The *Journal of Public Policy* publishes articles that use concepts derived from any of the social sciences to illuminate a significant problem facing contemporary governments. Articles which cross the conventional boundaries between the social sciences are particularly welcome. Authors are expected to make clear under what circumstances and to what extent the findings are or are not generalizable to other policy areas, or to the same policy problem in other countries. In addition to articles, the journal publishes critical analyses of ideas currently in vogue among academics or practitioners of public policy, reviews of research published by governments or international bodies, and reviews of books about public policy which are interdisciplinary, either explicitly or in terms of their potential implications for other disciplines.

For all other use, permission should be sought from the Cambridge or New York offices of the Cambridge University Press.

**SUBSCRIPTIONS**
