Statistical Editor: C. CIERCO (France)
EAAP invited reviews Editor: H.M. NIELSON (Norway)
Aims and Scope of the journal
Animal attracts the best research in animal biology and animal systems from across
the spectrum of the agricultural, biomedical,
and environmental sciences. It is the
central element in an exciting collaboration between the British Society of Animal
Science (BSAS), the Institut National de la
Recherche Agronomique (INRA) and
the European Association of Animal
Production (EAAP) and represents a merging of the three scientific journals: Animal
Science; Animal Research; Reproduction,
Nutrition, Development. Animal publishes
original cutting-edge research, hot topics
and horizon-scanning reviews on animal-related aspects of the life sciences at the
molecular, cellular, organ, whole animal
and production system levels.
The main subject areas include: breeding and genetics, nutrition, physiology and
functional biology of systems; behaviour,
welfare and health; farming systems,
environmental impact and climate change;
product quality, human health and well-being.
Animal models and papers dealing with the integration of research between these
topics and their impact on the environment and people are particularly welcome. The detailed scope of the journal can be found at www.animal-journal.eu/
scope.htm
Submission of Manuscripts
All manuscripts must be submitted online via the website: http://www.editorial
manager.com/animal
Please consult the full instructions for authors at: www.animal-journal.eu/
instructions_to_authors.htm
Subscriptions
Animal (ISSN 1751-7311) is published monthly. The subscription price for institutions of Volume 8 (2014) which
includes electronic access and delivery by air is £879, €1077 (US $1719 in the USA,
Canada and Mexico); the electronic only price for institutions is £675, €879 (US
$1356 in the USA, Canada and Mexico). Single parts are £80, €99 (US $157 in the
