English Language and Linguistics, published three times a year, is an international journal which focuses on the description of the English language within the framework of contemporary linguistics. The journal is concerned equally with the synchronic and the diachronic aspects of English language studies and publishes articles of the highest quality which make a substantial contribution to our understanding of the structure and development of the English language and which are informed by a knowledge and appreciation of linguistic theory. *English Language and Linguistics* carries articles and short discussion papers or squibs on all core aspects of English, from its beginnings to the present day, including syntax, morphology, phonology, semantics, pragmatics, corpus linguistics and lexis.

Phonology

Editors

Colin J. Ewen, *University of Leiden*

Ellen M. Kaisse, *University of Washington*

Phonology, published three times a year, is the only journal devoted exclusively to the discipline, and provides a unique forum for the productive interchange of ideas among phonologists and those working in related disciplines.

Preference is given to papers which make a substantial theoretical contribution, irrespective of the particular theoretical framework employed, but the submission of papers presenting new empirical data of general theoretical interest is also encouraged.

The journal carries research articles, as well as book reviews and shorter pieces on topics of current controversy within phonology.

Journal of the International Phonetic Association

Published for the International Phonetic Association

Editor

Adrian P. Simpson, *Friedrich-Schiller-Universität Jena, Germany*

The *Journal of the International Phonetic Association (JIPA)* is a forum for work in the fields of phonetic theory and description. As well as including papers on laboratory phonetics/phonology and related topics, the journal encourages submissions on practical applications of phonetics to areas such as phonetics teaching and speech therapy, as well as the analysis of speech phenomena in relation to computer speech processing. It is especially concerned with the theory behind the International Phonetic Alphabet and discussions of the use of symbols for illustrating the phonetic structures of a wide variety of languages. *JIPA* now publishes online audio files to supplement written articles.

Journal of Child Language

Editor

Heike Behrens, University of Basel, Switzerland

A key publication in the field, *Journal of Child Language* publishes articles on all aspects of the scientific study of language development and behaviour in children, the principles which underlie it, and the theories which may account for it. The international range of authors and breadth of coverage allow the journal to forge links between many different areas of research including psychology, linguistics, cognitive science, speech pathology and anthropology. The interdisciplinary and crosslinguistic perspective spans a wide range of interests: phonology, phonetics, morphology, syntax, vocabulary, semantics, pragmatics, sociolinguistics and other recognised aspects of language study. In addition to articles and brief research reports, the journal also features occasional review articles plus invited commentaries.

Editorial policy The *Journal of Linguistics* has as its goal to publish articles that make a clear contribution to current debate in theoretical linguistics. The language of submission and publication is English.

Preparation and submission of manuscripts Manuscripts should be formatted as for A4 paper (US 11" × 8.5") with margins of at least 3 cm (1.5") on all four sides, double-spaced and with a 12 pt font. PLEASE NOTE THAT ONLY PAPERS OF NO MORE THAN 60 DOUBLE-SPACED PAGES, INCLUDING REFERENCES AND FOOTNOTES, WILL NORMALLY BE ACCEPTED. If a longer manuscript is submitted for some particular reason, the covering note must state a case for an exception to this limit.

Authors should normally submit the manuscript as a PDF file to the Managing Editor by e-mail, with the main body of the e-mail message containing (i) the name(s) of the author(s) and full contact details; (ii) the full title of the paper; (iii) an abstract of about 200 words summarising the content of the paper; (iv) a statement about the length of the paper in page numbers. The published version of an article includes an abstract; all abstracts are sent to potential referees. While the PDF format is preferred at the time of submission, authors may submit the manuscript in the DOC format. In some cases, authors may be asked to send a hard copy of the submission by post.

For the purpose of refereeing, the electronic copy of an article should be anonymous: the name(s) of the author(s) should not be included in the file and in the file's 'Properties' and, as far as possible, the author(s) should not be identifiable from the references in the text or the acknowledgements. All submitted papers will normally be read by two anonymous referees. The identity of the author(s) of a review article is revealed to the referees but the referees normally remain anonymous.

Accepted papers have to be formatted in accordance with the journal's style and submitted in a file (or files) compatible with PC/Windows/MS Word. The journal welcomes articles and book reviews formatted in (La)TeX.

The full set of notes for contributors is available from the journal's web page and from the Managing Editor.

Proofs will be presented as PDF files for the authors to correct. In the case of co-authored articles, the proofs will be sent to the first-named author, unless otherwise requested. Please inform the Managing Editor of any relevant changes of e-mail addresses occurring between the submission of the final version of the paper and the expected release of the proofs. The proofs should be corrected within three days of receipt and returned immediately. Detailed proofing instructions will be found with the proof.

Offprints Following publication, all authors will receive a PDF file with their contribution.
