BIICL PARTNERSHIP OPPORTUNITIES

The demand for our work in a constantly changing world is growing and is limited only by our resources. We rely heavily on funding from law firms, corporations, international bodies, foundations, individuals and others. By supporting our work, donors and funders have an opportunity to make a positive and lasting difference around the world whilst raising their profile with our global network of legal practitioners, academics, in-house counsel, government officials, NGOs and students.

BIICL Anniversary Appeal

BIICL has launched its 60th Anniversary Appeal to raise £5 million for its international expansion over the next five years. In the short term, we have a pressing need to redevelop our public events space and office accommodation in London. The first £1.5 million raised through this Appeal will be used to cover the cost of this work, thus providing a firm foundation for us to achieve our longer-term ambitions.

The Bingham Appeal

The Bingham Centre for the Rule of Law was launched in 2010 for the promotion and enhancement of the rule of law worldwide. We are aiming to raise £5 million by 2020 to fund the Centre’s growing network of talented research fellows and portfolio of applied research projects.

The Arthur Watts Appeal

The Arthur Watts Senior Research Fellowship in Public International Law was founded in memory of the late Sir Arthur Watts, one of the leading international lawyers of his generation. The establishment of the Fellowship has been made possible by the generosity of numerous benefactors.

Funding Research Fellowships

We are very grateful to the Vivmar Foundation and the Dorset Foundation for their support for Senior Research Fellowships. We are currently seeking funding for further research fellowships in different areas of legal research and practice.

Research Projects

Our core funders may also choose to support a specific research project in an area of interest to them. This could be any subject which has an international and comparative law or rule of law focus and can be global, regional or sector specific.

Volunteer programmes

BIICL is fortunate to have the assistance of high quality research volunteers from all over the world, and is seeking funding to support this areas of BIICL’s work.

Events and Sponsorship

BIICL runs a dynamic and topical programme of events including conferences, lectures, dinners and seminars in the UK and overseas. These events attract high profile speakers and senior audiences of practitioners and academics. Sponsorship offers branding and speaking opportunities.

BIICL ACTIVITIES

Research
BIICL conducts research around the world across the broad range of public international law, private international law, comparative law and the rule of law. This includes areas such as competition law, European law, human rights law, international investment law, and product liability law. Our research often crosses traditional boundaries of law, so as to integrate private and public international law, and engages with national, European and comparative law.

Our research is primarily applied research, based on strong knowledge foundations. This enables our research to have practical consequences, establish influential recommendations for decision-makers, and have an impact on law and policy around the world.

Events
BIICL organises an exciting and diverse programme of events throughout the year. These bring leading speakers and participants from law firms, barristers’ chambers, corporations, government, non-governmental organisations, regulatory bodies, international organisations, academia, students and many others.

Our events deal with the many important contemporary international legal issues and developments. They include evening seminars and full-day conferences, open debates and confidential discussions. Events are generally open to all members and the public, and most events are CPD accredited for practitioners.

Forums

These invitation only discussion and working groups bring together senior experts to share experiences and exchange opinions, contribute to policy initiatives, and promote research in these important areas of law and practice.

Training and Development
The provision of specific and general training on international and comparative legal matters is another of our important activities. These activities range from short courses on specific topics within the UK, to capacity building in developing states. We offer high level expertise and practical experience, including from our network of practitioners and scholars, to enable an effective and engaging training programme.

Publications
Beyond ICLQ, BIICL publishes many of its major research projects, some of which are available free of charge, and other papers on contemporary legal issues. It also publishes a regular Newsletter.

Publication information and newsletters are available at www.biicl.org/publications.
The Bingham Centre for the Rule of Law

The Bingham Centre was launched in 2010. It is named after The Rt Hon Lord Bingham of Cornhill KG who promoted the maintenance and development of the rule of law. The Centre is devoted to the study and promotion of the rule of law worldwide, defining and implementing the rule of law as a universal and practical concept that upholds respect for human dignity and enhances economic development and political stability.

The British Institute of International and Comparative Law (BIICL) is a leading independent legal research and membership organisation with charitable status, unaffiliated to any university. It is the only body of its kind in the UK and one of very few in the world. It is not publicly or privately funded by any one government, institution or person. Established in 1958 and based in London with a dedicated team of staff, it brings together legal practitioners in private and public practice, in-house counsel, scholars and students, as members and contributors. It has developed a strong global network in international and comparative law and the rule of law.

BIICL undertakes five key activities: applied legal research, events, capacity-building training, publications and membership services. We conduct research around the world across the broad range of public international law, private international law, comparative law, competition law, European law and international investment law and the rule of law. Our focus is on applied research, based on strong conceptual foundations, which is practical, offers examples of good practice, and recommendations for policy and legal actions. Our activities often cross the traditional boundaries of law, so as to engage with contemporary national, regional and international issues, and we consistently have an impact on law and policy worldwide.

BIICL has created a diverse community of scholars and practitioners and serves as an unrivalled focal point for our substantial membership base. BIICL members include judges, practising lawyers, government officials, regulators, international civil servants, academics and students. We keep our members abreast of the latest developments in international and comparative law.

Within BIICL, the Bingham Centre for the Rule of Law is devoted to the study and promotion of the rule of law worldwide. Launched in 2010, the Centre has established a broad base of work internationally that highlights threats to the rule of law while promoting high quality studies and training.

When founded in 1952, the International and Comparative Law Quarterly was the only journal which offered the reader coverage of comparative law as well as public and private international law as well as European Union Law. Since then it has maintained its pre-eminence amongst journals of its kind and it continues to offer practitioners and academics wide topical coverage without compromising rigorous editorial standards.

Membership of the British Institute of International and Comparative Law brings with it a subscription to the International and Comparative Law Quarterly, or it is available as a personal annual subscription from the distributor Cambridge University Press.
