

ECONOMIC AND SOCIAL HISTORY IN THE NETHERLANDS

Economic and Social History in the Netherlands
is an annual publication of the Netherlands Economic History
Archive (NEHA), Amsterdam.

It contains articles written by Dutch scholars on the history of
the Netherlands and its (former) colonies.

The articles are mainly historiographical overviews and studies
of a comparative nature.

Contents vol. 2 (1990):

JAN KOK, The moral nation.
Illegitimacy and bridal pregnancy in
the Netherlands from 1600 to the
present.

PETER BOOMGAARD, Why work for
wages? Free labour in Java, 1600 -
1900.

WANTJE FRITSCHY, Taxation in Britain,
France and the Netherlands in the
eighteenth century.

JAN PIETER SMITS, The size and
structure of the Dutch service sector
in international perspective, 1850 -
1914.

DICK VAN LENTE, The crafts in
industrial society: ideals and policy in
the Netherlands, 1890-1930.

JAAP BARENDREGT, Currency reform in
Europe: the Dutch case (1945-1952).

ERIK BLOEMEN, Hard work! Ideology
and interest in Dutch economic policy
at home and abroad between 1945 and
1951.

ECONOMIC AND SOCIAL HISTORY IN THE NETHERLANDS (ISSN 0925-1669)
is published once per year. Subscription rate: \$35.00 (postage included).

The Cost of Empire
Neapolitan Finance During the
Period of Spanish Rule

Antonio Calabria

This book is a study of early modern government finance in the kingdom of Naples, focusing on the period from the mid-sixteenth-century to the time of the Thirty Years War.

Cambridge Studies in Early Modern History
39176-8 Hardcover \$42.50

Asia Before Europe
Economy and Civilisation of the
Indian Ocean from the Rise of Islam
to 1750

K. N. Chaudhuri

The establishment of the identity of different Asian civilizations is traced by exploring the dynamic interaction between economic life, society, and civilization in the regions of the Indian Ocean from the rise of Islam to 1750.

30400-8 Hardcover \$69.50
31681-2 Paper \$19.95

Britain Ascendant
Comparative Studies in British and
Franco-British Economic History

François Crouzet

This collection of essays examines the rise of Britain to the position of dominance in the world economy in the nineteenth century and the concomitant decline of France. Special attention is paid to the problems of capital formation, foreign trade and the Empire.

de l'Homme*
34434-4 Hardcover \$75.00

Lille and the Dutch Revolt
Urban Stability in an Era of
Revolution, 1500–1582

Robert S. DuPlessis

Although affected by powerful currents that provoked rebellion in many other cities, the leading textile and trading center of Lille adhered to the existing order. This comprehensive study illuminates the processes of selective adaptation that by the 1560s had endowed Lille with a structural tendency to stability.

39415-5 Hardcover \$54.50

**New Perspectives on the Late
Victorian Economy**

Essays in Quantitative Economic
History, 1860–1914

James Foreman-Peck, Editor

This book reveals the relevance of the Victorian economy as a model for contemporary society by using quantitative methods to explain its true nature and performance.

Contributors: *John Cantwell, Charles Feinstein, James Foreman-Peck, Terry Mills, Forrest Capie, Geoffrey Wood, Roger Millward, Stephen Nicholas, Tessa Ogden, Humphry Southall, John Treble, Paul Turner.*

39107-5 Hardcover \$54.50

**Economic Expansion in the
Byzantine Empire, 900–1200**

Alan Harvey

Dr. Harvey shows that the economic developments of the Byzantine empire and the medieval West were far more comparable than Byzantine historians have been prepared to admit. There is considerable evidence that during this period, the empire's population expanded, agricultural production intensified, coinage in circulation increased, and towns revived.

37151-1 Hardcover \$49.50

Population and Nutrition

An Essay on European Demographic History

Massimo Livi-Bacci

Tania Croft-Murray, Translator

The mechanisms of biological, social, and cultural nature linking subsistence, mortality, and population, and determining its short and long term cycles, are discussed in this analysis.

Cambridge Studies in Population, Economy and Society in Past Time

36325-X Hardcover \$39.50

36871-5 Paper \$12.95

A Bibliography of Historical Economics to 1980

Donald N. McCloskey and

George K. Hersh Jr., Editors

This is the only bibliography of historical economics. The many thousands of items cover all countries for all periods in which historical economics has been written.

40327-8 Hardcover \$49.50

The Bread of Affliction

The Food Supply in the USSR

During World War II

William Moskoff

This book tells how the Soviet Union fed itself after the invasion by the Germans during World War II. The author argues that central planning became much less important in feeding the population, and civilians were thereby forced to become considerably more self reliant in feeding themselves.

Soviet and East European Studies 76

37499-5 Hardcover \$49.50

Europe, America and the Wider World

Volume 2: America and the Wider World

William N. Parker

“Parker’s work touches on almost all of the issues and research that have, in the past thirty-five years, completely restructured our understanding of American economic development. No one with the slightest acquaintance with recent American historiography will be surprised by the very strong sections on slavery and Southern agriculture and on agriculture in the Midwest—these are, after all, the subjects that made Bill famous. To those who do not know him well, however, the equally strong chapters covering the growth of industry and the relationship between politics and economic development will come as a very pleasant surprise.”

—Lance E. Davis,

California Institute of Technology

25466-3 Hardcover \$59.50

27479-6 Paper \$17.95

The Planned Economies and International Economic Organizations

Jozef M. van Brabant

This is the first comprehensive study of the role of socialist countries within the international economic order.

Soviet and East European Studies 77

38350-1 Hardcover \$57.50

The Governmental Habit Redux

JONATHAN R.T. HUGHES

To the distinguished economic historian Jonathan Hughes, the ambiguous outcomes of attempted deregulation signal America's urgent need to probe the origins of our vast and chaotic maze of government economic controls. Why do government restrictions on the economy continue to proliferate, in spite of avowed efforts to allow the market a freer rein? How did this complicated network of nonmarket economic controls come about and whose purposes does it serve? While exploring these questions, Hughes updates his classic book *The Governmental Habit* to reflect the experience of what he calls the "wild ride" of the last fifteen years.

"Jonathan Hughes is probably the only living economic historian with the breadth of vision and open-mindedness to produce a book like this.—Hugh Rockoff

BETWEEN SILVER AND GUANO

COMMERCIAL POLICY AND
THE STATE IN
PERU

New in paperback

This study of Peru's transformation from a tottering colonial economy based on extraction of precious bullion to a massive exporter of bulk goods like guano shows how a struggle between protectionists and free traders shaped the state.

"This is an elegant and sophisticated book that can be read on many levels, written by an author who never takes the facile road. [Its] significance is great—not just for Peruvian history but for theoretical questions relating to dependency and economic history in nineteenth-century Latin America. . . . Gootenberg has added a major new element to the dependency debate, one that is more intellectually satisfying than the sterile old argument about good guys and bad guys."

—Timothy E. Anna,

Hispanic American Historical Review
