakianakis, PhD; Guiyun Li, MD, MPH, MSc; Jaime Guzman, MD, MSc, FRCPC; Monika Naus, MD, MHSc, FRCPC, FACPM; Tara Donovan, MSc
- 1025 Room Decontamination with UV Radiation** • William A. Rutala, PhD, MPH; Maria F. Gergen, MT (ASCP); David J. Weber, MD, MPH
- 1030 Multicenter Study of *Clostridium difficile* Infection Rates from 2000 to 2006** • Erik R. Dubberke, MD, MSPH; Anne M. Butler, MS; Deborah S. Yokoe, MD, MPH; Jeanmarie Mayer, MD; Bala Hota, MD, MPH; Julie E. Mangino, MD; Yosef M. Khan, MD; Kyle J. Popovich, MD; Victoria J. Fraser, MD; Prevention Epicenters Program from the Centers for Disease Control and Prevention
- 1038 Risk Factors and Outcomes for Vancomycin-Resistant *Enterococcus* Bloodstream Infection in Children** • Eric J. Haas, MD, MSCE; Theoklis E. Zaoutis, MD, MSCE; Priya Prasad, MPH; Mingyao Li, PhD; Susan E. Coffin, MD, MPH
- 1043 Impact of an Assay That Enables Rapid Determination of *Staphylococcus* Species and Their Drug Susceptibility on the Treatment of Patients with Positive Blood Culture Results** • Mark Parta, MD; Melanie Goebel, BS; Jimmy Thomas, MD; Mahsa Matloobi, MD; Charles Stager, PhD; Daniel M. Musher, MD
- 1049 Risk Factors for Central Line-Associated Bloodstream Infection in Pediatric Intensive Care Units** • Matthew C. Wylie, MD; Dionne A. Graham, PhD; Gail Potter-Bynoe, BS, CIC; Monica E. Kleinman, MD; Adrienne G. Randolph, MD; John M. Costello, MD, MPH; Thomas J. Sandora, MD, MPH

“...the weight of evidence suggests that chlorhexidine-alcohol should replace povidone-iodine as the standard for preoperative surgical scrubs.”¹

Wenzel, *The New England Journal of Medicine*, 2010

Set the new standard every time you prep with ChloraPrep[®]

ChloraPrep[®] skin antiseptic has consistently outperformed iodine-based products^{2,3,4,5} In a landmark study published in *The New England Journal of Medicine*, ChloraPrep reduced total surgical site infections by 41% versus povidone-iodine [9.5% vs 16.1%, respectively].² It's one more reason why ChloraPrep is the proven way to prep.[™]

Infection Control and Hospital Epidemiology (ISSN 0899-823X) is published monthly by the University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637-2954 (<http://www.journals.uchicago.edu/ICHE/>). The editorial office is in Chicago, Illinois.

Editorial Office

Communications should be addressed to the Editor, *Infection Control and Hospital Epidemiology*, 1427 E. 60th St., Chicago, IL 60637-2954; (e-mail: iche@press.uchicago.edu; telephone: 773-773-2298, fax: 773-753-4247). Contributors should consult the Information for Authors, which is available at the journal's Web site.

Advertising

Please direct advertising inquiries to Paul Tucker, Breunig Nagle Associates, 59 Grove Street, New Canaan, CT 06840 (e-mail: paul@bna1.com; telephone: 847-669-1096, fax: 203-801-0011). Publication of an advertisement in *Infection Control and Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by the University of Chicago. Correspondence regarding advertising should be addressed to the advertising office in Chicago.

Permissions

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>). For all other uses, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale,

please contact the Permissions Coordinator, Journals Division, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: journalpermissions@press.uchicago.edu; fax: 773-834-3489). Articles in the public domain may be used without permission, but it is customary to contact the author.

Subscriptions

Subscription rates for 2010 are \$180 for individuals and \$413 for institutions. Single-copy rates are \$18 for individuals and \$41 for institutions. Additional rates for non-US subscribers and reduced rates for fellows, residents, and students are available at <http://www.journals.uchicago.edu/ICHE>. Individuals have the option to order directly from the University of Chicago Press. Subscription agent for Japan: Kinokuniya Company, Ltd.

Please direct subscription inquiries, requests for back issues, and address changes to Journals Division, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637 (e-mail: subscriptions@press.uchicago.edu; telephone: 773-753-3347 or toll-free in the United States and Canada 877-705-1878; fax: 773-753-0811 or toll-free 877-705-1879).

Postmaster: Send address changes to *Infection Control and Hospital Epidemiology*, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637-2954.

Periodicals postage paid at Chicago, Illinois, and at an additional mailing office.

Address infection prevention and quality of patient care with this hands-on guide to epidemiologic principles and prevention strategies.

In recent years, issues of infection prevention and control, patient safety, and quality-of-care have become increasingly prominent in healthcare facilities. *Practical Healthcare Epidemiology* takes a practical, hands-on approach to these issues, addressing all aspects of infection surveillance and prevention in clear, straightforward terms. This fully revised third edition brings together the expertise of more than fifty leaders in healthcare epidemiology who provide clear, sound guidance on infection prevention and control for the full range of patients in all types of healthcare facilities, including those in settings with limited resources. A powerful resource for practitioners in any branch of medicine or public health who are involved in infection prevention and control, whether they are experienced in healthcare epidemiology or new to the field.

"A handy desk reference and an up-to-date primer for trainees and experts alike." — JAMA, The Journal of the American Medical Association

"An essential for anyone in the field." — Thomas R. Talbot, Chief Hospital Epidemiologist, Vanderbilt University Medical Center

TB
ALERT

NEW CDC GUIDELINES FOR **TARGETED** TB TESTING

GUIDELINE HIGHLIGHTS

The **T-SPOT®.TB** test may now be used in place of the tuberculin skin test (TST) in all situations in which the CDC recommends tuberculin skin testing.¹

Targeted Testing Specific Recommendations:

- ▶ “An IGRA is **preferred** for testing persons who have received BCG.”¹
- ▶ “An IGRA is **preferred** for testing persons from groups that historically have low rates of returning to have TSTs read.”¹

Are you challenged by:

- BCG vaccinated individuals?
- Two-step new hire testing?
- TST non-returners?
- TST reliability?

Eliminate these headaches
with a new, **SIMPLE** solution.

Emerald Journals

Clinical Governance

An International Journal

Clinical Governance: An International Journal aims to address the doubts, queries, triumphs and practical applications of introducing quality assurance mechanisms into the delivery of care.

The journal takes an international stance and covers key developments worldwide which can inform best practice in health care. Efficiency, effectiveness and economics are the main factors in the assessment of best practice and all are addressed in the research- audit- and evidence-based papers published. All papers are peer reviewed to ensure their validity and value to current debates.

The journal publishes:

- Research articles which illustrate clear implications for practice
- Results-focused case studies which discuss problems and successes in clinical governance techniques
- Special issues on topical themes

For more information please visit the homepage:
www.emeraldinsight.com/cgij.htm

To submit a paper visit:

Find the latest in infection control research and practice information in AJIC

American Journal of Infection Control

EDITOR: Elaine L. Larson, RN, PhD, FAAN, CIC

AJIC covers key topics and issues in infection control and epidemiology. Infection control professionals, including physicians, nurses, and epidemiologists, rely on **AJIC** for peer-reviewed articles covering clinical topics as well as original research. As the official publication of the *Association for Professionals in Infection Control and Epidemiology, Inc. (APIC)*, **AJIC** is the foremost resource on infection control, epidemiology, infectious diseases, quality management, occupational health, and disease prevention. **AJIC** also publishes relevant infection control guidelines. **AJIC** is included in Index Medicus and CINAHL.
