## ANNOUNCEMENT

---

### POLICY ON ILLUSTRATIONS FOR THE *JOURNAL*

Beginning with the January 1988 issue, the *Journal of Paleontology* will change to a page size of  $8\frac{1}{2} \times 11$  inches. Therefore, effective immediately, figures accompanying manuscripts submitted for publication must be at full page size of  $18.3 \times 23.3$  cm, or at double column width of 18.3 cm, or at single column width of 9.0 cm. All figures must be submitted at publication size and each mounted upon  $8\frac{1}{2} \times 11$  in. ( $21.5 \times 28$  cm) white cardboard. Background may be either white or black. Only original prints of half-tone illustrations will be accepted, because those that previously have been screened will not provide acceptable reproduction. Use numbers (not letters) to identify multiple parts of a figure. Half-tones mounted as multiple square or rectangular parts of a figure should be butted together along straight lines with numbers affixed on the lower right-hand corners of the different parts.
