Kantian Review publishes articles and reviews selected for their quality and relevance to current philosophical debate in relation to Kant’s work. In recent times Kant’s philosophy has influenced contemporary philosophers over a wide range of issues from epistemology, metaphysics and philosophy of science to moral and political philosophy, philosophy of religion, aesthetics and teleology. In these, and other, sectors Kant’s views still generate debates about such issues as the character of a responsible metaphysics, epistemological scepticism, moral motivation, the foundations of politics, law and distributive justice both national and international. Kantian Review invites contributions to these debates along with original accounts of Kant’s texts, and of the development of his thought in its historical background.
