Research Papers

X. Zhang, T. Pengsakul, M. Tokary, L. Yu, W. Feng and D. Lou
Host-location behavior of the tea green leafhopper Empoasca vitis Göthe (Hemiptera: Cicadellidae): olfactory and visual effects on their orientation

P. Rempoulakis, S. Sela (Saldinger), E. Nemny-Lavy, R. Pinto, A. Birke and D. Nestel
Microbial composition affects the performance of an artificial Tephritid larval diet

N. Gunathilaka, T. Ranathunge, L. Udayanga, A. Wijegunawardena and W. Abeyewickreme
Regional population differences of the brown planthopper (Nilaparvata lugens) in Cambodia using genotyping-by-sequencing

M. Matsukawa, Mikako Tasaki, Kazuyuki Doi, Kasumi Do, Kanzhita Kawakita and Tsukihara Tanaka
Influence of winter length on duration of dormancy and survival of specialized herbivorous Rhagoletis fruit flies from high elevation environments with acyclic climatic variability

M. Chen, M.K. Tanuki, K. Kao, M. Watanitaka, H. Watanitaka, K. Watanitaka and K. Watanitaka
Regional population differences of the brown planthopper (Nilaparvata lugens) in Cambodia using genotyping-by-sequencing

N.A. Santos, N.C. Teixeira, J.O.S. Valim, E.A. Almeida, M.G. Oliveira and W.S. Campos
Sulfur fertilization increases defense metabolites and nitrogen but decreases plant resistance against a hostspecific insect

J. Kat, A. Jahnkezy, M. Kuroi and Y. Zlotek
Biochemical responses induced in galls of three Cynipidae species in oak trees

A. Sharifloo, A. Zibaee, J. Jalali Sendi and K. Talebi Jahroumi
Biochemical characterization of a digestive trypsin in the midgut of large cabbage white butterfly, Pieris brassicae L. (Lepidoptera: Pieridae)

Y. Tan, Y. Zhang, X-J. Huo, X-R. Zhou and B-P. Pang
Molecular cloning of heat shock protein 10 (Hsp10) and 60 (Hsp60) cDNAs from Galeruca daurica, (Coleoptera: Chrysomelidae) and their expression analysis

Y. Scibichina, F. Dedelone, R. Mantovani and A. Lucchetti
Molecular systematics, biogeography, and colony fusion in the European drywood termites Kalotermitinae spp. (Blattodea, Termitidae, Kalotermitinae)

A. Tamos, A. Costilho, B.O. Soares, L. Peterelli, E.J.G. Pereira and M.H. Barbosa
Assessing resistance of sugarcane varieties to sugarcane borer Diatraea saccharalis Fab. (Lepidoptera: Pyralidae)

C. Melo, A.C. Tamos, B.O. Soares, K.N. Kuki, L.A. Peternelli and M.H. Pereira Barbosa
Assessing resistance of sugarcane varieties to sugarcane borer Diatraea saccharalis Fab. (Lepidoptera: Pyralidae)

C. Mello, A.C. Tamos, B.O. Soares, K.N. Kuki, L.A. Peterelli and M.H. Pereira Barbosa
Assessing resistance of sugarcane varieties to sugarcane borer Diatraea saccharalis Fab. (Lepidoptera: Pyralidae)

Aims and Scope
Established in 1910, the internationally recognised Bulletin of Entomological Research aims to further global knowledge of entomology through the generalisation of research findings rather than providing more entomological exceptions. The Bulletin publishes high quality and original research papers, critiques and review articles concerning insects or other arthropods of economic importance in agriculture, forestry, stored products, biological control, medicine, animal health and natural resource management. The scope of papers addresses the biology, ecology, behaviour, physiology and systematics of individuals and populations, with a particular emphasis upon the major current and emerging pests of agriculture, horticulture and forestry, and vectors of human and animal diseases. This includes the interactions between species (plants, hosts for parasites, natural enemies and whole communities), novel methodological developments, including molecular biology, in an applied context. The Bulletin does not publish the results of pesticide testing or traditional taxonomic revisions.

NOTES FOR AUTHORS
Please see the complete version (“Instructions for Contributors”) at journals.cambridge.org/ber

Subject Editors
Dr T. Backeljau, Royal Belgian Institute of Natural Sciences, Belgium
Dr R. Baxter, University of Adelaide, Australia
Dr T. Boykin, University of Western Australia, Australia
Professor M. Chen, Northcote AIB, University, China
Dr Chen Xue-Xin, Zhejiang University, China
Dr P. Cunningham, Queensland University of Technology, Australia
Dr S. Downes, CSIRO, Ecosystem Sciences, Australia
Dr R. Garrick, University of Mississippi, USA
Dr E. Gray, Colorado College, USA
Dr S. Hayward, University of Birmingham, UK
Dr A. K-W. Hsu, Universiti Putra Malaysia, Malaysia
Dr H. Hesketh, Centre for Ecology and Hydrology, UK
Dr B. Hoffmann, CSIRO, Ecosystem Sciences, Australia
Professor M. Juma, University of British Columbia, Canada
Dr T. H-Jones, Cardiff University, UK
Dr K. Kaneko, Nanyang University, Hong Kong, China
Dr K. Kittisuk, CSIRO Black Mountain Labs, Australian Capital Territory, Australia
Dr O. Kwon, Kyungkook National University, Korea
Dr B. Lavandero, Universidad de La Cal, Talca, Chile
Dr C-Y. Lee, Universiti Sains Malaysia, Malaysia
Professor S. Li, Shanghai Institutes for Biological Sciences, China
Professor Y. Lu, Chinese Academy of Agricultural Sciences, China

Styling of Paper
Bulletin of Entomological Research publishes two types of paper:

• Full Research papers
• Reviews

If the referees and editors judge a paper to be of particular significance then it will be fast-track for publication. We also welcome “Letters to the Editor” with comments on recently published papers.

Manuscript Preparation
Language
Manuscripts should be in English.

Manuscript content
Manuscripts should be prepared in Microsoft Word or similar according to the following structure:

• The text, divided under appropriate headings. Clearly differentiate between primary (bold), large font size), secondary (bold, not all font size) and tertiary (italics) headings
• Acknowledgements (if any)
• References (see further information about presenting references, please see below)
• Tables, either at the end of the manuscript or as separate files

Tables should be numbered consecutively with Arabic numerals and every table should be mentioned at least once in the text. Illustrations should be submitted as separate files in TIFF or EPS format but captions should be listed at the end of the manuscript text.

Abstract
Each paper must commence with an accurate, informative abstract. It should not exceed 250 words. A short title should also be provided for use as a running head.

References
References must be based on the name and year system, give full journal titles and conform to the following style:

Journals

Books

Proceedings

Communications for peer review will be by email as far as possible. Authors are invited to suggest the names and contact details of at least two potential referees and are asked to provide keywords indicating the context to which the manuscript most closely relates. In some cases, the author may give a brief description (no more than 50 words) of why the manuscript is an important contribution to entomology research.

Publication
Authors will be supplied with an agreement to publish form, which must be completed and returned to the Publisher. Publishers are accepted on the understanding that the work has been submitted exclusively to the Bulletin and has not been previously published elsewhere.

Proofs
Authors will receive a PDF file of page proofs by email, and will be asked to return corrected proofs within 72 hours.

Offprints
The author (or main author) of an accepted paper will receive a complimentary offprint. The offprint will be provided as a softcopy (e.g. PDF file) and can be ordered at proof stage.
Research Papers

X. Zhang, T. Pengsakul, M. Tukayo, L. Yu, W. Fang and D. Luo
Host-location behavior of the tea green leafhopper *Empoasca vitis* Göthe (Hemiptera: Cicadellidae): olfactory and visual effects on their orientation 423

P. Rempoulakis, S. Sela (Saldinger), E. Nemny-Lavy, R. Pinto, A. Birke and D. Nestel
Microbial composition affects the performance of an artificial Tephritid larval diet 434

N. Gunathilaka, T. Ranathunge, L. Udayanga, A. Wijegunawardena and W. Abeywickreme
Oviposition preferences of dengue vectors; *Aedes aegypti* and *Aedes albopictus* in Sri Lanka under laboratory settings 442

M.D. Cooling, B.D. Hoffmann, M.A.M. Gruber and P.J. Lester
Indirect evidence of pathogen-associated altered oocyte production in queens of the invasive yellow crazy ant, *Anoplolepis gracilipes*, in Arnhem Land, Australia 451

J. Rull, E. Tadeo, R. Lasa and M. Aluja
The effect of winter length on duration of dormancy and survival of specialized herbivorous *Rhagoletis* fruit flies from high elevation environments with acyclic climatic variability 461

M. Matsukawa, Mikako Tasaki, Kazuyuki Doi, Kasumi Ito, Kazuhito Kawakita and Toshiharu Tanaka
Regional population differences of the brown planthopper (*Nilaparvata lugens* Stål) in Cambodia using genotyping-by-sequencing 471

Sulfur fertilization increases defense metabolites and nitrogen but decreases plant resistance against a host-specific insect 479

J. Rozsypal, M. Moos and S.G. Goto
Cold acclimation increases cold tolerance independently of diapause programming in the bean bug, *Riptortus pedestris* 487

I. Kot, A. Jakubczyk, M. Karas and U. Zlotek
Biochemical responses induced in galls of three Cynipidae species in oak trees 494

A. Sharifloo, A. Zibaece, J. Jalali Sendi and K. Talebi Jahroumi
Biochemical characterization a digestive trypsin in the midgut of large cabbage white butterfly, *Pieris brassicae* L. (Lepidoptera: Pieridae) 501

Molecular cloning of heat shock protein 10 (Hsp10) and 60 (Hsp60) cDNAs from *Galeruca daurica* (Coleoptera: Chrysomelidae) and their expression analysis 510

V. Scicchitano, F. Dedeine, B. Mantovani and A. Luchetti
Molecular systematics, biogeography, and colony fusion in the European dry-wood termites *Kalotermes* spp. (Blattodea, Termitoidae, Kalotermitidae) 523

A.M. Cárdenas, P. Gallardo and D. Toledo
Suitability of multiple Mediterranean oak species as a food resource for *Reticulitermes grassei* Clément (Isoptera: Rhinotermitidae) 532

Biology of two larval morphological phenotypes of *Aedes aegypti* in Abidjan, Côte d’Ivoire 540

Assessing resistance of sugarcane varieties to sugarcane borer *Diatraea saccharalis* Fab. (Lepidoptera: Crambidae) 547

C.G. Melo, A.C. Tomaz, B.O. Soares, K.N. Kuki, L.A. Peternelli and M.H. Pereira Barbosa
Anatomical, morphological, and physiological responses of two sugarcane genotypes of contrasting susceptibility to *Mabanaarva fimbriolata* (Hemiptera: Cercopidae) 556
