How Does Stock Market Volatility React to Oil Price Shocks?
Andrea Bastianin and Matteo Manera

Discerning Trends in Commodity Prices
Dimitri Dimitropoulos and Adonis Yatchew

150 Years of Boom and Bust: What Drives Mineral Commodity Prices?
Martin Stuermer
MACROECONOMIC DYNAMICS

Notes for Contributors

Contributions. Contributions are welcome from all countries. They should be written in English.

Announcements/Editorial Policy. Macroeconomic Dynamics publishes research of the highest theoretical, empirical or quantitative sophistication. Papers of high quality are welcomed from all areas of macroeconomics and from all parts of the world, as long as the research is founded in a rigorous academic approach. Major advances in macroeconomics without immediate policy applications are also accepted, if they show potential for application in the future. Occasional book reviews, announcements, conference proceedings and interviews are also published. Special issues appear in the journal’s Supplements Series, bearing its own Special Issues Editors. An electronic version of the Journal will be published simultaneously with the paper version enabling immediate access to the best current research in Macroeconomics.

Home Page. The Journal has a home page on the web which is a source of further information about the journal. The location of the home page is: http://econ.tepper.cmu.edu/macdynamics/MD.html. Information about Macroeconomic Dynamics may also be viewed at journals.cambridge.org.

Manuscript Submissions. The submission process is electronic. Manuscripts should be sent to either of the Journal’s Special Issues Editors. Manuscripts should be submitted online or to the Editor, William A. Barnett, at barnett@ku.edu. Manuscripts should be submitted in electronic form with a cover letter addressed to the Editor. The cover letter should specify the editor(s) to whom proof's should be sent. The full text of the manuscript should be submitted in electronic form with a cover letter addressed to the Editor. When submitted on-line, manuscripts should be uploaded as a single PDF file. The submission process is non-anonymous. Authors are not encouraged to see the following order form in the table above.

Tables and Figures. If possible, the publication of tables and figures should be postponed until materials are available to the proof-reader. If it is not possible for you to include the graphics files in the word processor source file, you should upload the individual graphics files separately after you upload the PDF and source files for your paper. The references should be cited in the text by the author’s last name and the date of publication. Complete bibliographic information for each citation should be included in the list of references. References should be typed in alphabetical order in the following style:
