Groups whose three-generator subgroups are free	
Gilbert Baumslag and Peter B. Shalen	163
Generators for the bounded automorphisms of infinite-rank free nilpotent groups	
R.G. Burns and Lian Pi	175
The hereditary measure of an algebra	
Vlastimil Dlab	189
Embedding and representation theorems for clones and varieties	
Trevor Evans	199
Automorphisms of nilpotent-by-abelian groups	
C.K. Gupta and Frank Levin	207
Third Engel groups	
N.D. Gupta and M.F. Newman	215
Some groups all of whose proper verbal quotients are relatively free	
Graham Higman	231
Free Fibonacci algebras	
D.L. Johnson and A.C. Kim	235
Permutable word products in groups	
P.S. Kim and A.H. Rhemtulla	243
Wreath decompositions of finite permutation groups	
L.G. Kovács	255
Some remarks on the computation of conjugacy classes of soluble groups	
M.Mecky and J. Neubüser	281
On the date of Cauchy's contributions to the founding of the theory of groups	
Peter M. Neumann	293
On bilinear forms represented by trees	
Walter D. Neumann	303
Growth sequences of finitely generated groups II	
A.G.R. Stewart and James Wiegold	323
On some groups with trivial multiplier	
James Wiegold	331
Homomorphisms on an orthogonally decomposable Hilbert space V	
Sadayuki Yamamuro	333

Information for Authors.

The *Bulletin* of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after a careful evaluation by the Editor and an Associate Editor or other expert in the field. As even minor revisions are generally not permitted, authors should read carefully all the details listed below and on the inside back cover. For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Authors should submit *three* clean, high quality copies to

The Editor, *Bulletin of the Australian Mathematical Society*,
Department of Mathematics, University of Queensland,
St. Lucia, Queensland, 4067, Australia

Unless requested at the time, material submitted to the *Bulletin* will usually not be returned. Note that each paper submitted must include an abstract and one or more classification numbers following the 1980 *Mathematics Subject Classification*. (1985 Revision)

Abstracts of Ph.D. Theses..

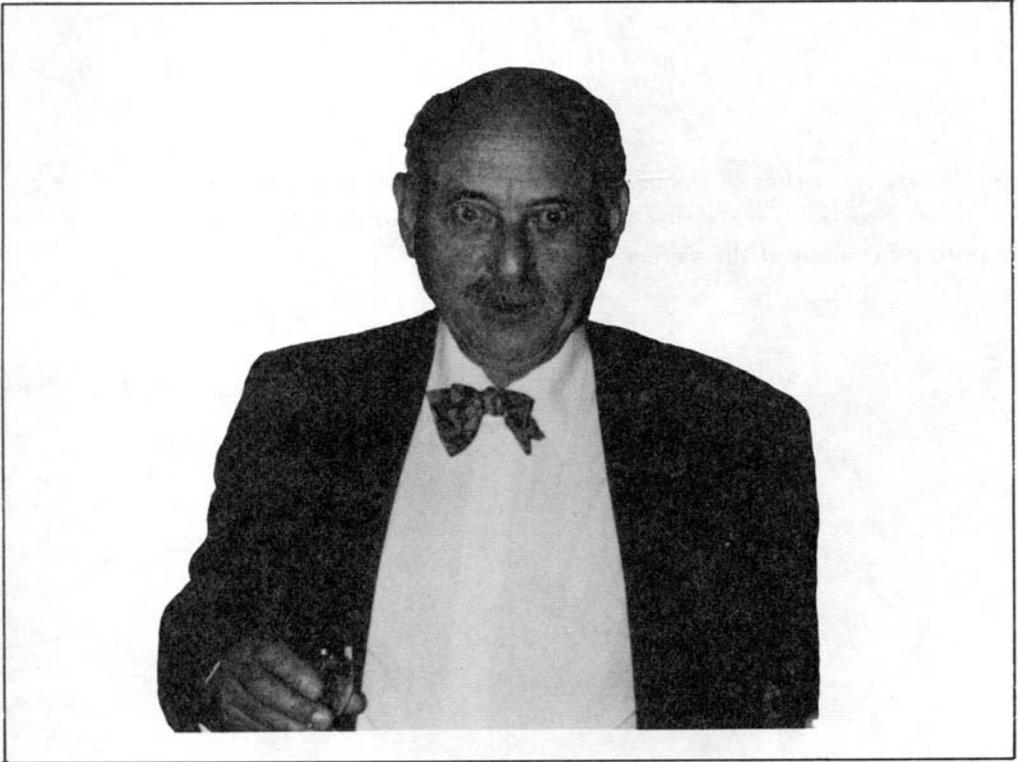

The *Bulletin* endeavours to publish abstracts of all accepted Australasian Ph.D. theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 6 months of the degree being approved.

BULLETIN
OF THE AUSTRALIAN MATHEMATICAL SOCIETY

The eightieth birthday of Professor Bernhard Neumann, FACE, FAA, FRS, the founding editor of the Bulletin of the Australian Mathematical Society, occurs on 15 October, 1989. This October issue of the Bulletin is devoted to papers dedicated to him. It conveys not only the best wishes of all the authors, but also those of the many "Amici et cognati" who, for reasons of space, or otherwise, were unable to contribute as they would have wished to do.

B. Neumann

The Editor wishes to thank all those who assisted in the production of this issue. Especially she wishes to thank Dr R.G. Burns, who acted as associate editor for many of the papers.
