Submit an Article for the IPA Bulletin!

The *IPA Bulletin* is the quarterly newsletter of the International Psychogeriatric Association (IPA). In addition to news about IPA and related organizations, the *IPA Bulletin* contains articles on recent advances and initiatives in the field of psychogeriatrics. The *IPA Bulletin* reaches all the members of IPA, including our affiliates around the world.

*Research and Practice.* The Research and Practice section of the *IPA Bulletin* highlights recent advances in psychogeriatrics and related fields. Articles from all fields related to the mental health of older people are welcome.

*Around the World.* The Around the World section of the *IPA Bulletin* features articles by clinicians and researchers which report on activities and issues within their country or region. These articles seek to educate others on the state of the field in other countries and provide unique perspectives from around the world.

To learn more about the *IPA Bulletin*, visit our website:

www.ipa-online.org
Compact, accessible and affordable

Each chapter is sharp, clear and practical, enhanced by tables and diagrams for quick assimilation and reference on the ward or in the clinic.

Coverage also includes legal and ethical issues, and the neglected topic of alcohol and drug abuse in the elderly.

About IPA
The International Psychogeriatric Association (IPA), founded in 1982 and representing members in more than 50 countries, is a unique and diverse professional healthcare community promoting better geriatric mental health – across disciplines, across borders, and across geriatric issues. Psychiatrists, scientists, neurologists, geriatricians, primary care physicians, epidemiologists, nurses, psychologists, occupational therapists, social workers, and many other healthcare professionals come to the IPA community from all around the world to discuss, learn, share and research information about behavioral and biological aspects of geriatric mental health. IPA promotes research and education, facilitates an international exchange of ideas, and fosters cross-cultural understanding of the latest developments in the field.

IPA Membership
The International Psychogeriatric Association (IPA) encourages professionals from all backgrounds related to geriatric mental health to join our healthcare community. Here are some of the many benefits of joining IPA:

- Unique opportunities to interact with colleagues around the world how share an interest in advancing research, education, and theory about mental health care in older adults.
- Valuable discounts on participation in education and scientific meetings which reflect the full spectrum of disciplines related to psychogeriatrics. Reduced registration rates for the annual IPA International Congress and IPA Regional Meetings are included.
- Relevant publication on updates in the field, including International Psychogeriatrics, IPA’s peer reviewed journal which publishes twelve issues per year and additional special-focus supplements.
- Access to online educational materials and The IPA Complete Guides to Behavioral and Psychological Symptoms of Dementia (BPSD).
- Subscription to the IPA Bulletin, IPA’s newsletter which features articles on advances in the field and information on upcoming programs around the world.
- Participation in the IPA Member Forums – smaller member groups which enable members to connect with one another and collaborate on research and clinical care practices. These forums reflect the diversity of interests within geriatric mental health.

How to Join
To learn more about IPA and become a member, please visit our website: www.ipa-online.org. IPA offers a one-year membership for $160 USD. One-year student or retired memberships are available for $99 USD. A limited number of Lifetime Memberships are also available for $1000 USD. The IPA Secretariat is available to answer any questions you may have about IPA or membership. Please contact us at +1 414 918 9889 or by email at info@ipa-online.org.

Issue Theme: Parkinson’s Disease

CONTENTS

Guest Editorial 1

Improved understanding, detection, and management of neuropsychiatric complications: essential components to the optimal treatment of Parkinson’s disease

Roseanne D. Dobkin and Alejandro Interian

Theme Articles

5
Comparison of structural connectivity in Parkinson’s disease with depressive symptoms versus non-depressed: a diffusion MRI connectometry study

Mina Ansari, Sahand Adib Moradi, Farzaneh Ghazi Sherbaf, Abozar Hedayatnia and Mohammad Hadi Aarabi

13
Change in fear of falling in Parkinson’s disease: a two-year prospective cohort study

Tatjana Gazibara, Darija Kisic Tepavcevic, Marina Svetel, Aleksandra Totic, Tatjana Pekmezovic, Vladimir S. Kostic and Tatjana Pekmezovic

21
Well-being and distress of patients with Parkinson’s disease: a comparative investigation

Francesca Vescovelli, Daniele Sarti and Chiara Ruini

Commentary

31
Integrating spirituality into the care of older adults

John R. Peteet, Faten Al Zaben and Harold G. Koenig

Original Research Articles

49
The effect of errorless learning on psychotic and affective symptoms, as well as aggression and apathy in patients with Korsakoff’s syndrome

Yvonne C. M. Rensen, Jos I. M. Egger, Josette Westhoff, Serge J. W. Walvoort and Roy P. C. Kessels

59
Latent class analysis of the Multivariate Delirium Index in long-term care settings

Antonio Ciampi, Chun Bai, Alina Dyachenko, Jane McCusker, Martin G. Cole and Eric Belzile

73
Performance on bedside tests of attention and organized thinking in patients with dementia free from delirium

Letty Oudewortel, Karlijn J. Joling, Cees M. P. M. Hertogh, Viona J. M. Wijnen, Anne A. M. van der Brug and Willem A. van Gool

83
Management of behavioral and psychological symptoms in people with Alzheimer’s disease: an international Delphi consensus

Helen C. Kales, Constantine G. Lyketsos, Erin M. Miller and Clive Ballard

101
Increased plasma complement factor H is associated with geriatric depression

Cheolmin Shin, Byung-In Han, Youngsun Ahn, Chul Min, Woong Yeol, Grand C. Stieven, Adrian A. Pantel and Donghyun Kim

109
Motivations for attempting suicide in mid- and late-life

Wally Brown, Nadia Sors and Amanda Dondorp

123
Using structural equation modeling to detect response shift in quality of life in patients with Alzheimer’s disease

Xuxia Wang, Xiaomeng Xu, Hongjuan Han, Runlian He, Liye Zhou, Ruifeng Liang and Hongmei Yu

133
Mild cognitive impairment and dementia in older patients attending a general hospital in south India: DSM-5 standards and correlates

Abu P. Varghese, J. Prasad and K. S. Jacob

Brief Reports

139
Sensory loss and suicide ideation in older adults: findings from the Three-City cohort study

Ying Chua, Robin Wai Munn Choo, Ngoc Huong Lien Ha, Chin Yee Cheong, Shiou-Liang Wee and Philip Lin Kiat Yap

147
Mapping modified Mini-Mental State Examination (MMSE) scores to dementia stages in a multi-ethnic Asian population

Ying Chua, Robin Wai Munn Choo, Chin Yee Cheong, Shiao-Liang Wee and Philip Lin Kiat Yap

Letter to the Editor

153
Risk of caregiver burden in patients with three types of dementia

Tomoyuki Kawada

Response to Kawada

Shuai Liu, Xiao-Dan Wang and Yong Ji

Corrigendum

157
Affective and emotional dysregulation as pre-dementia risk markers: exploring the mild behavioral/impairment symptoms of depression, anxiety, irritability, and euphoria – CORRIGENDUM

Zahinoor Ismail, Jennifer Gatchel, Daniel R. Bateman, Ricardo Barcelos-Ferreira, Marc Cantillon, Judith Jaeger, Nancy J. Donovan and Moyra E. Mortby
