

ERRATUM

Walsh, D., Cullen, A., Cullivan, R. & O'Donnell, B. 'Do statistics lie? Suicide in Kildare – and in Ireland' (1990, Vol. 20, pp. 867–871). In the footnote which appears on page 870 the fourth sentence should begin: 'CSO coded 309 deaths...'; and the final sentence should end '...clinical suicide over the five year period was therefore 7.3 per 100 000 of population compared to the 6.2 returned by CSO'.

Also, on page 871 the final sentence of the second paragraph should read: 'This may be regarded as further proof that CSO figures now accurately reflect suicide mortality even if the suicide rate in Kildare is slightly lower than elsewhere, and on a comparison with earlier estimates for this region, has risen less.'

BEHAVIOURAL PSYCHOTHERAPY

Edited by Paul M Salkovskis,
Department of Psychiatry, University of Oxford

A quarterly international journal for psychiatrists, clinical and
educational psychologists, social workers, nurses, and teachers.

Behavioural Psychotherapy is a broad ranging journal publishing original research of an experimental or clinical nature in those areas of human behaviour and human experience which contribute to the theory, practice and evaluation of behaviour therapy.

Additional special features:

- **Brief Clinical Reports:** including unusual case reports and potentially important techniques, phenomena, or observations
- **Accelerated Publication Section:** for papers dealing with new developments requiring rapid dissemination

1991 starts with a special issue on *The Changing Face of Behavioural Psychotherapy* including articles by:

JACK RACHMAN • PAUL SALKOVSKIS • MICK POWER
ISAAC MARKS • CHRIS CULLEN
MARCEL VAN DEN HOUT and HARALD MERKELBACH
RAY HODGSON • BILL YULE • ANTONIA WHITEHEAD
DEREK JOHNSTON • JANET CARR • NICK TARRIER
KEITH HAWTON

Topics covered include cognitive therapy, cognitive science, self-administered behavioural treatment, application of conditioning theories, and also state-of-the-art reviews of key areas of application of behavioural psychotherapy.

BABP

Articles should be submitted to the editor.

ORDERING INFORMATION

Volume 19, 1991, 4 issues

Europe: individual rate £35.00; institutional rate £56.00
Elsewhere: individual rate US\$68.00; institutional rate US\$110.00
EABT Member Rate: £28.00; AABT Member Rate: US\$55.00

Send for a free sample copy

Journals Department, Wisepress Ltd., 59 Revelstoke Road, Wimbledon Park, London SW18 5NJ, UK.

NOTES FOR CONTRIBUTORS

PAPERS Papers for publication should be addressed to the Editor, Professor Michael Shepherd, Institute of Psychiatry, De Crespigny Park, Denmark Hill, London SE5 8AF. Contributors should send at least three copies of the text, tables, and figures. Copies other than the first may be xeroxed. In addition to longer articles, the Editor is prepared to accept preliminary and brief communications of between 1500 and 2500 words.

Submission of a paper will be held to imply that it contains original work that has not been previously published and that it is not being submitted for publication elsewhere.

Manuscripts must be typewritten on one side of the paper in double-spacing with wide margins throughout, including references and notes, and consecutively numbered. The following information must be given on the first page (title sheet): (1) title and short title for running head (not more than 60 characters); (2) authors' names, and (3) department in which work was done. A short synopsis of about half an A4 page double-spaced must be provided at the beginning of each article. The name of an author to whom correspondence should be sent must be indicated and a full postal address given in the footnote. Any acknowledgements should be placed at the end of the text (before the References section).

Contributors should note the following:

1. Italic type should be indicated by underlining and bold type by wavy underlining (italic and bold typefaces should not be used even if they are available).
2. S.I. units should be used throughout in text, figures and tables.
3. Authors should spell out in full any abbreviations used in their manuscripts.
4. Foreign quotations and phrases should be followed by a translation.
5. If necessary, guidelines for statistical presentation may be found in: Altman, D. G., Gore, S. M., Gardner, M. J. & Pocock, S. J. (1983). Statistical guidelines for contributors to medical journals. *British Medical Journal* **286**, 1489–1493.

REFERENCES (1) The Harvard (author-date) system should be used in the text and a complete list of References cited given at the end of the article. In a text citation of a work by more than two authors cite the first author's name followed by *et al.* (but the names of all of the authors should be given in the References section). Where several references are cited together they should be listed in rising date order. (2) The References section should be typed in alphabetical order on a separate sheet. Examples follow:

Brown, G. W. (1974). Meaning, measurement and stress of life events. In *Stressful Life Events: Their Nature and Effects* (ed. B. S. Dohrenwend and B. P. Dohrenwend), pp. 217–244. John Wiley: New York.

Brown, J. (1970). *Psychiatric Research*. Smith: Glasgow.

Brown, J., Williams, E. & Wright, H. (1970). Treatment of heroin addiction. *Psychological Medicine* **1**, 134–136.

Journal titles should always be given in full.

FIGURES AND TABLES Only essential figures and tables should be included. *Photographs* Unmounted photographs on glossy paper should be provided. Magnification scales, if necessary, should be lettered on these. Where possible, prints should be trimmed to column width (i.e. 70 mm). *Diagrams* These should not be included in the text and should be submitted in a form suitable for direct reproduction (the printed version will normally be reduced to 70 mm wide). Lettering should be in either Letraset or stencil, and care should be taken that lettering and symbols are of comparable size. All photographs, graphs, and diagrams should be referred to as figures and should be numbered consecutively in arabic numerals. Ensure that the figure number is marked on the back of the photograph or artwork together with the name of the author and paper title. Captions for figures should be typed double-spaced on separate sheets. *Tables* Tables should be numbered consecutively in the text in arabic numerals and each typed on a separate sheet after the References section. Titles should be typed above the table.

PROOFS AND OFFPRINTS Page proofs will be sent to the author indicated on the title page. Corrections other than to printer's errors may be charged to the author. Fifty offprints of each paper are supplied free; additional offprints are available according to a scale of charges if they are ordered when the proof is returned.
