A STUDY IN ROMANS

E. K. Lee

Like the author's earlier book, *The Religious Thought of St. John*, this is not a commentary in the accepted sense, but a study which isolates the main themes in the epistle, drawing out their meaning in terms of the whole of St Paul's thought, the New Testament, and modern experience.

THE TRINITY IN THE NEW TESTAMENT

A. W. Wainwright

How far were the New Testament writers themselves aware of the problem involved in their faith which led to the working out of the doctrine of the Trinity by their successors? The posing of this question distinguishes Mr Wainwright's approach to his examination of the New Testament evidence that Trinitarian teaching was implicit in the religion of the first Christians, though only later was it found necessary to give it theological formulation.

GOD AND MAN IN THE OLD TESTAMENT

J. A. Wainwright

Published in conjunction with the National Society

Mr Wainwright, who was Chaplain of St Paul's College, Cheltenham, until his recent appointment to the staff of the British Council of Churches, writes primarily for those who have to teach the Old Testament in school; but the ordinary reader, too, will learn much from his lucid exposition of its main theme in the light of the best traditions of modern scholarship.

THE HEALING CHURCH

W. J. T. Kimber

Dr Kimber's aim is to set out for modern man the nature of the Church's ministry of healing in terms which are related to recent psychological concepts and which for that reason may be found acceptable. He writes as a doctor from a medical point of view, but he never loses sight of the truth of the spiritual.

CHURCH & STATE IN AUSTRALIA, 1788-1872

Ross Border

Between 1788 and 1872 the Church of England in Australia developed from an army chaplaincy for a convict settlement to an association of dioceses with a complex machinery of government and differing relations to the State. It is a history which presents in microcosm most of the issues involved in Church and State relations. Bishop Wand writes, "The book is a fascinating examination of an important element in the organisation of human society."

By ALEXANDER McLEISH

ARE THERE TWO GOSPELS?

This book, first published in India, is concerned with a theme of great importance, namely the relation of the Kingdom of God to the Church, and to the end of human history. It was published shortly after the death of the author, the senior member of the World Dominion Press (Survey Application Trust). He wrote in the Preface:

'For the last 2,000 years there has stemmed forth from that revelation of God's love a salvation which through His Grace has become the hope of every man. This is so great news, so comprehensive a gospel that it lays on every believer... the responsibility... of making it known to others. This in all its simplicity is all the foundation needed for the missionary task...'

A Patristic Greek Lexicon

Edited by G. W. H. LAMPE

Second Fascicle: βαρβαρεύω—εὐσυμπαθήτως

The Lexicon covers the use of all theologically important words by Greek Christian writers from the Apostolic Fathers to A.D. 800. The two fascicles now published comprise the introductory material and the alphabet as far as epsilon. Of this work a reviewer has written 'If the First Fascicle is to be regarded as typical, the world of patristic learning will be under a permanent debt to Professor Lampe.' Second fascicle, Demy 4to, 288 pages, 84s. net

Paganism and Christianity in the Fourth Century

Edited by A. MOMIGLIANO

This book, the first in the series Oxford-Warburg Studies, comprises eight lectures given at the Warburg Institute on the aftermath of the conversion of Constantine. Various aspects of the conflicts between pagans and Christians in fourth-century Rome are surveyed by a team of distinguished scholars, with an introduction by the Editor. Royal 8vo 234 pages, 7 plates, 35s. net

The Sense of the Presence of God Gifford Lectures, 1960-61

IOHN BAILLIE

'Teachers, preachers, biblical students, and all sorts of people trying to understand their faith—will find help and inspiration here on almost every page; for here is a mixture of high scholarship with an understanding of the needs of the ordinary man. THEOLOGY. Demy 8vo, 288 pages, 30s. net

The Word in Worship

THOMAS KEIR

'Remarkable in that it recognizes that the sermon should be regarded not as an end in itself . . . but should be a contributory part of an act of worship . . . The lectures are learned and very well written, and there can be few preachers who would not benefit by reading them.' THE TIMES LITERARY SUPPLEMENT.
