

TRANSACTIONS

OF THE

ROYAL SOCIETY OF EDINBURGH.

VOLUME LVI, PART I.—SESSION 1928–29.

CONTENTS.

	PAGE
I. <i>The Igneous Intrusions between St Andrews and Loch Leven.</i> By FREDERICK WALKER, M.A., Ph.D., Carnegie Teaching Fellow, and JOHN IRVING, B.Sc., Carnegie Research Scholar, University of St Andrews. (With One Plate and Four Text-figures) (Issued July 26, 1928.)	1
II. <i>Size in Relation to Internal Morphology. No. 3. The Vascular System of Roots.</i> By CLAUDE W. WARDLAW, B.Sc., Ph.D., Lecturer in Botany, Glasgow University. (With Twenty-two Text-figures) (Issued July 31, 1928.)	19
III. <i>The Geology of the Highland Border from Tayside to Noranside.</i> By DOUGLAS A. ALLAN, Ph.D., D.Sc., F.R.S.E., Lecturer in Geology in Armstrong College, University of Durham. (With Two Plates, Seven Text-figures, and a Coloured Map) (Issued August 31, 1928.)	57
IV. <i>Calamoichthys calabaricus</i> J. A. Smith. Part I. <i>The Alimentary and Respiratory Systems</i> —concluded. By G. LESLIE PURSER, M.A., University of Aberdeen. (With Three Plates and Five Text-figures) (Issued September 29, 1928.)	89
V. <i>On Some Points in the Anatomy and Habits of the Lophogastrid Crustacea.</i> (From the Zoological Laboratory, Cambridge.) By S. M. MANTON, M.A., Ph.D., F.L.S., Demonstrator in Comparative Anatomy in the University of Cambridge, and Fellow of Girton College. Communicated by Professor J. H. ASHWORTH, F.R.S. (With Three Plates and Two Text-figures) (Issued December 8, 1928.)	103
VI. <i>A Contribution to Actinian Morphology: the Genera Phellia and Sagartia.</i> By T. A. STEPHENSON, D.Sc., Zoology Department, University College, London. Communicated by Professor J. H. ASHWORTH, F.R.S. (With Two Coloured Plates and Twelve Text-figures) (Issued February 7, 1929.)	121
VII. <i>A Gravitational Survey over the Buried Kelvin Valley at Drumry, near Glasgow.</i> By W. F. P. MCLINTOCK, D.Sc., and J. PHEMISTER, M.A., D.Sc. Communicated by permission of the DIRECTOR, H.M. GEOLOGICAL SURVEY. (With Two Coloured Plates and Ten Text-figures) (Issued February 9, 1929.)	141
VIII. <i>The Oogenesis of Carcinus mænas Penn., with Special Reference to Yolk Formation.</i> By L. A. HARVEY, M.Sc., Lecturer in Zoology, University of Edinburgh. Communicated by Professor J. H. ASHWORTH, F.R.S. (With Two Plates and Seven Text-figures) (Issued February 18, 1929.)	157
IX. <i>On the Feeding Mechanism of the Syncarid Crustacea.</i> By H. GRAHAM CANNON, M.A., D.Sc., Professor of Zoology in the University of Sheffield, and Miss S. M. MANTON, M.A., Ph.D., F.L.S., Demonstrator in Comparative Anatomy in the University of Cambridge and Fellow of Girton College. (With Eight Text-figures) (Issued March 5, 1929.)	175
X. <i>A Human Blastocyst in situ.</i> By C. WITHERINGTON STUMP, M.D., D.Sc., Bosch Professor of Histology and Embryology in the University of Sydney. Communicated by Professor A. ROBINSON, M.D. (With Ten Plates) (Issued March 7, 1929.)	191
XI. <i>The Anatomy of a Fœtal African Elephant, Elephas africanus (Loxodonta africana). Part III. The Contents of the Thorax and Abdomen, and the Skeleton.</i> By NELLIE B. EALES, D.Sc.Lond., Lecturer in Zoology in the University of Reading. Communicated by Professor J. H. ASHWORTH, F.R.S. (With Six Plates) (Issued April 25, 1929.)	203
