## INTERNATIONAL BULLETIN OF BACTERIOLOGICAL NOMENCLATURE AND TAXONOMY

Official Organ of the Judicial Commission and of the  
International Committee on Bacteriological Nomenclature  
of the International Association of Microbiologists

In January 1951 the International Association of Microbiologists published the first issue of a quarterly *Bulletin* dealing with bacterial nomenclature and taxonomy.

The *Bulletin* is intended as a reference journal for all interested in bacterial nomenclature. It will contain the official text of amendments to the Bacteriological Code and of "Opinions" issued by the Judicial Commission; it will publish all proposed amendments to the Code; and it will invite discussion and comment from interested bacteriologists before each problem is formally presented to the Judicial Commission or to the Nomenclature Committee.

Papers supported by experimental evidence will not appear in the *Bulletin*; but problems of taxonomy will be reviewed and discussed and recommendations of international consequence may result.

The annual subscription of \$2 (two U.S. dollars) can be made either by money order or by Unesco Book Coupon (obtained from Book Tokens Ltd., 28 Little Russell Street, London, W.C. 1). It should be made payable to the International Microbiological Fund and sent to Professor R. E. Buchanan, Room 24, Curtiss Hall, Iowa State College, Ames, Iowa, U.S.A.
