Science in Context is an international journal edited at the Cohn Institute for the History and Philosophy of Science and Ideas, Tel Aviv University, Tel Aviv, Israel. It is devoted to the study of the sciences in their historical and epistemological contexts. The journal invites contributions that show an awareness of the complex relationship between scientific, social, and cultural developments. Contributions are aimed at a small number of figures in black and white, formatted in TtFF, with a minimum resolution of 300 dpi for halftones and 600 dpi for line drawings. For further information, contact the editorial office.

INSTRUCTIONS FOR AUTHORS

Contributions of about 10,000 words should be submitted by email to the editorial office with a message that includes your name, telephone number, and email address. Submissions should be sent as an attachment in the format .doc or .docx to sic@post.tau.ac.il. The editors require that the article be introduced by a paragraph of about 150 words that presents its argument.

The journal follows the author-date reference system that is generally used in the social and natural sciences. ‘Documentation 2 Author-Date Citations and Reference Lists’ of the Chicago Manual of Style and a back issue of the journal should be used as guides. More detailed instructions for contributors and specific guidelines (e.g. for transliteration from Russian or Hebrew) are available from http://journals.cambridge.org/action/displayJournal?jid=SIC. Unusual alphabets, special characters, mathematical and chemical formulas, and all diacritical marks should be clearly indicated. Articles may be illustrated by a small number of figures in black and white, formatted in TtFF, with a minimum resolution of 300 dpi for halftones and 600 dpi for line drawings. For further information, contact the editorial office.
