

# JOURNAL OF APPLIED BACTERIOLOGY

Published for the Society for Applied Bacteriology

Editors:

M. Sussman Newcastle-upon-Tyne, F.A. Skinner Harpenden, G.I. Barrow Salisbury

The Society for Applied Bacteriology launched the *Journal of Applied Bacteriology* in 1954 and since that time the journal has grown in size, in prestige and in the subject matter covered. It has established an international reputation with readers and authors; indeed each number of the journal contains papers from worldwide sources. The Society's interest in the systematics and ecology of groups of microorganisms is reflected in the journal, which publishes five types of article:

*Review articles*: a substantial survey with an adequate historical perspective;

*Observation articles*: a succinct discussion of current concepts and developments in applied microbiology;

*Full-length papers*: the development of concepts as well as the recording of facts; *A note on...:* research having narrow, readily defined limits, or contributions to the knowledge but not the development of concepts;

*Technical notes*: details of new methods, techniques or apparatus.

## Subscription Information

*Journal of Applied Bacteriology* is published monthly together with *Letters in Applied Microbiology*. The subscription also includes the Annual S.A.B. Symposium volume and rates for 1990 are £148.00 (UK), £171.00 (overseas) and US\$285.00 (USA & Canada) post free.
