# WEED SCIENCE

*Published six times a year by the Weed Science Society of America*

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

## Associate Editors (Assignment Year)

**Muthukumar V Bagavathiannan**, Texas A&M, College Station, TX 77843 (2015)  
**Nicholas Basinger**, Department of Crop & Soil Sciences, University of Georgia, Athens, GA 30602 (2022)  
**Nathan Boyd**, University of Florida, Wimauma, FL 33598 (2021)  
**Caio Brunharo**, Department of Plant Science, Penn State University, University Park, PA 16801 (2022)  
**Ian Burke**, Washington State University, Pullman, WA 99164 (2019)  
**Carlene Chase**, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)  
**Bhagirath Singh Chauhan**, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)  
**Sharon Clay**, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)  
**Timothy Grey**, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)  
**Prashant Jha**, Iowa State University, Ames, IA 50011 (2017)  
**Mithila Jugulam**, Kansas State University, Manhattan, KS 66506 (2019)  
**Vipan Kumar**, Kansas State University, Hays, KS 67601 (2020)  
**Ramon Leon**, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)  
**Gulshan Mahajan**, Punjab Agricultural University, Ludhiana, India 141004 (2022)  
**Sara Martin**, Ag Canada, Ottawa, Canada (2018)  
**Chris Preston**, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)  
**Dean Riechers**, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)  
**Hilary Sandler**, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)  
**Debalin Sarangi**, University of Wyoming, Powell, WY 82435 (2020)  
**Patrick J. Tranel**, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)  
**Te-Ming Paul Tseng**, Mississippi State University, Mississippi State, MS 39762 (2019)  
**Martin M. Williams II**, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)  
Tracy Candelaria, *Managing Editor*

## Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

*Weed Science* (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) in USA, [journals@cambridge.org](mailto:journals@cambridge.org) outside USA.

*Weed Science* publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$461.00; UK £321.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

## RESEARCH ARTICLES

Metabolic cross-resistance to florpyrauxifen-benzyl in barnyardgrass ( <i>Echinochloa crus-galli</i> ) evolved before the commercialization of Rinskor™. <i>Hudson K. Takano, Scott Greenwalt, Dave Ouse, Moriah Zielinski and Paul Schmitzer</i> .....	77
Confirmation and detection of novel acetolactate synthase- and protoporphyrinogen oxidase-inhibiting herbicide-resistant redroot pigweed ( <i>Amaranthus retroflexus</i> ) populations in North Carolina. <i>Eric A. L. Jones, Ryan J. Andres, Jeffrey C. Dunne, Ramon G. Leon and Wesley J. Everman</i> .....	84
First report of a wide distribution of glyphosate-resistant compact brome ( <i>Bromus madritensis</i> ) in the Iberian Peninsula: confirmation and field management. <i>José G. Vázquez-García, Patricia Castro, Aritz Royo-Esna, Candelario Palma-Bautista, Joel Torra and Rafael De Prado</i> .....	95
Discrimination of morningglory species ( <i>Ipomoea</i> spp.) using near-infrared spectroscopy and multivariate analysis. <i>Andreisa Flores Braga, Leandro Aparecido Chiconi, Allan Lopes Bacha, Gustavo Henrique de Almeida Teixeira, Luis Carlos Cunha Junior and Pedro Luis da Costa Aguiar Alves</i> .....	104
Seed biology of alkali barnyardgrass ( <i>Echinochloa crus-galli</i> var. <i>zelayensis</i> ) and junglerice ( <i>Echinochloa colona</i> ) for improved management in direct-seeded rice. <i>Zichang Zhang, Hongchun Wang, Jingjing Cao, Gui Li and Bhagirath Singh Chauhan</i> .....	112
Germination responses of vipergrass ( <i>Dinebra retroflexa</i> ) to environmental factors and herbicide options for its control. <i>Sachin Dhanda, Kartik Sharma and Bhagirath Singh Chauhan</i> .....	124
Effect of osmotic potential and temperature on germination of kochia ( <i>Bassia scoparia</i> ) populations from the U.S. Great Plains. <i>Ramawatar Yadav, Prashant Jha, Andrew R. Kniss, Nevin C. Lawrence and Gustavo M. Sbatella</i> .....	133
Multi-tactic strategies to manage herbicide-resistant waterhemp ( <i>Amaranthus tuberculatus</i> ) in corn–soybean rotations of the U.S. Midwest. <i>Ramawatar Yadav, Prashant Jha, Robert Hartzler and Matt Liebman</i> .....	141
Impacts of two years of autumn cover crops in northwestern Washington on winter annual weed populations. <i>Steven S. Seefeldt, Toby M. Una, Don McMoran, Brian Maupin, Elizabeth Myhre and Deirdre Griffin-LaHue</i> .....	150
Multi-Seed Zea Pellets (MSZP) for increasing agroecosystem biodiversity. <i>Anna S. Westbrook, Masoume Amirkhani, Alan G. Taylor, Michael T. Loos, John E. Losey and Antonio DiTommaso</i> .....	160
