### FORTHCOMING PAPERS

The next issue of the British Journal of Nutrition will appear in May 1974. It is hoped to publish in it the following papers:

### CLINICAL AND HUMAN NUTRITION

- Thermic effect of glucose and amino acids in man studied by direct and indirect calorimetry. By PH. PITTET, P. H. GYGAX and E. JEQUIER
- The effect of molybdenum levels in sorghum (Sorghum vulgare Pers.) on uric acid and copper excretion in man. By Y, G. DEOSTHALE and C. GOPALAN
- Iron absorption from rice meals cooked with fortified salt containing ferrous sulphate and ascorbic acid. By M. H. SAYERS, S. R. LYNCH, R. W. CHARLTON, T. H. BOTHWELL, R. B. WALKER and FATIMA MAYET

#### GENERAL NUTRITION

- A study of the effect of exposure in the reticulo-rumen of the cow on the strength of cotton, grass, hay and straw. By E. W. EVANS, J. BURNETT and J. A. BINES
- The rejection of a diet which has been associated with a single administration of an histidine-free amino acid mixture. By P. C. SIMSON and D. A. BOOTH
- Studies on the nutrition of marine flatfish. Utilization of various dietary proteins by plaice (*Pleuronectes platessa*). By C. B. COWEY, J. ADRON, A. BLAIR and AILEEN M. SHANKS
- The utilization of protein and excretion of uric acid in germ-free and conventional chicks. By D. N. SALTER, MARIE E. COATES and D. HEWITT
- The effect of changes in dietary calcium concentration on calcium metabolism in sheep. By G. D. BRAITHWAITE
- The adaptation in muscle oxidation of leucine to dietary protein and energy intake. By R. D. SKETCHER, E. B. FERN and W. P. T. JAMES
- Ruminal biosynthesis of aromatic amino acids from arylacetic acids, glucose, shikimic acid and phenol. By S. KRISTENSEN
- Heat loss and energy retention during growth in congenitally obese and lean rats. By J. D. PULLAR and A. J. F. WEBSTER
- The determination of tryptophan in purified proteins and in feeding-stuffs. By N. A. MATHESON

# CONTENTS

battery, deep litter and free range conditions. By A. TOLAN, JEAN ROBERTSON, C. R. ORTON, M. J. HEAD, A. A. CHRISTIE and BARBARA A. MILLBURN	CLINICAL AND HUMAN NUTRITION Studies on the composition of food. 5. The chemical composition of eggs produced under	
The effect of malnutrition on the pattern of growth in the rat kidney and the renal response to acidosis. By H. S. FRASER and G. A. O. ALLEYNE 113-124   Protein digestion in the intestine of sheep. By D. BEN-GHEDALIA, H. TAGARI, A. BONDI and A. TADMOR. 125-142   The effect of dietary propionic acid on the requirement of chicks for vitamin B <sub>12</sub> . By R. RY5 and J. KORELESKI 143-146   The effect of lucerne-protein concentrate in the diet on growth, reproduction and body composition of rats. By E. L. HOVE, EVELYN LOHREY, M. K. URS and R. M. ALLSON 147-157   Photosensitization of albino rats fed on lucerne-protein concentrate. By EVELYN LOHREY, B. TAPPER and E. L. HOVE 159-166   Studies on unidentified growth factors, 1. Factor G, a growth factor for rats. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN 167-178   Studies on unidentified growth factors, 2. Progressin, a growth factor for chicks. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN 179-184   Intravenous energy infusion in lambs: effects on nitrogen retention, plasma free amino acids and plasma urea nitrogen. By B. ESKELAND, W. H. PRANDER and R. L. PRESTON 201-211   Protein digestibility of a feed mixture in relation to the protein digestibility of the individual protein components. By B. O. EGGUM and K. D. CHRISTENSEN 213-218   Effect of frequency of feeding on the utilization of free lysine by growing pigs. By E. S. BATTERHAM 227-235   The effect of frequency of feeding on the utilization of free lysine by growing pigs. By E.	battery, deep litter and free range conditions. By A. TOLAN, JEAN ROBERTSON, C. R. ORTON,	185-200
acidosis. By H. S. FRASER and G. A. O. ALLEYNE113–124Protein digestion in the intestine of sheep. By D. BEN-GHEDALIA, H. TAGARI, A. BONDI and A. TADMOR.125–142The effect of dietary propionic acid on the requirement of chicks for vitamin B12. By R. Ryś and J. KORELESKI143–146The effect of lucerne-protein concentrate in the diet on growth, reproduction and body composition of rats. By E. L. HOVE, EVELYN LOHREY, M. K. URS and R. M. ALLISON147–157Photosensitization of albino rats fed on lucerne-protein concentrate. By EVELYN LOHREY, B. TAPPER and E. L. HOVE159–166Studies on unidentified growth factors. 1. Factor G, a growth factor for rats. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN167–178Studies on unidentified growth factors. 2. Progressin, a growth factor for chicks. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN179–184Intravenous energy infusion in lambs: effects on nitrogen retention, plasma free amino acids and plasma urea nitrogen. By B. ESKELAND, W. H. PRANDER and R. L. PRESTON201–211Protein digestibility of a feed mixture in relation to the protein digestibility of the individual 	GENERAL NUTRITION	
A. TADMOR. 125-142   The effect of dietary propionic acid on the requirement of chicks for vitamin B <sub>12</sub> . By R, Rys 143-146   The effect of lucerne-protein concentrate in the diet on growth, reproduction and body composition of rats. By E. L. HOVE, EVELYN LOHREY, M. K. URS and R. M. ALLISON 147-157   Photosensitization of albino rats fed on lucerne-protein concentrate. By EVELYN LOHREY, B. TAPPER and E. L. HOVE 159-166   Studies on unidentified growth factors, 1. Factor G, a growth factor for rats. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN 167-178   Studies on unidentified growth factors, 2. Progressin, a growth factor for chicks. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN 179-184   Intravenous energy infusion in lambs: effects on nitrogen retention, plasma free amino acids and plasma urea nitrogen. By B. ESKELAND, W. H. PFANDER and R. L. PRESTON 201-211   Protein digestibility of a feed mixture in relation to the protein digestibility of the individual protein components. By B. O. EGGUM and K. D. CHRISTENSEN 213-218   Effect of the protein content of the diet on the vitamin B12 status in rats. By V. S. JATHAR, R. S. SATOSKAR, B. M. MEHTA and D. V. REGE 227-235   The effect of frequency of feeding on the utilization of free lysine by growing pigs. By E. S. BATTERHAM 237-242   Some observations on the possible nutritional significance of vitamin B12 and folate-binding proteins milk. By J. E. FORD 243-257   The effect of requen		113-124
and J. KORELESKI143–146The effect of lucerne-protein concentrate in the diet on growth, reproduction and body composition of rats. By E. L. HOVE, EVELYN LOHREY, M. K. URS and R. M. ALLISON147–157Photosensitization of albino rats fed on lucerne-protein concentrate. By EVELYN LOHREY, B. TAPPER and E. L. HOVE159–166Studies on unidentified growth factors. 1. Factor G, a growth factor for rats. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN167–178Studies on unidentified growth factors. 2. Progressin, a growth factor for chicks. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN179–184Intravenous energy infusion in lambs: effects on nitrogen retention, plasma free amino acids and plasma urea nitrogen. By B. ESKELAND, W. H. PFANDER and R. L. PRESTON201–211Protein digestibility of a feed mixture in relation to the protein digestibility of the individual protein components. By B. O. EGGUM and K. D. CHRISTENSEN213–218Effect of the protein content of the diet on the vitamin B12 status in rats. By V. S. JATHAR, R. S. SATOSKAR, B. M. MEHTA and D. V. REGE219–225Digestion and absorption of starch, maltose and lactose by the preruminant calf. By N. B. COOMBE and R. H. SMITH237–242Some observations on the possible nutritional significance of vitamin B12- and folate-binding proteins in milk, By J. E. FORD243–257The catabolism of valine. By P. J. REEDS243–257A compact machine for feeding sheep up to twelve times daily. By J. L. CLAPPERTON, P. C.259–270		125-142
position of rats. By E. L. HOVE, EVELYN LOHREY, M. K. URS and R. M. ALLISON147–157Photosensitization of albino rats fed on lucerne-protein concentrate. By EVELYN LOHREY, B. TAPPER and E. L. HOVE159–166Studies on unidentified growth factors. 1. Factor G, a growth factor for rats. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN167–178Studies on unidentified growth factors. 2. Progressin, a growth factor for chicks. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN167–178Studies on unidentified growth factors. 2. Progressin, a growth factor for chicks. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN179–184Intravenous energy infusion in lambs: effects on nitrogen retention, plasma free amino acids and plasma urea nitrogen. By B. ESKELAND, W. H. PFANDER and R. L. PRESTON201–211Protein digestibility of a feed mixture in relation to the protein digestibility of the individual protein components. By B. O. EGGUM and K. D. CHRISTENSEN213–218Effect of the protein content of the diet on the vitamin B12 status in rats. By V. S. JATHAR, R. S. SATOSKAR, B. M. MEHTA and D. V. REGE219–225Digestion and absorption of starch, maltose and lactose by the preruminant calf. By N. B. COOMBE and R. H. SMITH227–235The effect of frequency of feeding on the utilization of free lysine by growing pigs. By E. S. BATTERHAM237–242Some observations on the possible nutritional significance of vitamin B12 and folate-binding proteins in milk. By J. E. FORD243–257The catabolism of valine. By P. J. REEDS259–270A compact machine for feeding sheep up to twelve times daily. By J. L. CLAPPERTON, P. C.		143-146
TAPPER and E. L. HOVE159–166Studies on unidentified growth factors, 1. Factor G, a growth factor for rats. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T. REDMAN167–178Studies on unidentified growth factors, 2. Progressin, a growth factor for chicks. By J. BUNYAN, ELSPETH A. MURRELL, M. A. CAWTHORNE and B. T.
