Articles
Symposium on Tempo and Mode of Evolution from Micropaleontological Data
Introduction William A. Berggren and Richard E. Casey 326
Speciation in pelagic Protista and its study in the planktonic microfossil record: a review David Lazarus 327
Evolution and hybridization in the radiolarian genera Theocorythium and Lamprocyclas Colin Baker 341
Phenology of morphologic change in radiolarian lineages from deep-sea cores: implications for macroevolution Davida E. Kellogg 355
Biogeographic and ecologic perspective on polycystine radiolarian evolution Richard E. Casey, Cynthia R. Wigley, and Ana Maria Perez-Guzmán 363
Evidence for punctuated gradualism in the Late Neogene Globorotalia tumida lineage of planktonic foraminifera Björn A. Malmgren, W. A. Berggren, and G. P. Lohmann 377
Phyletic evolution in the Globorotalia crassaformis (Galloway and Wissler) lineage: a preliminary report Anthony J. Arnold 390
Biomechanical stability and sudden change in the evolution of the deep-sea ostracode Poseidonamicus Richard H. Benson 398
Equatorward migration of Globorotalia truncatulinoides ecophenotypes through the Late Pleistocene: Gradual evolution or ocean change? G. P. Lohmann and Björn A. Malmgren 414
Gradual evolution in a planktonic foraminiferal lineage reconsidered. Divergences and phyletic transformations in the history of the Globorotalia inflata lineage George H. Scott 422
Phyletic gradualism in the Globorotalia inflata lineage vindicated Björn A. Malmgren and James P. Kennett 427

Review
Biotic Interactions in Recent and Fossil Benthic Communities, edited by Michael J. S. Tevesz and Peter L. McCall Charles H. Peterson 429

ASSOCIATE EDITORS

Class of 1983
Paleobotany  LEO HICKEY, Yale University
             KARL J. NIKLAS, Cornell University
Zoology    GEORGE V. LAUDER, JR., University of Chicago
             RICHARD R. STRATHMANN, University of Washington
             GEERAT J. VERMEIJ, University of Maryland
Paleozoology HERBERT R. BARCHUSSEN, University of Illinois Medical Center
             STEPHEN J. GOULD, Harvard University
             JENNIFER A. KITCHELL, University of Wisconsin
             RICHARD G. KLEIN, University of Chicago
             DAVID L. MEYER, University of Cincinnati
             ALBERT J. ROWELL, University of Kansas
             THOMAS J. M. SCHOFF, University of Chicago

Class of 1984
Botany      DANIEL J. CRAWFORD, The Ohio State University
Paleobotany  THEODORE DELEVORYAS, University of Texas
Zoology      LAWRENCE G. ABELE, Florida State University
             PAUL K. DAYTON, Scripps Institution of Oceanography
             A. RICHARD PALMER, University of Alberta and Bamfield Marine Station
             ROBERT E. RICKLEFS, University of Pennsylvania
             MONTGOMERY Slatkin, University of Washington
             STEPHEN A. WAINWRIGHT, Duke University
Paleozoology  JOHN R. BOLT, Field Museum of Natural History, Chicago
             ALAN H. CHEETHAM, National Museum of Natural History
             GEORGE R. McGHEE, JR., Rutgers University
             DAVID M. RAUP, University of Chicago
             CHARLES W. THAYER, University of Pennsylvania
             ROGER D. K. THOMAS, Franklin and Marshall College

Class of 1985
Paleobotany  ANDREW H. KNOLL, Harvard University
             BRUCE H. TIFFNEY, Yale University
Zoology      MICHAEL LABARBERA, University of Chicago
             MICHAEL ROSENZWEIG, University of Arizona
             ALAN R. TEMPLETON, Washington University
Paleozoology  ANNA K. BEHRENSMEYER, U.S. National Museum
             JOHN A. CHAMBERLAIN, Brooklyn College
             PHILIP D. GINGERICH, University of Michigan
             DAVID JABLONSKI, University of Arizona
             JEFFREY S. LEVINTON, State University of New York, Stony Brook
             PETER D. WARD, University of California, Davis

Address ALL matters regarding SUBSCRIPTIONS to:
Paleobiology Subscriptions,
P.O. Box 115,
Jacksonville, N.Y. 14854

Although published by the Paleontological Society, a subscription to PALEOBIOLoGY is in addition to the society dues. There are three groups of subscribers. For 1983, subscriptions are:
(1) $18.00 for regular subscribers.
(2) $16.00 for members of the Paleontological Society (dues to PS are $35.00); or ordinary and student members of the Palaeontological Association (dues to PA are $24.00).
(3) $30.00 for institutions.

Back volume: $20.00 for all individuals; $32.00 for institutions.
The Paleontological Society acknowledges with special thanks, Patrons and Institutional Supporters of *Paleobiology* for 1983.

The purpose of establishing the Patrons Fund is to broaden the basis of financial support for *Paleobiology*, and thus to encourage paleontological publication.

$50.00 to $100.00, at the discretion of the Contributor

For you, or your institution, to become a Patron, send a check payable to *Paleobiology* to:

takes great pleasure in announcing the winner of

THE FIRST GEORGE GAYLORD SIMPSON PRIZE

in honor of our illustrious Yale and Peabody alumnus.

The Prize was awarded on January 26, 1984 at Yale
to

KARL J. NIKLAS
Department of Plant Biology
Cornell University

for his paper

Airflow Patterns Around Some Early Seed Plant Ovules and Cu-
pules: Implications Concerning Efficiency in Wind Pollination.

---

**Off Press June 1984—**

**Quaternary Extinctions**

*Paul S. Martin & Richard G. Klein, eds.*

For the first time since the publication of *Pleistocene Extinctions* in 1967, the latest in Quaternary research is available in one comprehensive volume. Editors Martin and Klein have assembled a team of 45 international authorities who support prevailing theories—climate vs. overkill—of faunal extinction in the Quaternary and also present findings from major sites and regions. The contributors’ backgrounds in archaeology, ecology, geology, and zoology—as well as paleontology—make this a truly multi-disciplinary work. No other book is as thorough, timely, or authoritative in addressing this controversy.

About 885 pp. (7 × 10), illustd. $65.00.

---

**Just Reissued—**

**Structure and Distribution of Coral Reefs**

*Charles Darwin*

256 pp. (5½ × 8½), illustd. $7.95 paperbound.
