This journal disseminates the latest work of researchers in the social and biological sciences who study the older population of Canada and other countries; informs policy debates relevant to aging; seeks to improve the quality of life for Canada’s older population and for older populations in other parts of the world through the publication of research that focuses on the broad range of relevant issues; and encourages the exchange of the latest ideas in gerontological research.
International Psychogeriatrics
Published for the International Psychogeriatric Association

Editor-in-Chief
Nicola Lauterschläger, University of Melbourne, Australia

A highly respected, multidisciplinary journal, International Psychogeriatrics publishes high quality original research papers in the field of psychogeriatrics. The journal aims to be the leading peer reviewed journal dealing with all aspects of the mental health of older people throughout the world. Circulated to over 1,000 members of the International Psychogeriatric Association, International Psychogeriatrics also features important editorials, provocative debates, literature reviews, book reviews and letters to the editor.

The *Journal of Social Policy* carries high quality articles on all aspects of social policy in an international context. It places particular emphasis upon articles which seek to contribute to debates on the future direction of social policy, to present new empirical data, to advance theories, or to analyse issues in the making and implementation of social policies.

The *Journal of Social Policy* is part of the ‘Social Policy Package’ with *Social Policy and Society*.

AGEING & SOCIETY is an interdisciplinary and international journal devoted to the understanding of human ageing and later life, and the experiences and circumstances of older people in their social and cultural contexts. It draws contributions and has readers from many academic social science disciplines, and from clinical medicine and the humanities. In addition to original articles, AGEING & SOCIETY publishes book reviews, occasional review articles and special issues.

Subscriptions: Ageing & Society (ISSN 0144-686X) is published in volumes of ten parts in January, February, March, April, May, July, August, September, October and November. The subscription price (exclusive VAT) of volume 35, 2015, which includes print and electronic access, is £490.00 (US$820.00 in USA, Canada and Mexico) for institutions; £77.00 (US$ 132.00 in USA, Canada and Mexico) for individuals ordering direct from the Press and certifying that the journal is for their personal use only. Single issues are priced at £29 (US$ 48). Papers with more than one author must designate a corresponding author. The corresponding author must confirm that co-authors have read the paper and agree to its submission. The corresponding author should prepare (a) a complete text and (b) complete text minus the title page, acknowledgements, and any running headers of author names, to allow blinded review.

Instructions for contributors
All papers must be submitted using Manuscript Central through the journal’s website at: journals.cambridge.org/aso

Submission requirements
Submission of an article is taken to imply that it has not been published elsewhere. Authors will be required to confirm on submission of their article that the manuscript has been submitted solely to this journal and is not published, in press, or submitted elsewhere.

Proofs and offprints
Proofs will be sent to the corresponding author as a PDF via email for final proof reading. The proofs should be checked and any corrections returned within 2 days of receipt. The publisher reserves the right to charge authors for excessive correction of non-typographical errors. Authors will receive a PDF of the published paper and a copy of the journal, to go to the corresponding author. If offprints are required, these must be purchased at proof stage.

Preparation of manuscripts
Authors are requested to bear in mind the multi-disciplinary and international readership of the journal when writing their contribution. Care must be taken to draw out the implications of the analysis for readers in other fields, other countries, and other disciplines.

The stereotypical presentation of individuals or social groupings, including the use of ageist language, must be avoided. Articles must be between 3,000 and 9,000 words (excluding the abstract and references). All contributions (including reviews) should be typed double-spaced with at least one-inch or two centimetre margins in all directions (including notes and the list of references).

Most research articles usually have the following sections in sequence: Title page, Abstract (200-300 words), Keywords (three to eight), Main text, Statement of ethical approval as appropriate, Statement of funding, Declaration of contribution of authors, Statement of conflict of interest, Acknowledgements, Notes, References, Correspondence address for lead author. The tables and figures should be presented one to a page in sequence at the end of the paper. The title page should give the title of the article and the author(s)’ names, affiliations and postal and email addresses.

Authors are asked to follow the current style conventions as closely as possible. Please consult a very recent issue of the journal and download the full instructions for contributors from the journal’s website: journals.cambridge.org/aso
CONTENTS

ARTICLES

2033 Referees for volume 35, 2015

2039 GINA BRAVO, MARIE-FRANCE DUBOIS, NICOLE DUBUC, LOUIS DEMERS, DANIELE BLANCHETTE, KAREN PAINTER, CATHERINE LESTAGE and CINTHIA CORBIN: Comparing the resident populations of private and public long-term care facilities over a 15-year period: a study from Quebec, Canada
