

JOURNAL OF PLASMA PHYSICS

VOLUME 55

1996

CAMBRIDGE
UNIVERSITY PRESS

EDITORS

PROFESSOR R A CAIRNS, *School of Mathematical and Computational Sciences, University of St. Andrews, St. Andrews KY16 9SS, Fife, Scotland, jpp@st-andrews.ac.uk*

PROFESSOR GEORGE H MILEY, *Fusion Studies Laboratory, University of Illinois, 103 S Goodwin Avenue, Urbana IL 61801, USA, g-miley@uiuc.edu*

ASSOCIATE EDITORS

DR ROBERT L BINGHAM, *Space Science Department, Rutherford Appleton Laboratory, Chilton, Didcot, Oxfordshire OX11 0QX, England, rbi@vk.rl.ac.uk*

DR MARCO BRAMBILLA, *Max-Planck-Institut für Plasmaphysik, Postfach 1533, D-85740 Garching, Germany, mab@ipp-garching.mpg.de*

PROFESSOR ERYK INFELD, *Soltan Institute, Hoza 69, PL-00681 Warsaw, Poland, Eryk.Infeld@fuw.edu.pl*

PROFESSOR P K KAW, *Institute for Plasma Research, Bhat, Gandhinagar 382 424, Gujarat, India, Kaw@plasma.ernet.in*

PROFESSOR D B MELROSE, *Research Centre for Theoretical Astrophysics, School of Physics, The University of Sydney, Sydney NSW 2006, Australia, melrose@physics.su.oz.au*

PROFESSOR EDWARD C MORSE, *Nuclear Engineering Department, University of California Berkeley, Berkeley CA 94720, USA, Morse@nuc.berkeley.edu*

DR RICHARD A NEBEL, *T-15, Los Alamos National Laboratory, MS K717, Los Alamos NM 87545, USA, rick@ctrss2.lanl.gov*

PROFESSOR G J PERT, F.R.S., *Department of Physics, University of York, Heslington, York YO1 5DD, England, gjp1@redeyes.york.ac.uk*

DR PADMA K SHUKLA, *Institut für Theoretische Physik IV, Ruhr-Universität Bochum, D-44780 Bochum, Germany, ps@tp4.ruhr-uni-bochum.de*

DR GARY P ZANK, *Bartol Research Institute, University of Delaware, Newark DE 19716-4793, USA, zank@bartol.bartol.udel.edu*

Dr John P Dougherty, Founding Editor, 1967–1994

JOURNAL OF PLASMA PHYSICS (ISSN 0022-3778) is published once every two months in February, April, June, August, October and December, by Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU and Cambridge University Press, Journals Department, 40 West 20th Street, New York, NY 10011-4211.

Three parts form a volume. The subscription price (excluding VAT, but includes postage) of Volumes 55 and 56 (1996) is £324.00 (US \$610.00 in the USA, Canada and Mexico) for institutions; £199.00 (US \$380.00) for individuals. Single parts cost £59.00 each (US \$110.00 in the USA, Canada and Mexico) plus postage. All orders must be accompanied by payment.

EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number.

Japanese prices for institutions (including ASP delivery) are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

Copies of the journal for subscribers in the USA, Canada and Mexico are sent by air to New York to arrive with minimum delay. Second class postage paid at New York, NY, and at additional mailing offices. *POSTMASTER*: send address changes in USA, Canada and Mexico to *Journal of Plasma Physics*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573-4930.

Information on *Journal of Plasma Physics* and all other Cambridge journals is available on <http://www.cup.cam.ac.uk/> and in North America on <http://www.cup.org/>.

CONTENTS TO VOLUME 55

PART I FEBRUARY 1996

| | |
|---|-----|
| Professor William B. Thompson: 1922–1995 | 1 |
| Nonlinear dynamics of low-frequency drift waves M. BECKMANN, P. FRANK and G. HIMMEL | 3 |
| Analytical description of low-frequency electron density and temperature oscillations P. FRANK, M. BECKMANN and G. HIMMEL | 25 |
| Thermal instability of a compressible finite-Larmor-radius Hall plasma in a porous medium R. C. SHARMA and SUNIL | 35 |
| Dynamic properties of η_i -mode weak turbulence ALIREZA PAKYARI and VLADIMIR P. PAVLENKO | 47 |
| Ponderomotive effects on the expansion of a photoplasma in the microwave range B. LELOUTRE, J.-P. FURTLERHNER and P. CAMUS | 59 |
| Electromagnetic ion-beam instabilities in a cold plasma G. GNAVI, L. GOMBEROFF, F. T. GRATTON and R. M. O. GALVÃO | 77 |
| Expansion of a bounded plasma with dust particles YU. I. CHUTOV, A. YU KRAVCHENKO and P. P. J. M. SCHRAM | 87 |
| Transfer integrals for fully ionized gases HORST FICHTNER, S. RANGA SREENIVASAN and NORBERT VORMBROCK | 95 |
| Two-dimensional shear Alfvén-wave turbulence in a plasma with arbitrary β G. BRODIN | 121 |
| Diocotron instability of a warm electron beam in crossed fields HEE J. LEE and KWANG-SUP YANG | 131 |
| Comments on the paper ‘Specular reflection as a probe for diagnostics of laser-produced plasmas’ G. P. GUPTA and B. K. SINHA | 143 |

PART 2 APRIL 1996

- Nonlinear MHD waves on an interface of finite thickness with compressibility and resonant damping
A. V. KRABROV and B. U. Ö. SONNERUP 145
- Resonant four-wave mixing of finite-amplitude Alfvén waves
S. RAUF and J. A. TATARONIS 173
- Steady waves in a cold plasma
ANDREJ IL'ICHEV 181
- Beam-plasma instability excited by non-thermal electrons with arbitrary distribution function and comparison with electron-cyclotron maser instability
GUANG-LI HUANG, DE-YU WANG and DING-YI MAO 195
- Electrostatic solitons in an electron–positron plasma with two distinct groups of positrons
J. SRINIVAS, S. I. POPEL and P. K. SHUKLA 209
- Nonlinear stability of Kelvin–Helmholtz waves in magnetic fluids stressed by a time-dependent acceleration and a tangential magnetic field
YUSRY O. EL-DIB 219
- A new Hamiltonian formulation for fluids and plasmas. Part 1. The perfect fluid
JONAS LARSSON 235
- A new Hamiltonian formulation for fluids and plasmas. Part 2. MHD models
JONAS LARSSON 261
- A new Hamiltonian formulation for fluids and plasmas. Part 3. Multifluid electrodynamics
JONAS LARSSON 279
- BOOK REVIEW
Solitary Waves in Plasmas and in the Atmosphere, by V. Petviashvili and O. Pokhotelov 301

PART 3 JUNE 1996

- A criterion for splitting of a reconnecting current sheet into MHD discontinuities
S. A. MARKOVSKII and B. V. SOMOV 303
- Relativistic transverse modulational instability of two electron cyclotron waves
KWANG-SUP YANG 327

| | |
|--|-----|
| Magnetogravitational instability of compressible streaming superposed fluids AHMED E. RADWAN | 339 |
| Resonant electromagnetic wave mixing in a dusty plasma JIN-XIU MA, M. Y. YU and P. K. SHUKLA | 349 |
| Electrostatic parametric resonances in a plasma revisited J. F. MCKENZIE and T. HAGFORS | 359 |
| TM mode radiation guiding in an REB-induced plasma duct JETENDRA PARASHAR and LALITA | 387 |
| Ion dynamics and gravitational instability of a dusty plasma B. P. PANDEY and C. B. DWIVEDI | 395 |
| Dynamics of a magnetized gravitating dusty plasma L. MAHANTA, B. J. SAIKIA, B. P. PANDEY and S. BUJARBARUA | 401 |
| Black-body radiation in plasmas LEVAN N. TSINTSADZE, DIRK K. CALLEBAUT and NODAR L. TSINTSADZE | 407 |
| A dielectric tensor for a uniform magnetoplasma with a generalized Lorentzian distribution R. L. MACE | 415 |
| A numerical investigation of magnetic reconnection CRAIG ANDERSON and FERDINAND JAMITZKY | 431 |
| Generalized Case–van Kampen modes in a multidimensional non-uniform plasma with application to gyroresonance heating E. R. TRACY, A. J. BRIZARD and A. N. KAUFMAN | 449 |
| BOOK REVIEW <i>Theory of Space Plasma Instabilities</i> , by S. P. Gary | 487 |
| AUTHOR INDEX TO VOLUME 55 | 489 |

Instructions for Authors

Editorial policy: The journal welcomes submissions in any of the areas of plasma physics. Its scope includes experimental and theoretical work on basic plasma physics, the plasma physics of magnetic and inertial fusion, laser–plasma interactions, industrial plasmas, plasma devices and plasmas in space and astrophysics. This list is, of course, merely illustrative of the wide range of topics on which papers are invited, and is not intended to exclude any aspect of plasma physics that is not explicitly mentioned.

Authors are urged to ensure that their papers are written clearly and attractively, in order that their work will be readily accessible to readers. Manuscripts must be written in English. *Journal of Plasma Physics* employs a rigorous peer-review process whereby all submitted manuscripts are sent to recognized experts in their subjects for evaluation. The Editors' decision on the suitability of a manuscript for publication is final.

Submission of manuscripts: Papers may be submitted to any of the Editors or Associate Editors. Three copies should be sent accompanied by the author's address, telephone and fax number, and if possible, an electronic mailing address. Submission of a paper is taken to imply that it has not been previously published and that it is not being considered for publication elsewhere. Upon acceptance of a paper, the author will be asked to transfer copyright to the publisher.

The publisher encourages submission of manuscripts written in LaTeX for which a JPP style file can be obtained using anonymous FTP from the internet address <ftp.cup.cam.ac.uk>. Go into the directory `/pub/texarchive/journals/latex/` where you will find a concatenated file called `jpp.all`. This contains `readme.txt`, `jpp.sty` and `jppguide.tex`. If you use `jppguide.tex` you will get a full set of instructions for using the style file. In case of difficulties obtaining these files, there is a help-line available via e-mail; please contact texline@cup.cam.ac.uk. The publisher may also be able to typeset papers submitted on disc in ordinary LaTeX or plain TeX using 'article style'.

On final acceptance of a paper, authors should send the LaTeX source code including all author-defined macro and style files, on disc to the Editor, together with a hard copy produced using the same file. Discs should be in Apple Mac or PC format and will not be returned. It is not possible to accept final versions of papers via e-mail. The publisher reserves the right to typeset any article by conventional means if the author's TeX code presents problems in production.

Layout of manuscripts: Papers should be typewritten using **double spacing throughout**, on one side of the paper, allowing generous margins on all sides of the paper. Please avoid footnotes if possible. Papers should begin with an abstract of not more than 300 words and should end with a brief concluding section. The title and section headings should be concise and descriptive. All measurements should be given in SI units.

Illustrations: Figures should be drawn in black Indian ink on white paper or produced from a high quality laser printer. A list of captions should be attached separately, and as far as possible, information relating to a figure should be placed in the caption rather than on the figure. Each figure should be marked on the back, in pencil, with the author's name and the figure number. The top of each figure should be identified in pencil.

Tables should be typewritten on separate sheets of paper. A descriptive title should be given to each table. If possible, very wide tables should be avoided.

References: The Harvard system of references should be used. References should be listed in alphabetical order at the end of the main text. The reference should be in the order: author's surname, initials; year; journal name; volume number; page numbers. In the full references, a listing of all authors' names is preferred to the use of *et al.* If one author or group of authors has multiple papers published in the same year, the letters *a*, *b*, *c*, etc. should be appended after the year to distinguish the individual references. For books and conference proceedings, publisher and place of publication (and Editor(s) if appropriate) should be included. In the text, references should be cited as name (date) or (name date).

Proof Reading: Only typographical or factual errors may be changed at proof stage. The publisher reserves the right to charge authors for correction of non-typographical errors.

Offprints: 50 offprints of each article will be supplied free to each first named author. Extra offprints may be purchased from the publisher if ordered at proof stage. No page charge is made.

Copying: This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per copy fee of \$11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0022-3778/96 \$11.00 + .10.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.
