Scope and contributions

International Psychogeriatrics is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, contributions from all over the field of mental health and aging. Original research papers are of particular weight.

Contributions include original research articles, case reports, reports of the interest of ed, and book reviews. Apart from abstracts and book reviews, which are commissioned, contributions to International Psychogeriatrics are, but are not published.

International Psychogeriatrics uses the spelling of American English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered.
