STATEMENT OF AIMS

Transnational Environmental Law (TEL) is a peer-reviewed journal for the study of environmental law and governance beyond the state. It approaches legal and regulatory developments with an interest in the contribution of non-state actors and an awareness of the multi-level governance context in which contemporary environmental law unfolds.

TEL offers a forum for rigorous analysis and discussion of the impacts of globalization on complex environmental risks and norms. It embraces scholarship that enriches our understanding of contemporary environmental law through comparative and cutting-edge interdisciplinary analysis. TEL’s scope is broadly conceived in terms of disciplinary focus: its pages are open to scholarly contributions covering a wide range of environmental issues, including climate change, biodiversity, emerging technologies, industrial pollution and waste management. TEL also promotes the exploration of the evolving dynamics between environmental law and other legal disciplines (including but not limited to trade and competition law, financial law and human rights).

TEL strives for a new generation of environmental scholarship that will bridge geographical boundaries, scholarly styles and generations. TEL encourages the integration of theoretical and practical legal perspectives on current environmental issues, and aims to deliver scholarship of high relevance to academics and practitioners alike.

Information for prospective contributors

The Editors invite online submissions of manuscripts for publication in Transnational Environmental Law via TEL’s ScholarOne online submissions and review platform:

mc.manuscriptcentral.com/TEL_submissions

Before submitting their work online, authors are strongly urged to refer to the instructions for manuscript preparation (including house style, referencing format, and additional guidance). For detailed submission instructions, see: cambridge.org/TEL/fc

All other inquiries and correspondence related to TEL should be addressed to TEL@cambridge.org or to one or both of the TEL Editors-in-Chief.

All contributions in the journal are double-blind peer-reviewed. All manuscripts must entail original, previously unpublished work, and should not be under consideration for publication elsewhere. The Editors will also consider revised versions of previously released working papers, provided that such publication is clearly acknowledged upon submission of the paper for consideration to TEL.

TEL strives to respect an expedient turn-around time of 6–8 weeks between receipt of the manuscript and first notification of acceptance, rejection or need for revision.

The length of manuscripts should normally range between 8,000 and 11,000 words (including footnotes) for full-length articles, 3,000–6,000 words for commentaries and case notes, and 800–1,500 words for book reviews. Exceptionally, shorter or longer works may be considered at the Editors’ discretion.

For further information, visit cambridge.org/TEL Books for review (and proposals for reviews) should be sent to Melissa Powers, Lewis & Clark Law School (USA), powers@lc.edu.
