The Institute of Aging supports research that promotes healthy aging and addresses causes, prevention, screening, diagnosis, treatment, support systems, and palliation for a wide range of conditions associated with aging.

Institute Priority Topics

- Healthy and successful aging
- Biological mechanisms of aging
- Aging and maintenance of functional autonomy
- Cognitive impairment in aging
- Health services and policy relating to older people

For more information, please consult the Web site: www.cihr-irsc.gc.ca

The Institute of Aging is proud to support the Canadian Journal of Aging

L’Institut du vieillissement appuie la recherche visant à favoriser un vieillissement en santé et à étudier les causes, la prévention, le dépistage, le diagnostic, le traitement, les systèmes de soutien et les soins palliatifs relativement à un large éventail de conditions associées au vieillissement.

Priorités de recherche de l’Institut

- Vieillir en santé
- Mécanismes biologiques du vieillissement
- Vieillissement et maintien de l’autonomie fonctionnelle
- Troubles cognitifs au cours du vieillissement
- Politiques et services de santé pour les personnes âgées

Pour en savoir davantage, veuillez consulter notre site Web : www.irsc-cihr.gc.ca

L’Institut de vieillissement est fier de supporter la Revue Canadienne du vieillissement
Transitions of care in later life
March 21–23, 2007
Shaw Conference Centre
Edmonton, AB

Opening Speaker: Stephen Lewis, CC, Commissioner for the World Health Organization’s Commission on the Social Determinants of Health

The Greying Nation Conference will address how the healthcare sector can adapt care to the changing needs of the population in the later stages of the life cycle. Conference topics will include: models of care, service delivery and education, changing needs of an aging society, innovative technologies and perspectives on aging as expressed through the visual arts.

Conference Highlights
• Internationally renowned speakers;
• Welcome reception;
• Variety of educational poster presentations;
• Exhibit Hall featuring up to 40 exhibits; and
• The Greying Nation Photographic Exhibition at Edmonton City Hall.

Who Should Attend
The Greying Nation conference aims to attract a broad spectrum of delegates from across the healthcare system, including physicians, allied health professionals, primary care providers, health care executives, researchers, administrators, and policy and decision makers.

The Canadian Association on Gerontology and the University of Toronto Press are pleased to announce the launch of CJA Online, beginning in 2007 with volume 26 and including 221 previously published articles. To register for a free trial of CJA Online, contact journals@utpress.utoronto.ca.

The CJA Online site will have all the features that users and librarians look for in an electronic resource. In particular, we will offer readers full searching (full text, Boolean, relevancy ranking, and persistent keyword searching), quick searching (single field, single button, automatic recognition of ISSN and DOI), advanced searching (citation text, publication, subjects, or content types), search results (summaries, dimensional navigation, abstracts, citation or tabular results, search within results, filter selected items), parent list navigation, publication metadata, TOC alerting, forward reference linking, and link exports. For librarians, our system will simplify access management, linking, and usage reporting with powerful yet easy-to-use administration tools. Support for established and emerging standards, such as MARC, OpenURL, and COUNTER, enables seamless integration with existing library systems.

Contact Anne Marie Corrigan at acorrigan@utpress.utoronto.ca to arrange for a free trial for your library.

Québec Canada
June 24-29, 2007

Abstract deadline: January 8, 2007

www.ibms2007.com
University of Toronto Press is pleased to announce the launch of the online versions of ten scholarly journals. In 2007, the *Canadian Journal on Aging, Canadian Public Policy, the Canadian Journal of Criminology and Criminal Justice, the Canadian Modern Language Review, Seminar: A Journal of Germanic Studies, Genocide Studies and Prevention, the Canadian Historical Review, Cartographica, the Journal of Scholarly Publishing, and University of Toronto Quarterly* will provide online access to current and back volumes. The complete back file of *Cartographica*, from volume 1:1 (when the journal was known as *The Cartographer*) to volume 41, will also be available. Although no other journal approaches *Cartographica* in the number of previously published issues, a significant amount of earlier material is included with almost every journal.

Our site will have all the features that users and librarians look for in an electronic resource. In particular, we will offer readers full searching (full text, Boolean, relevancy ranking, and persistent keyword searching), quick searching (single field, single button, automatic recognition of ISSN and DOI), advanced searching (citation text, publication, subjects, or content types), search results (summaries, dimensional navigation, abstracts, citation or tabular results, search within results, filter selected items), parent list navigation, publication metadata, TOC alerting, forward reference linking, and link exports. For librarians, our system will simplify access management, linking, and usage reporting with powerful yet easy-to-use administration tools. Support for established and emerging standards, such as MARC, OpenURL, and COUNTER, enables seamless integration with existing library systems.

To ensure preservation and continued access into the future, Library and Archives Canada will provide the archive for all ten electronic journals.

Founded in 1901, the University of Toronto Press is Canada's oldest and largest scholarly press and one of the largest university presses in North America, publishing 30 journals and releasing approximately 140 new scholarly, reference, and general-interest books each year, as well as maintaining a backlist of more than 1000 titles in print.

To register for a free trial for any one of our online journals, contact journals@utpress.utoronto.ca.
AIMS & SCOPE

Under what conditions does “development” end? Under what conditions does “aging” begin? Can these conditions themselves be modified by intervention at the psychological, social, or biological levels? To what extent are patterns of development and aging attributable to biological factors? To psychological factors? How can the social and behavioral sciences contribute to the actualization of human potential throughout the entire life span? What are the implications of gerontological research for our understanding of the total development of human organism?

These are some of the broad questions with which The International Journal of Aging & Human Development is concerned. Emphasis is upon psychological and social studies of aging and the aged. However, this peer-reviewed journal also publishes research that introduces observations from other fields that illuminate the “human” side of gerontology, or utilizes gerontological observations to illuminate problems in other fields.

SUBSCRIPTION INFORMATION

ISSN: 0091-4150; Online ISSN: 1541-3535
Sold as a 2-volume group (8 issues yearly)
Institutional: $410.00; Individual: $102.00
P & H: $22.00 U.S. & Canada; $39.00 elsewhere

Every minute there are 11 new HIV infections worldwide. More than half occur in young people under the age of 24.

With more than a billion young people on earth between the ages of 15 and 24, the spread of HIV is a great concern to health care professionals.

As leaders in primary health care, nurses worldwide do make a difference by providing education and care to those most vulnerable.

Program undertaken with the financial support of the Government of Canada through the Canadian International Development Agency (CIDA).

Hallym International Journal of Aging
Gerontological Research, Policies and Programs in the New Millennium

Editors: Hyunsook Yoon • Jon Hendricks

Hallym International Journal of Aging is intended to focus international expertise on topics that embrace a broad spectrum of gerontological issues. The editorial board has been selected to assemble world-wide gerontologists to promote submissions from a diverse array of countries. Topics and agenda address questions and issues of particular concern to Asia and the Pacific Rim countries. Through a rigorous review process, manuscripts appearing in HIJA represent the best intercontinental analysis on the subject of gerontology.
