Politics & International Relations

Books and Journals from Cambridge University Press

The politics list at Cambridge is one of unparalleled quality and range.

Our books list routinely tops surveys of political scientists for the calibre of its output, which includes field-defining series such as Cambridge Studies in Comparative Politics, Cambridge Studies in International Relations and Cambridge Texts in the History of Political Thought.

American Political Science Review and International Organization are widely recognised as the leading generalist journals in political science and international relations, while the likes of British Journal of Political Science and World Politics remain essential reading for researchers worldwide.

For students and scholars across the breadth of political enquiry, Cambridge is the resource of choice.

Political Science Research and Methods

Political Science Research and Methods (PSRM) is a general political science journal dedicated to publishing original scholarly work of the highest quality from all subfields of political science. PSRM also welcomes work at the intersection of political science and related disciplines. Manuscripts should apply rigorous methods to empirical or theoretical problems. PSRM is the official journal of the European Political Science Association (EPSA), the organization that sets the journal's policies.

Editor-in-chief: Paul Kellstedt, Texas A&M University, USA

Associate Editors: Nils Metternich, University College, London, UK, Jude Hays, University of Pittsburgh, USA, Rafael Titunik, University of Michigan, USA, Massimo Morelli, Bocconi University, Italy, Anna Nenador, University of Nottingham, UK, Daniel Stegmüller, Duke University, USA

Media Editors: Mary Stegmaier, University of Missouri, USA, Laron Williams, University of Missouri, USA

Data Analyst: John Niehaus, Texas A&M University, USA

Editorial Assistants: KostaYanca Dhima, Texas A&M University, USA, Alejando Medina, Texas A&M University, USA

Editorial Board

Despina Alexiadou, Strathclyde, UK
James Alt, Harvard, USA
Ken Benoit, London School of Economics, UK
Allison Benton, CIDE, Mexico
Pablo Beramendi, Duke, USA
Anthony Bertelli, Bocconi, Italy
Sara El Behexi, London School of Economics, UK
Frederick Boimeke, Iowa, USA
Margot Bussmann, Göttingen, Germany
William Clarke, Texas A&M, USA
Scott Cook, Texas A&M, USA
Ruth Dassonneville, Montreal, Canada
Scottie Marchi, Duke, USA
Camille de Vries, Free University Amsterdam, The Netherlands
Elia Dinas, European University Institute, Italy
Andy Dorn, Oxford, UK
Fabio Franchino, Milan, Italy
Rob Frank, Michigan, USA
Fabrizio Ghirardi, Zurich, Switzerland
Sona Goldfer, Pennsylvania State, USA
James Gilling, Australia
Guy Grossman, Popham University, USA
Mark Halleberg, Hertie, Berlin, Germany
Dominik Hangartner, ETH, Switzerland
Sunshine Hillygus, Duke, USA
Simon Hix, London School of Economics, UK
Simon Hug, Geneva, Switzerland
Macartan Humphreys, Columbia, USA
Kouki Imai, Harvard, USA
Indridi Indridason, UC-Riverside, USA
Cindy Kam, Vanderbilt, USA
Mark Kayser, Hertie, Berlin, Germany
Heike Kluever, Humboldt, Germany
Thomas Koenig, Mannheim, Germany
Jennifer Larson, Vanderbilt, USA

PSRM welcomes comments to as well as replications of published articles. These will undergo the usual peer review process and if accepted will be published in the research notes section of the journal.

Replication Policy: PSRM has a strict replication policy which adheres to the Data Access and Research Transparency (DA-RT) statement subscribed to by many Political Science Journal Editors in 2015. Authors are required to make replication material publicly available at time of publication of the article. The replication materials must be sufficient to replicate results in all tables and figures printed in the article, including simulation material for both theoretical (e.g. agent based models) and empirical (e.g. Monte Carlo experiments) work. Data and replication code for your article, as well as a log demonstrating smooth running of all the replication files, must be uploaded in a single .zip file to the PSRM Dataverse at https://dataverse.harvard.edu/dataverse/PSRM. (See the PSRM Dataverse Guide for a step-by-step walkthrough for uploading your material, which is also linked to on the PSRM Dataverse homepage). This is a necessary condition for publication of the manuscript. All manuscripts are accepted contingent on their replicability, which will initially be assessed by PSRM staff. Manuscripts that are not replicable will be rejected for publication. If your analysis relies on simulation techniques (MCMC, MC experiments) we require authors to set and communicate a seed, so that exact results can be replicated. If this is impossible due to the design of the analysis, replication results need not deviate by more than 5 per cent from published results in the manuscript.

Authors are responsible for obtaining permission to reproduce any material they do not own the copyright for and for ensuring appropriate acknowledgment of such material. All manuscripts should follow the manuscript preparation guidelines available online in the full instructions for contributors.

Full Instructions for Contributors can be found online at http://www.journals.cambridge.org/psrm/ifc

Rights and Permissions info

All rights reserved. No part of this publication may be reproduced, stored or transmitted in any form or by any means without the prior permission in writing from the copyright holder. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with the C.C.C. may, therefore copy material (beyond the limits permitted by sections 107 and 108 of U.S. Copyright law) subject to payment to the C.C.C. of the appropriate fee per copy. This consent does not extend to multiple copying for promotional or commercial purposes.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Subscriptions

Political Science Research and Methods is published four times a year in January, April, July, and October. The 2019 subscription price (excluding VAT) of a volume, which includes print and electronic access, is $474.00 (US $675.00 in USA, Canada and Mexico), £39.00 (US $60.00) for individuals, which includes print and electronic access, ordered directly from the publishers and certifying that the journal is for their personal use. The electronic-only price available to institutional subscribers is £408.00 (US $649.00 in USA, Canada and Mexico). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country’s rate. VAT registered subscribers should provide their VAT registration number to ensure appropriate Japanese prices for institutions are available from Kinokuniya Company Ltd, PO. Box 55, Chishio, Tokyo 156, Japan. Orders, which must be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher: Cambridge University Press, Journals Fulfillment Department, UPH, Shalstone Road, Cambridge CB2 8BS, UK, or in the USA, Canada and Mexico: Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Periodicals postage paid at New York, NY and additional mailing offices.

Notes for Contributors

All manuscripts should be submitted via our on-line system, ScholarOne Manuscripts at: http://mc.manuscriptcentral.com/psrm

Other forms of submission will not be accepted by the editors. The journal publishes two types of articles:

a) full length manuscripts that present original, well researched, and fully developed empirical or theoretical work

b) research notes

Normal length articles that should not exceed 9,000 words in length, including tables, figures, footnotes, references and printed appendices, but excluding any supporting material that can be relegated to an online appendix. Research notes that should not exceed 4,000 words in length, including tables, figures, footnotes, references and printed appendices, but excluding any supporting material that can be relegated to an online appendix. Research notes should contain original work and present a new method or methodology (particularly useful if related software components are included) to solve an important problem in applied data analysis, present a new theoretical idea or argument, or comment on other published articles. PSRM welcomes comments to as well as replications of published articles. These will undergo the usual peer review process and if accepted will be published in the research notes section of the journal.

PSRM uses a single-blind peer review process, thus anonymizing your manuscript is not necessary.
