Quaternary Research

Senior Editors
Derek B. Booth
Nicholas Lancaster
Lewis A. Owen

Associate Editors
Patrick J. Bartlein, Robert Booth, Louisa Bradtmiller, Aaron Diefendorf, John Dodson, Mary Edwards, Tyler Faith, Jaime Fucugauchi, Kathleen Johnson, Terri Lacourse, Pete Langdon, Thomas Lowell, Curtis W. Marean, Barbara Mauz, James O’Connor, W. Wyatt Oswald, Jeff Pigati, Yeong Bae Seong, James Shulmeister, Ashok K. Singhvi, Xiaoping Yang

Editors Emeriti
A. Lincoln Washburn
Estella B. Leopold
Stephen C. Porter
Eric J. Steig
Alan R. Gillespie

Managing Editor
Karin Perring

Quaternary Research Center
Box 351360
University of Washington
Seattle, WA 98195-1360

Editorial Board

Zhisheng An
Institute of Earth Environment, Chinese Academy of Sciences
Quaternary geology, monsoon and global change, dust and aerosols

Gail Ashley
Rutgers University
Paleoenvironments, paleohydrology of springs, wetlands and rivers, geoarchaeology

Julie Brigham-Grette
University of Massachusetts
Stratigraphy, sedimentology, chronology of Arctic climate and sea level

John Dodson
Institute of Earth Environments, Xi’an, China
Australia, Pacific Islands, China, vegetation history, human impacts

Yehouda Enzel
Hebrew University of Jerusalem
Desert geomorphology, palaeohydrology of lakes and streams

David Fink
Australian Nuclear Science and Technology Organisation
Cosmogenic dating

Sheri Fritz
University of Nebraska–Lincoln
Paleoclimate, paleoecology, diatom ecology of North and South America

Alan R. Gillespie
University of Washington
Glacial geology, paleoclimate, megafloods, Central Asia

Lisa Graumlich
University of Washington
Paleoclimatology, paleoecology, climate change, mountain ecosystems

Vance T. Holliday
University of Arizona
Geoarchaeology, North America
Archaeology, Peopling of the New World, Soils, Late Quaternary Stratigraphy

Richard G. Klein
Stanford University
Human origins, Quaternary paleontology

Melanie Leng
British Geological Survey, University of Nottingham
Stable isotope geochemistry, climate and environmental change

Daniel R. Muhs
U.S. Geological Survey
Quaternary sea level history, Eolian stratigraphy, soils North America, Pacific, Atlantic, and Caribbean Islands

Colin V. Murray-Wallace
University of Wollongong
Coastal evolution, neotectonism, geochronology, Quaternary sea-level changes

Jay Quade
Department of Geosciences, University of Arizona
Geochemistry, paleoclimatology, Quaternary geology

Maria Socorro Lozano-Garcia
Universidad Nacional Autónoma de México
Tropical paleoecology, paleoclimatology, human impact on ecosystems

Cathy L. Whitlock
Montana State University
Paleoecology and vegetation history: North and South America

Yurena Yanes
University of Cincinnati
Isotope geochemistry, paleoclimatology, Quaternary mollusks, taphonomy, paleoecology

Liping Zhou
Peking University
Land-sea correlation, loess, geochronology, geomorphology, Central Asia, East Asia

Cover photo. Lake Tonček is a small, high-altitude lake (0.03 km², 1750 m asl) of glacial origin located in the Nahuel Huapi National Park (NHN, Argentina), in the arc-shaped Southern Volcanic Zone (SVZ) in the northern Patagonian Andes. It is fed mainly by precipitation and snowmelt. It is ice-covered for six to eight months every year, with an ice thickness of up to 2 m. The sensitivity of this high-altitude lake to environmental disturbances makes this remote environment an excellent archive for paleoenvironmental studies. Photo: Dra. Romina Daga (See the article by Williams et al., pages 273–287 in this issue.)
