AIMS AND SCOPE  Environment and Development Economics aims to publish papers on the environmental problems associated with the process of economic development. It encourages submission of two categories of paper. The first comprises scientific papers. The second comprises environmental policy discussion papers. The first is carried in a section on Theory and Applications. The second is carried in a regular section, Policy Options, and an occasional more focused Policy Forum.

The journal publishes on a wide range of topics including:

* the environmental impact of economy-wide policies
* optimal environmental regulation and incentives in a development context
* the valuation of environmental resources in developing countries and incentives in environmental policy
* the environmental effects of institutional change
* modelling interdependent economic and environmental processes
