

Flooding the Courtrooms

Law and Water
in the Far West

M. Catherine Miller

This legal biography of the California cattle company Miller & Lux illuminates the relationship between law, economic change, and the distribution of wealth and power. It examines law in an environment undergoing rapid development, where the rules governing resources, especially water, were in contention. From the 1870s through the 1930s, Miller & Lux looked to the law to mediate its place amid change. The actions of its lawyers and managers and those of the opponents and judges it faced reveal the complex, dialectical interplay between legal and economic power.

Lynching in the New South

Georgia and Virginia, 1880-1930

W. Fitzhugh Brundage

“Brundage provides a nuanced corrective to theories that lynching was a monolithic phenomenon throughout the South. In fact, he shows, the frequency of lynchings and the events that instigated them varied from state to state as functions of local race relations and economic factors. Focusing on Virginia, which had the fewest lynchings in the South, and Georgia, which had a particularly violent history, Brundage notes that Georgia mobs, unlike Virginia mobs, would lynch for minor transgressions. In the Cotton Belt and southern Georgia, the plantation system fostered racial violence, while in coastal Georgia, with its mixed economy, white paternalism and a strong black community limited lynching. In Virginia, diversified agriculture required day labor, which lessened racial conflict while keeping black workers on a short leash. In Virginia, Brundage shows, anti-lynching efforts were sponsored by conservative government officials who condemned anarchy. In Georgia, on the other hand, the anti-lynching campaign was instigated by progressive social reformers, leading to a decline in lynching by the late 1920s.”— *Publishers Weekly*

“This is a major book, a likely award winner. The research is formidable, the analysis sophisticated.” — Numan V. Bartley, author of *The Rise of Massive Resistance: Race and Politics in the South during the 1950s*.

From Jacobite to Conservative Reaction and Orthodoxy in Britain, c. 1760–1832 *James J. Sack*

From Jacobite to Conservative discusses what it meant politically, socially and spiritually to be on the 'Right' in an age of revolutions. Drawing upon a wide variety of source materials, Professor Sack encapsulates the political ideologies of such diverse individuals as George III, Samuel Johnson, Edmund Burke and the Younger Pitt within an evolving right wing world view. His central contention is that the defence of the Church of England, rather than nationalistic impulses or economic self-interest, was the abiding concern of pre-1832 British conservatism.

Advocate and Activist

Memoirs of an American Communist Lawyer

John Abt with Michael Myerson
Foreword by Margaret Burnham

Best known as the longtime chief counsel to the Communist Party of the United States, John Abt also was one of Angela Davis's first attorneys and the man Lee Harvey Oswald wanted to defend him after the assassination of President John F. Kennedy.

In *Advocate and Activist*, Abt and Michael Myerson provide a detailed account of a life that touched and was touched by the labor and left-wing political movements in the U.S. for nearly sixty years. Abt went to Washington, D.C., in the early 1930s to join the New Deal. He worked in a succession of government posts and for the La Follett Civil Liberties Committee. He was Sidney Hillman's counsel in the labor movement and a top aide in Henry Wallace's 1948 presidential campaign. At the height of McCarthyism he became the Communist party's chief counsel. Defending the party in the Smith Act and McCarran Act prosecutions, he succeeded in dismantling the acts piece by piece, setting precedents and assuring that being a Communist was not illegal.

"John Abt (with Michael Myerson's help) has left us with a fascinating and illuminating account of his legal career. He provides considerable insight into the operations of the Communist party and its response to the government's long and relentless crusade to destroy the party and imprison its leaders. He has also produced a charming, warm-hearted memoir of a close-knit family." — Peter Irons, University of California at San Diego.

THE PAPERS OF JOHN MARSHALL

VOLUME VII

*Correspondence, Papers, and Selected Judicial Opinions,
April 1807–December 1813*

CHARLES F. HOBSON, EDITOR

This volume in large part features the judicial opinions delivered by Chief Justice John Marshall in the United States Supreme Court and in the United States Circuit Court for Virginia. These include the landmark *Fletcher v. Peck* (1810), and the celebrated treason case of *United States v. Aaron Burr* (1807).

Marshall's correspondence from this period reflects his mounting concern with the direction of public affairs under the Jefferson and Madison administrations. He was particularly worried by the enactment of an embargo and other coercive measures that threatened to plunge the United States into war with Great Britain even as the Americans attempted to remain neutral in the midst of the Napoleonic wars.
