

GUIDE TO THE INTERNATIONAL ARCHIVES AND COLLECTIONS AT THE IISH: SUPPLEMENT OVER 2000*

In 2000 a new edition of the 'Guide to the International Archives and Collections at the IISH, Amsterdam' (henceforth cited as GIA) was published. This new edition differs from the 1989 edition by Atie van der Horst and Elly Koen in the following respects: summaries of documentation collections are inserted with the summaries of the other archives and papers (to be distinguished from these by a clause like 'collection of documents', or 'documents collected by'); collections on subjects have a chapter of their own now, next to the chapters 'Persons' and 'Organizations', and in a separate chapter there are summaries of papers, archives, or collections which are preserved in other institutions, but of which the IISH holds reproductions, mostly in the form of microfilms or microfiches.

As to the summaries the following components can be discerned:

1. *Access.* As a rule consultation is not restricted; any restrictions are indicated by*.
2. *Name.* Names of persons include dates of birth and death when known. In the case of international organizations with names in more than one language, the name chosen corresponds to the language in which most of the documents were written. Among organizations that have changed their names, the one used most recently was selected. Previous names of organizations are mentioned in the condensed biography or history. The names of subject collections are mostly in English.
3. *Period.* First and last date of the documents present. Where only a few documents are from a certain year or period, they are listed between parentheses.
4. *Size.* In linear metres.
5. *Finding aid.* Available inventories (published and unpublished), lists and indexes.
6. *Biography/history.* A condensed biography or history of the persons or organizations concerned.
7. *Summary of the contents.* A summary of the contents of the archives, papers or collection concerned.

Reference is given to the pages of the GIA holding the initial description where summaries of an accrual are concerned.

The summaries of this supplement will also be added to the survey of archival collections on the Internet website of the IISH (<http://www.iisg.nl>). Summaries of the Dutch collections of the IISH can be found in the survey on the Internet website too.

The archives may be consulted in the reading room of the IISH. Requests for documents should include their inventory or list numbers. For further information about the rules for access and consultation, (including rules on procedures for
